NEW YORK TIMES BESTSELLER • Perfect for fans of A Song of Ice and Fire and HBO's Game of Thrones—an epic history of Westeros and the lands beyond, featuring hundreds of pages of all-new material from George R. R. Martin! If the past is prologue, then George R. R. Martin's masterwork—the most inventive

and entertaining fantasy saga of our time—warrants one hell of an introduction. At long last, it has arrived with The World of Ice & Fire. This lavishly illustrated volume is a comprehensive history of the Seven Kingdoms, providing vividly constructed accounts of the epic battles, bitter rivalries, and daring rebellions that lead to the events of A Song of Ice and Fire and HBO's Game of Thrones. In a collaboration that's been years in the making, Martin has teamed with Elio M. García, Jr., and Linda Antonsson, the founders of the renowned fan site

Westeros.org—perhaps the only people who know this world almost as well as its visionary creator. Collected here is all the accumulated knowledge, scholarly speculation, and inherited folk tales of maesters and septons, maegi and singers, including • artwork and maps, with more than 170 original pieces • full family trees for Houses Stark, Lannister, and Targaryen • in-depth explorations of the history and culture of Westeros • 100% all-new material, more than half of which Martin wrote specifically for this book The definitive companion piece to George R. R.

Martin's dazzlingly conceived universe, *The World of Ice & Fire* is indeed proof that the pen is mightier than a storm of swords.

Notebook HarperCollins UK

An essential guide to Games of Thrones seasons 1-5, profiling the noble houses of Westeros through their history, family

tree, character profiles, photos, and much more. *Game of Thrones: The Noble Houses of Westeros Seasons 1-5* serves as a guide to the key houses as their constant struggle for power persists and as the hierarchical structure of the kingdom evolves. The book is filled with essential information including each house's sigil, history, home, family tree, character profiles, and is fully illustrated with series photography throughout.

Notebook Orbit

An entertaining and informative voyage through cultural fantasies of the North, from sea monsters and a mountain-sized magnet to racist mythmaking. Scholars and laymen alike have long projected their fantasies onto the great expanse of the global North, whether it be as a frozen no-man's-land, an icy realm of marauding Vikings, or an unspoiled cradle of prehistoric human life. Bernd Brunner reconstructs the encounters of adventurers, colonists, and indigenous communities that led to the creation of a northern "cabinet of wonders" and imbued Scandinavia, Iceland, and the Arctic with a perennial mystique. Like the mythological sagas that inspired everyone from Wagner

to Tolkien, *Extreme North* explores both the dramatic vistas of the Scandinavian fjords and the murky depths of a Western psyche obsessed with Nordic whiteness. In concise but thoroughly researched chapters, Brunner highlights the cultural and political fictions at play from the first "discoveries" of northern landscapes and stories, to the eugenicist elevation of the "Nordic" phenotype (which in turn influenced America's limits on immigration), to the idealization of Scandinavian social democracy as a post-racial utopia. Brunner traces how crackpot Nazi philosophies that tied the "Aryan race" to the upper latitudes have influenced modern pseudoscientific fantasies of racial and cultural superiority the world over. The North, Brunner argues, was as much invented as discovered. Full of glittering details embedded in vivid storytelling, *Extreme North* is a fascinating romp through both actual encounters and popular imaginings, and a disturbing reminder of the power of fantasy to shape the world we live in.

A Game of Thrones Bantam

NOW THE ACCLAIMED HBO SERIES GAME OF THRONES—THE MASTERPIECE THAT

BECAME A CULTURAL PHENOMENON

Winter is coming. Such is the stern motto of House Stark, the northernmost of the fiefdoms that owe allegiance to King Robert Baratheon in far-off King's Landing. There Eddard Stark of Winterfell rules in Robert's name. There his family dwells in peace and comfort: his proud wife, Catelyn; his sons Robb, Brandon, and Rickon; his daughters Sansa and Arya; and his bastard son, Jon Snow. Far to the north, behind the towering Wall, lie savage Wildings and worse—unnatural things relegated to myth during the centuries-long summer, but proving all too real and all too deadly in the turning of the season. Yet a more immediate threat lurks to the south, where Jon Arryn, the Hand of the King, has died under mysterious circumstances. Now Robert is riding north to Winterfell, bringing his queen, the lovely but cold Cersei, his son, the cruel, vainglorious Prince Joffrey, and the queen's brothers Jaime and Tyrion of the powerful and wealthy House Lannister—the first a swordsman without equal, the second a dwarf whose stunted stature belies a brilliant mind. All are heading for Winterfell and a fateful

encounter that will change the course of kingdoms. Meanwhile, across the Narrow Sea, Prince Viserys, heir of the fallen House Targaryen, which once ruled all of Westeros, schemes to reclaim the throne with an army of barbarian Dothraki—whose loyalty he will purchase in the only coin left to him: his beautiful yet innocent sister, Daenerys.

Game of Thrones National Geographic HBO's hit series A GAME OF THRONES is based on George R R Martin's internationally bestselling series A SONG OF ICE AND FIRE, the greatest fantasy epic of the modern age. A STORM OF SWORDS: BLOOD AND GOLD is the SECOND part of the third volume in the series. 'Colossal, staggering . . . one of the greats' SFX **The Final Book in a Song of Hot and Cold** Bantam

The perfect gift for fans of HBO's Game of Thrones—a boxed set featuring the first four novels! George R. R. Martin's A Song of Ice and Fire series has become, in many ways, the gold standard for modern epic fantasy. Martin—dubbed the "American Tolkien" by Time magazine—has created a world that is as rich and vital as any piece of historical fiction, set in an age of knights

and chivalry and filled with a plethora of fascinating, multidimensional characters that you love, hate to love, or love to hate as they struggle for control of a divided kingdom. This bundle includes the following novels: A GAME OF THRONES A CLASH OF KINGS A STORM OF SWORDS A FEAST FOR CROWS

Game of Thrones The Lands of Ice and Fire The complete box set of George R R Martin's internationally bestselling series A SONG OF ICE AND FIRE, the greatest fantasy epic of the modern age. George R.R. Martin's A Song of Ice and Fire series has set the benchmark for contemporary epic fantasy. Labelled by Time magazine as one of the top 100 most influential people in the world, Martin has conjured a world as complex and vibrant as that of J.R.R. Tolkien's, populated by a huge cast of fascinating, complex characters, and boasting a history that stretches back twelve thousand years. The box set includes: A GAME OF THRONES A CLASH OF KINGS A STORM OF SWORDS, 1: STEEL AND SNOW A STORM OF SWORDS, 2: BLOOD AND GOLD A FEAST FOR CROWS A DANCE WITH DRAGONS The dimension of the box set is 178mm x111mm.

Game of Thrones: A Guide to Westeros and Beyond: The Complete Series Michael Joseph

"The best novel concerning the American pop music culture of the sixties I've ever read."—Stephen King From #1 New York Times bestselling author George R. R. Martin comes the ultimate novel of revolution, rock 'n' roll, and apocalyptic murder—a stunning work of fiction that portrays not just the end of an era, but the end of the world as we know it. Onetime underground journalist Sandy Blair has come a long way from his radical roots in the '60s—until something unexpectedly draws him back: the bizarre and brutal murder of a rock promoter who made

millions with a band called the Nazgûl. Now, as Sandy sets out to investigate the crime, he finds himself drawn back into his own past—a magical mystery tour of the pent-up passions of his generation. For a new messiah has resurrected the Nazgûl and the mad new rhythm may be more than anyone bargained for—a requiem of demonism, mind control, and death, whose apocalyptic tune only Sandy may be able to change in time . . . before everyone follows the beat. "The wilder aspects of the '60s . . . roar back to life in this hallucinatory story by a master of chilling suspense."—Publishers Weekly "What a story, full of nostalgia and endless excitement. . . . It's taut, tense, and moves like lightning."—Tony Hillerman "Daring . . . a knowing, wistful appraisal of . . . a crucial American generation."—Chicago Sun-Times "Moving . . . comic . . . eerie . . . really and truly a walk down memory lane."—The Washington Post *A Marriage in Four Seasons* W. W. Norton & Company "A coloring book based on the Game of thrones." -- *Extreme North: A Cultural History* Chronicle Books

Exploring the science in George R. R. Martin's fantastical world, from the physics of an ice wall to the genetics of the Targaryens and Lannisters. Game of Thrones is a fantasy that features a lot of made-up science—fabricated climatology (when is winter coming?), astronomy, metallurgy, chemistry, and biology. Most fans of George R. R. Martin's fantastical world accept it all as part of the magic. A trained scientist, watching the fake science in Game of Thrones, might think, "But how would it work?" In *Fire, Ice, and Physics*, Rebecca Thompson turns a scientist's eye on Game of Thrones, exploring, among other things, the science of an ice wall, the genetics of the Targaryen and Lannister families, and the biology of beheading. Thompson, a PhD in physics and an enthusiastic Game of Thrones fan, uses the fantasy science of the show as a gateway to some interesting real science, introducing GOT fandom to a new dimension of appreciation. Thompson starts at the beginning, with winter, explaining seasons and the very elliptical orbit of the Earth that might cause winter to come (or not come). She tells us that ice can behave like ketchup, compares

regular steel to Valyrian steel, explains that dragons are “bats, but with fire,” and considers Targaryen inbreeding. Finally she offers scientific explanations of the various types of fatal justice meted out, including beheading, hanging, poisoning (reporting that the effects of “the Strangler,” administered to Joffrey at the Purple Wedding, resemble the effects of strychnine), skull crushing, and burning at the stake. Even the most faithful Game of Thrones fans will learn new and interesting things about the show from Thompson's entertaining and engaging account. Fire, Ice, and Physics is an essential companion for all future bingeing.

Notebook Abrams Books for Young Readers

An official companion to the highly rated cable series offers new insights into its characters and storylines, providing hundreds of set photos, designs and insider accounts as well as actor and crew interviews that describe memorable scripted and unscripted moments from the first two seasons. (This book was previously listed in Forecast.) TV tie-in.
