In this thoroughly satisfying and completely disorienting novel based on a story line by Douglas Adams (author of *The Hitchhiker's Guide to the Galaxy*), Terry Jones recounts an unforgettable tale of intergalactic travel and mishap. The saga of "the ship that cannot possibly go wrong" sparkles with wit, danger, and confusion that will keep readers guessing which reality they are in and how, on earth, to find their way out again. At the center of the galaxy, a vast, unknown civilization is preparing for an event of epic proportions: the launching of the greatest, most gorgeous, most technologically advanced Starship ever built-the Starship Titanic. An earthling would see it as a mixture of the Chrysler Building, the tomb of Tutankhamen, and Venice. But less provincial onlookers would recognize it as the design of Leovinus, the galaxy's most renowned architect. He is an old man now, and the creation of the Starship Titanic is the pinnacle achievement of his twenty-year career. The night before the launch, Leovinus is prowling around the ship having a last little look. With mounting alarm he begins to find things are not right: unfinished workmanship, cybersystems not working correctly, robots colliding with doors. How could this have happened? And how could this have happened without his knowing? Something somewhere is terribly wrong. On the following day, in an artificial event staged for the media, the Starship Titanic will leave its construction dock under autopilot and, a few days later, make its way to the terminal to pick up passengers for its maiden voyage. Although the ship will be deserted during its very first flight, it is nevertheless a major event, watched by all the galaxy's media. Hugely, magnificently, the fabulous

ship eases its way forward from the construction dock, picks up speed, sways a bit, wobbles a bit, veers wildly, and just before it can do massive damage to everything around it, appears to undergo SMEF (Spontaneous Massive Existence Failure). In just ten seconds, the whole, stupendous enterprise is over. And our story has just begun. Somehow three earthlings, one Blerontin journalist, a semideranged parrot, and a shipful of disoriented robots must overcome their differences. It's the only way to save the Starship Titanic ("The Ship That Cannot Possibly Go Wrong") from certain destruction and rescue the economy of an entire planet-not to mention to survive the latest threat, an attack by a swarm of hostile shipbuilders. . . .

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Michael Foreman woke up when an incendiary bomb dropped through the roof of his Lowestoft home. Luckily, it missed his bed by inches, bounced off the floor and exploded up the chimney. So begins Michael's fascinating, brilliantly illustrated tale of growing up on the Suffolk frontline during World War II. He tells how he and his friends and family coped with bombing raids and deadly doodlebugs, how gas masks were great for making rude noises, and how nothing could beat rabbit pie! 77 timeless tales from up and down the length of Great Britain - Wales, Scotland, Kernow, England and the Isles - have been retold for the 21st century by curious storyteller Brother Bernard, with a tourist guide to the real location of each folktale included. This road atlas of myth and mischief allows us to visit famed heroes King Arthur, Merlin, Robin Hood, Lady Godiva, Macbeth, Dick Whittington and Jack, but also those who should be more celebrated, like Molly Whuppie, Bran the Blessed, Bladud, Taliesin and Tom Thumb. Since Britain became an island eight millennia ago, generations of immigrants have made their home here in Albion, creating their own stories, which have become part of the richly stocked treasury of British folklore. Some are strange, some are sad, some are exciting, some are scary, many are silly, and at least two are totally daft. Brother Bernard retells these restored tales with devotion to the ancient legends, but with a fresh eye and added anarchic vim to be enjoyed anew.

**Halfwit Nation** Taylor & Francis

Terry Jones' Barbarians takes a completely fresh approach to Roman history. Not only does it offer us the chance to see the Romans from a non-Roman perspective, it also reveals that most of those written off by the Romans as uncivilized, savage and barbaric were in fact organized, motivated and intelligent groups of people, with no intentions of overthrowing Rome and plundering its Empire. This original and fascinating study does away with the propaganda and opens our eyes to who really established the civilized world. Delving deep into history, Terry Jones and Alan Ereira uncover the impressive cultural and technological achievements of the Celts, Goths, Persians and Vandals. In this paperback edition, Terry and Alan travel through 700 years of history on three continents, bringing wit, irreverence, passion and scholarship to transform our view of the legacy of the Roman Empire and the creation of the modern world.
