When Brendon Burchard was 19 years old he was in a life-changing car crash. After speeding around a hairpin turn in the Dominican Republic he and his friend were catapulted into the air and, as the car flipped, Brendon pondered three essential questions: Did I live? Did I love? Did I matter? When the car landed and to his amazement he was still alive, Brendon realized that he didn't have satisfying answers to those questions, but he did have an idea as to how to get them. He began the process of crafting his life story into one that would make a difference in the world, inspire others and show them how they too could share their passions with a wide audience. Brendon launched what has become a million dollar consulting, book writing and public speaking business, all based on his mission to spread his message to the world. In *The Millionaire Messenger*, Brendon offers a 10-step plan that will help readers develop their message, package their advice in an attractive way, gain a following and, perhaps most importantly, make money in this effort. By following his programme, ordinary people can learn to package their struggles, successes, research or life's story into advice for others and become experts on any given topic. In the industry of people who share their advice and knowledge with the world and get paid for it, Burchard is the 'guru's guru'.

"The Motivation Manifesto is a poetic and powerful call to reclaim our lives and find our own personal freedom. It's a triumphant work that transcends the title, lifting the reader from mere motivation into a soaringly purposeful and meaningful life. I love this book."  
—Paulo Coelho  
The Motivation Manifesto is a pulsing, articulate, ferocious call to claim our personal power. World-renowned high performance trainer Brendon Burchard reveals that the main motive of humankind is the pursuit of greater Personal Freedom. We desire the grand liberties of choice—time freedom, emotional freedom, social freedom, financial freedom, spiritual freedom. Only two enemies stand in our way: an external enemy, defined as the social oppression of who we are by the mediocre masses, and an internal enemy, a sort of self-oppression caused by our own doubt and fear. The march to Personal Freedom, Burchard argues, can be won only by declaring our intent and independence, stepping into our personal power, and battling through self-doubt and the distractions of the day until full victory is won. Recalling the revolutionist voices of the past that chose freedom over tyranny, Burchard—at times poetic yet always fierce—motivates us to free ourselves from fear and take back our lives once and for all.

THESE HABITS WILL MAKE YOU EXTRAORDINARY. Twenty years ago, author Brendon Burchard became obsessed with answering three questions: 1. Why do some individuals and teams succeed more quickly than others and sustain that success over the long term? 2. Of those who pull it off, why are some miserable and others consistently happy on their journey? 3. What motivates people to reach for higher levels of success in the first place, and what practices help them improve the most After extensive original research and a decade as the world's leading high performance coach, Burchard found the answers. It turns out that just six deliberate habits give you the edge. Anyone can practice these habits and, when they do, extraordinary things happen in their lives, relationships, and careers. Which habits

can help you achieve long-term success and vibrant well-being no matter your age, career, strengths, or personality? To become a high performer, you must seek clarity, generate energy, raise necessity, increase productivity, develop influence, and demonstrate courage. The art and science of how to do all this is what this book is about. Whether you want to get more done, lead others better, develop skill faster, or dramatically increase your sense of joy and confidence, the habits in this book will help you achieve it faster. Each of the six habits is illustrated by powerful vignettes, cutting-edge science, thought-provoking exercises, and real-world daily practices you can implement right now. An ancient title of respect for women, the word “cunt” long ago veered off this noble path. Inga Muscio traces the road from honor to expletive, giving women the motivation and tools to claim “cunt” as a positive and powerful force in their lives. With humor and candor, she shares her own history as she explores the cultural forces that influence women’s relationships with their bodies. Kevin Kruse knows two things about leadership that most people do not believe: First, leadership is a superpower. Second, almost everything we’ve been taught about leadership is wrong. In *Great Leaders Have No Rules*, New York Times bestselling author and highly successful entrepreneur Kevin Kruse debunks popular wisdom with ten contrarian principles for better, faster, easier leadership. Grounded in solid research and three decades of entrepreneurial experience, this book has one purpose: to teach you how to be both the boss everyone wants to work for and the high achiever every CEO wants to hire—all without drama, stress, or endless hours in the office. Inspired by Kruse's viral article "Why Successful Leaders Don't Have an Open Door Policy," this contrarian approach to leadership reveals why you should throw out the rulebook and instead play favorites, crowd your calendar, tell employees everything (even salaries), stay out of meetings, hide your phone, and more. Kruse makes the case for these principles with engaging real-world stories and case studies, and shows how to use this wisdom to buck the trend and become more effective. He also shares

applications beyond the office—at home, in sales, in sports, and more. Ultimately, his advice empowers you to focus on what matters, which is the key to success for you, your employees, and your company.

Figure skating is an incredibly beautiful and at the same time incredibly competitive sport. Every year tens of thousands of kids come to sports sections but only few of them reach the top. What is the path that a young figure skater and their parents have to go? How do kids from small towns get into the capital sport clubs? What is there behind the victories in international competitions? What does success depend on - working with distinguished coaches or the character itself? What is the price of medals? This is a true story of Alexandra Trusova. The girl who has made her way from the children's figure skating section to the podiums of the European and World Championships. The strongest figure skater in the world with an incredibly complex set of Ultra C elements. The figure skater who opened a new era of quadruple jumps in women's single skating. Here you will learn everything about modern figure skating seen through the eyes of Alexandra's parents, her coaches and the athlete herself. You'll learn about the way up and everything that is usually behind the scenes of this truly ultra-competitive sport. "Character, obstinacy, hard work... You can't even count the times the author of the book uses these words. And that is because no other words can describe Sasha better - the girl who changed the world of figure skating forever. And us as well. I'd really like this book to be read not only by Sasha's fans but by as many boys and girls as possible, because Sasha's

example proves that if you really want to, you can achieve anything. The main condition is to work hard. And first of all, to work on yourself". Maria Komandnaya, TV presenter, sports journalist.

The first-ever collection of writings by Christian D. Larson, author of the famous "Optimist Creed" and one of the twentieth-century's pioneers of motivational thought. Contemporary research has shown that optimistic people experience longer and healthier lives, better relationships, and higher incomes. Generations before such findings, however, inspirational writer Christian D. Larson showed an amazing grasp of the life-changing power of gratitude and optimism. Today, Larson is known worldwide for his powerful meditation, "The Optimist Creed," and other classics of spiritual living. But no single volume has collected his greatest writings. Here, at last, is a long-overdue anthology that makes Larson's foundational writings available to the countless readers who already know his name and work. Like no one else of his day, Larson understood the metaphysical and psychological dimensions of grateful living – or, as he famously put it, "an attitude of gratitude." Affirmative thought, Larson reasoned, sets in motion unseen forces, both spiritual and psychical, and aids in manifesting our desires. The Optimist Creed features complete editions of

Larson's most deeply affecting works, each redesigned and reset. It contains: *The Pathway of Roses*; *Your Forces and How to Use Them* (the work that features his original "Optimist Creed"); *Mastery of Self*; *The Ideal Made Real*; and *Just Be Glad*.

A fictionalized account on one man's journey through a "theme park of life" after being implored by his dying fiancée to go and discover... Trapped in a prison of his past so he can't see the possibilities, the gifts and the choices available to him, his journey is our journey. Based on Brendon's experience teaching and coaching, he realizes that people never transform the quality of their lives unless their hearts and minds are truly engaged in changing - they need to have a deep, emotional reason to change. The Higher Reality of Business The health of business is inextricably linked with the health of humanity and nature. But our current approaches to leadership treat business as entirely separate—and the result has been recurring economic, environmental, and human crises. In this extraordinary book, Ram Nidumolu uses evocative parables and stories from the ancient Indian wisdom texts, the Upanishads, to introduce Being-centered leadership. This new kind of leadership is anchored in the concept of Being, the fundamental reality that underlies all phenomena. Being-centered leaders are guided by an innate sense of interconnection—the good of the whole becomes an integral part of their decisions and actions. Using the experiences of over twenty trailblazing CEOs, as well as those from his own life, Nidumolu describes a four-stage road map every aspiring leader can use to reconnect business to the wider world—to the benefit of all.
