The following 1973-1935 Cadillac, LaSalle models are covered: 355 D, 370 D, 452 D, Series 350, Series 50. This factory written Detroit Iron shop manual is perfect for the restorer or anyone working on one of these vehicles.

### Chilton's General Motors Chevy Mid-size Cars, 1964-88

### Repair Manual Detroit Iron

Modern cars and trucks require a new breed of service Manual. Total Car Care is the only manual you'll need to keep your vehicle in peak condition.

### Cadillac FWD, 1990-93 Haynes Publications

Cars continue to be more complicated — and more costly to repair. Expert, Dave Stribling, gives readers the basic knowledge and a lot of know-how in Idiot's Guides: Auto Repair and Maintenance. Dozens of step-by-step, full-color photos and illustrations make DIY car repairs and maintenance so much easier, regardless of make or model. And when a repair calls for an expert, this book gives readers the knowledge they need to avoid unnecessary repairs and cost.

### How to Repair and Restore Bodywork Detroit Iron

The Chilton 2010 Service Manuals now include even better graphics and expanded procedures! Chilton's editors have put together the most current automotive repair information available to assist users. These new manuals allow users to accurately and efficiently diagnose and repair late-model cars and trucks. Trust the step-by-step procedures and helpful illustrations that only Chilton can provide. The 2010 Service

Manuals cover 2008 and 2009 models plus available 2010 models.

Paperback - 8-1/4 x 10-1/2 - 228 pages - 547 b/w

1976 Cadillac Seville Fisher Body Service Manual Haynes Publications

Good news! This book is your first step toward your independence from fear and anxiety about having a repair issue with your vehicle. No experience necessary! And no tools! You're not going to learn to be a certified technician; rather, I will teach you about your vehicle and the important parts of the vehicle that you need to keep an eye on. I will guide you to where you can get the information about your vehicle that you are going to need to know and the manufacturer wants you to have. No Internet or cell phone necessary. We are going to look at ways to understand the issue with your vehicle and then clearly communicate that information to the repair shop. We will take it slow and cover all the basics. As we move forward, I'll add a layer of relevant information, adding in some cases to what you have already learned. We will avoid information overload or paralysis from analysis. Knowledge is king. Gone are the days of "I only put gas in it." From reading and referring to this book, you are going to understand and be able to take control of your vehicle's wellness and repair. Congratulations!
