Lillian Smith's
writing is at
the same time
lyrical and
deeply infused
with polemics.
She was no

stranger to controversy, for both her nonfiction and her novels were passionately charged. She freely admitted that she used literature as a means for challenging southern cultural norms, particularly in regard to race. She is the author of Killers of the Dream and of two novels, One Hour and the best-selling Strange Fruit, that are thinly veiled autobiography . In Now Is the

Time Smith combines the genres of personal essay, confession, propaganda, and documentary to create a moving defense of the inclusive democratic vision she sees as America's true legacy. While broad and visionary in its themes, her book is practical in its approach and its solutions. With wit, intensity, and moral certitude, she answers twenty-five basic

questions about race relations, including "Is not education better than legislation?" and "If God wanted the races to mix, why didn't He make us all the same color?" Her commingling of disparate genres makes Now Is the Time more than simply a tract but a document of a nation under the force of tumultuous change. This new edition, with an afterword by Will Brantley, brings back into print a

classic that states America's moral commitment to civil rights. Lillian Smith (1897-1966) lived in north Georgia and is the author of numerous essays and seven books including *Strange Fruit* and *Killers of the Dream*. Dream Thief (The Secrets of Droon

#17) UNC Press Books In the 1949 classic *Killers of the Dream*, Lillian Smith described three racial "ghosts" haunting the mind of the white South: the black

woman with whom the white man often had sexual relations, the rejected child from a mixed-race coupling, and the black mammy whom the white southern child first loves but then must reject. In this groundbreaking work, Robert H. Brinkmeyer, Jr., extends Smith's work by adding a fourth "ghost" lurking in the psyche of the white South -- the specter of European Fascism. He explores how

southern writers of the 1930s and 1940s responded to Fascism, and most tellingly to the suggestion that the racial politics of Nazi Germany had a special, problematic relevance to the South and its segregated social system. As Brinkmeyer shows, nearly all white southern writers in these decades felt impelled to deal with this specter and with the implications for southern identity of the issues raised

by Nazism and Fascism. Their responses varied widely, ranging from repression and denial to the repulsion of self-recognition. With penetrating insight, Brinkmeyer examines the work of writers who contemplated the connection between the authoritarianism and racial politics of Nazi Germany and southern culture. He shows how white southern writers -- both those writing

cultural criticism and those writing imaginative literature -- turned to Fascist Europe for images, analogies, and metaphors for representing and understanding the conflict between traditional and modern cultures that they were witnessing in Dixie. Brinkmeyer considers the works of a wide range of authors of varying political stripes: the Nashville Agrarians, W. J. Cash, Lillian

Smith, William Alexander Percy, Thomas Wolfe, William Faulkner, Katherine Anne Porter, Carson McCullers, Robert Penn Warren, and Lillian Hellman. He argues persuasively that by engaging in their works the vital contemporary debates about totalitarianism and democracy, these writers reconfigured their understanding not only of the South but also of themselves as

southerners, and of the nature and significance of their art. The magnum opus of a distinguished scholar, *The Fourth Ghost* offers a stunning reassessment of the cultural and political orientation of southern literature by examining a major and heretofore unexplored influence on its development. *Ely Scholastic Inc.* Ely Green was born in Sewanee, Tennessee, in 1893. His

father was a member of the white gentry, the son of a former Confederate officer. His mother was a housemaid, the daughter of a former slave. In this small Episcopal community--home to the University of the South--Ely lived his early childhood oblivious to the implications of his illegitimacy and his parentage. He was nearly nine years old before he realized that

being different from his white playmates was of any real significance. An incident at a local drugstore marked the beginning of what would be a painful rite of passage from an idyllic childhood through a tormented adolescence as Ely struggled to understand why he could not wholly belong to either his father's world or his mother's. "I was having a struggle within," he

writes, ". . . learning to hate white people after I had been taught that they were all God's children and we are to love everybody." At age eighteen, still warring to reconcile one part of himself with the other, he fled the mountains of Tennessee--and a brewing lynch mob--for the plains of Texas and a new beginning. Straightforwardly recounting his early life, rising above bitterness and pain, Ely

Green gives his readers an astoundingly honest and poignant portrait of a young man trying to come to terms with race relations in the early twentieth-century South. he kills an alien diplomat in a most . . . unusual . . . way. To avoid war, Earth's government must find an equally unusual object: a type of sheep ("The Android's Dream"), used in the alien race's coronation ceremony. To find the sheep, the government turns to Harry Creek, ex-cop, war hero and hacker extraordinaire, who, with the help of a childhood friend turned artificial intelligence,

scours the earth looking for the rare creature. But there are others with plans for the sheep as well. Mercenaries employed by the military. Adherents of a secret religion based on the writings of a 21st century SF author. And alien races, eager to start a revolution on their home world and a war on Earth. To keep our planet from being enslaved, Harry will have to pull off a grand diplomatic coup, a

gambit that will take him from the halls of power to the lava-strewn battlefields of alien worlds. Water for Elephants, Queen of the Air brings the circus world to life through the gorgeously written, true story of renowned trapeze artist and circus performer Leitzel, Queen of the Air, the most famous woman in the world at the turn of the 20th century, and her star-crossed love affair with Alfredo Codona, of the famous Flying Codona Brothers. Like today's Beyonce, Madonna, and

Cher, she was known to her vast public by just one name, Leitzel. There may have been some regions on earth where her name was not a household expression, but if so, they were likely on polar ice caps or in the darkest, deepest jungles. Leitzel was born into Dickensian circumstances, and became a princess and then a queen. She was not much bigger than a good size fairy, just four-foot-ten

and less than 100 pounds. In the first part of the 20th century, she presided over a sawdust fiefdom of never-ending magic. She was the biggest star ever of the biggest circus ever, the Ringling Bros. and Barnum & Bailey Circus, The Greatest Show on Earth. In her life, Leitzel had many suitors (and three husbands), but only one man ever fully captured her heart. He was the handsome

Alfredo Codona, the greatest trapeze flyer that had ever lived, the only one in his time who, night after night, executed the deadliest of all big-top feats, The Triple--three somersaults in midair while traveling at 60 m.p.h. The Triple, the salto mortale, as the Italians called it, took the lives of more daredevils than any other circus stunt. Black Like Me Schocken Biological races do not exist—and

never have. This view is shared by all scientists who study variation in human populations. Yet racial prejudice and intolerance based on the myth of race remain deeply ingrained in Western society. In his powerful examination of a persistent, false, and poisonous idea, Robert Sussman explores how race emerged as a social construct from early biblical justifications to the

pseudoscientific studies of today. The Myth of Race traces the origins of modern racist ideology to the Spanish Inquisition, revealing how sixteenth-century theories of racial degeneration became a crucial justification for Western imperialism and slavery. In the nineteenth century, these theories fused with Darwinism to produce the highly influential and pernicious eugenics

movement. Believing that traits from cranial shape to raw intelligence were immutable, eugenicists developed hierarchies that classified certain races, especially fair-skinned “Aryans,” as superior to others. These ideologues proposed programs of intelligence testing, selective breeding, and human sterilization—policies that fed straight into Nazi genocide. Sussman

examines how opponents of eugenics, guided by the German-American anthropologist Franz Boas’s new, scientifically supported concept of culture, exposed fallacies in racist thinking. Although eugenics is now widely discredited, some groups and individuals today claim a new scientific basis for old racist assumptions. Pondering the continuing influence of

racist research and thought, despite all evidence to the contrary, Sussman explains why—when it comes to race—too many people still mistake bigotry for science.

Goldberger's War Brown Thrasher Books
 A clever and complex woman builds an ice cream empire after immigrating from Russia in this stunning novel of power, Prohibition, and performance set against the backdrop of early 20th-century America. In 1913, little Malka Treynovsky flees Russia with her family. Bedazzled by tales of gold and movie

stardom, she tricks them into buying tickets for America. Yet no sooner do they land on the squalid Lower East Side of Manhattan, than Malka is crippled and abandoned in the street. Taken in by a tough-loving Italian ices peddler, she manages to survive through cunning and inventiveness. As she learns the secrets of his trade, she begins to shape her own destiny. She falls in love with a

gorgeous, illiterate radical named Albert, and they set off across America in an ice cream truck. Slowly, she transforms herself into Lillian Dunkle, "The Ice Cream Queen" -- doyenne of an empire of ice cream franchises and a celebrated television personality. Lillian's rise to fame and fortune spans seventy years and is inextricably linked to the course of American history itself,

from Prohibition to the disco days of Studio 54. Yet Lillian Dunkle is nothing like the whimsical motherly persona she crafts for herself in the media. Conniving, profane, and irreverent, she is a supremely complex woman who prefers a good stiff drink to an ice cream cone. And when her past begins to catch up with her, everything she has spent her life building is at stake.

The Southern Past UNC Press Books
 "In her hands, Gil Harrington held both the abomination of her daughter's gap-toothed skull, and the mother of her daughter's killer, blessing them both. The phone rang that bright October morning: "Hello, this is the Charlottesville Police Department calling. We've found your daughter's purse on the ground..." For exactly 100 nights, Gil

Harrington and her family stumbled, agonized, and learned to function in the uncharted hell of the Missing. Twenty-year old beautiful college co-ed Morgan Harrington, chock-a-block full of potential and promise, had gone to a concert and vanished. This is the story of a devastated mother crawling out of blind grief to become America's most skilled huntress. With love, eloquence, and social

media as her only weapons, Gil Harrington pursued her daughter's murderer for five years until he was unmasked as the marauding serial murderer, the Back to School Killer who had hidden in plain sight as a genial, lumbering Charlottesville, Virginia cabbie. Morgan's mother was so crucial in the pursuit of the Back-to-School Rapist and Killer, Jesse Matthew, that Crime Stoppers

recognized Gil and her non-profit foundation, Help Save the Next Girl, in solving what prosecutors called "the Super Bowl of Crime Cases." But Gil Harrington, this mother of a murdered precious daughter, is something very different from an investigator. Hers is one of the rare, intimate voices needed in our world right now, when fear and hatred are rampant. Her voice marries the

pragmatism of an incisive oncology nurse and the originality of an authentic, raw prose-poet to give the world the tool kit we all need to forge hope.

Harrington's voice is joined by artist, Jane Lillian Vance, who attended Matthew's trials. Vance's essays witness Gil's grace, and the stunning alchemy of darkness into freedom." --

Lillian Too's Little Book of Feng Shui

Univ. Press of Mississippi

This modern classic of LGBT writing includes an introduction from Carmen Maria Machado, author of *Her Body and Other Parties*, and a new afterword from Lillian Faderman.

Born in 1940, Lillian

Faderman is the only child of an uneducated and unmarried

Jewish woman who left Latvia to seek a better life in America. Lillian grew up in poverty, but fantasised about becoming an actress. When her dreams led to the dangerous, seductive world of the sex trade and sham-marriages in Hollywood of the fifties, she realised she was attracted to women, and that

show-biz is as cruel as they say. Desperately seeking to make her life meaningful, she studied at Berkeley; paying her way by working as a pin-up model and burlesque dancer, hiding her lesbian affairs from the outside world. At last she became a brilliant student and the woman who becomes

a loving partner, a devoted mother, an acclaimed writer and ground-breaking pioneer of gay and lesbian scholarship. Told with wrenching immediacy and great power, Naked in the Promised Land is the story of an exceptional woman and her remarkable, unorthodox life.
