EWING LAMBERT

Wall Street Journal Jones & Bartlett Publishers

This book illustrates the various facets of internationalization in managerial practice, starting with a strategic outline of the many options firms have when formulating internationalization strategies. Designed as a textbook for Bachelor, Master and MBA classrooms, the core of the book consists of six case studies on firms from diverse industries, such as sporting goods, aviation, grocery discount, motorcycle, computer and IT, and fast-food. The cases present a variety of ways of entering and operating in foreign markets, such as export, franchising, joint ventures, strategic alliances, greenfield-investments, acquisitions and mergers. In addition to market entry strategies, the cases provide readers, educators and students with insights into target market strategies, timing strategies, allocation strategies and coordination strategies of well-known companies.

Reports of the Imports and Exports of Thailand Penguin

Terrestrial Mammal Conservation provides a thorough summary of the available scientific evidence of what is known, or not known, about the effectiveness of all of the conservation actions for wild terrestrial mammals across the world (excluding bats and primates, which are covered in separate synopses). Actions are organized into categories based on the International Union for Conservation of Nature classifications of direct threats and conservation actions. Over the course of fifteen chapters, the authors consider interventions as wide ranging as creating uncultivated margins around fields, prescribed burning, setting hunting quotas and removing non-native mammals. This book is written in an accessible style and is designed to be an invaluable resource for anyone concerned with the practical conservation of terrestrial mammals. The authors consulted an international group of terrestrial mammal experts and conservationists to produce this synopsis. Funding was provided by the MAVA Foundation, Arcadia and National Geographic Big Cats Initiative. Terrestrial Mammal Conservation is the seventeenth publication in the Conservation Evidence Series, linked to the online resource www.ConservationEvidence.com. Conservation Evidence Synopses are designed to promote a more evidence-based approach to biodiversity conservation. Others in the series include Bat Conservation, Primate Conservation, Bird Conservation and Forest

Conservation and more are in preparation. Expert assessment of the evidence summarised within synopses is provided online and within the annual publication What Works in Conservation.

Keeping Foreign Corruption Out of the United States Open Book Publishers

Successful sports agents are comfortable with high finance and intense competition for the right to represent talented players, and the most respected agents are those who can deal with the pressures of high-stakes negotiations in an honest fashion. But whereas rules and penalties govern the playing field, there are far fewer restrictions on agents. In *The Business of Sports Agents*, Kenneth L. Shropshire, Timothy Davis, and N. Jeremi Duru, experts in the fields of sports business and law, examine the history of the sports agent business and the rules and laws developed to regulate the profession. They also consider recommendations for reform, including uniform laws that would apply to all agents, redefining amateurism in college sports, and stiffening requirements for licensing agents. This revised and expanded third edition brings the volume up to date on recent changes in the industry, including: —the emergence and dominance of companies such as Creative Artists Agency and Wasserman Media Group —high-profile cases of agent misconduct, principally Josh Luchs, whose agent certification was revoked by the NFLPA —legal challenges against the NCAA that may fundamentally change the definition of amateurism —changes to agent regulations resulting from new collective bargaining agreements in all of the major professional sports —evaluation of the effectiveness of the Uniform Athlete Agents Act (2000) to regulate agent conduct —issues faced by the increasing number of agents representing athletes who work abroad as well as athletes from abroad who work in the United States. Whether aspiring sports agent, lawyer, athlete seeking an agent, or simply interested in understanding the world of sports representation, the reader will find in *The Business of Sports Agents* the most comprehensive overview of the industry as well as a straightforward analysis of its problems and proposed solutions.

Feature films have created the stereotype of the Second World War prisoner of war. He is the spruce, stiff-upper-lipped Alec Guinness in *The Bridge on the River Kwai*, or Steve McQueen's cunning and opportunist 'Cooler King' in *The Great Escape*, the all-American motorbike hero. If he is imprisoned in Europe it will have to be in the forbidding North German Schloss of Colditz or the tunnel-riddled Stalag Luft III. But, as Midge Gillies shows in this groundbreaking work of social history, the true experiences of nearly half a million Allied servicemen held captive during the Second World War were nothing like the Hollywood myth – and infinitely more extraordinary. The real lives of POWs saw them respond to the tedium of a German stalag or the brutality of a Japanese camp with the most amazing ingenuity and creativity. They staged glittering shows, concerts and elaborate sporting fixtures, made exquisite ornaments – even, amid the terrible privations of the Thailand-Burma railway, improvised daring surgical techniques to save their fellow men's lives. Whatever skills or hobbies they took with them to captivity they managed to continue and adapt – to the extent of laying out a 9-hole golf course between the huts of one German camp. They took up crafts and pastimes using materials they found around them: even the string from a Red Cross food parcel was used to make cricket balls, football nets and wigs for theatrical performances. Men studied, attended lectures, learned languages, sat for qualifications and exams, on such a scale that one camp was nicknamed 'The Barbed-Wire University'. A number of books written by POWs in captivity are still in print today. And often the years in captivity proved a turning-point in their lives, as the new interests and skills they took out of the camp enabled them to embark on a post-war career in which they would succeed at the highest level – whether actors like Clive Dunn and Denholm Elliott, artists like Sir Terry Frost and Ronald Searle, or the birdwatchers who studied rooks and jackdaws beyond the perimeter wire in distant parts of the German Reich and went on to run the Royal Society for the Protection of Birds. Drawing on letters home, diaries and interviews with redoubtable survivors now into their nineties, Midge Gillies recreates the daily lives of a truly remarkable group of men. It is a story by turns thrilling, funny, desperate and moving, but never less than inspirational.

Light Metals—Advances in Research and Application: 2013 Edition is a ScholarlyBrief™ that delivers timely, authoritative, comprehensive, and specialized information about ZZZAdditional Research in a concise format. The editors have built *Light Metals—Advances in Research and Application: 2013 Edition* on the vast information databases of ScholarlyNews.™ You can expect the information about ZZZAdditional Research in this book to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed, and relevant. The content of *Light Metals—Advances in Research and Application: 2013 Edition* has been produced by the world's leading scientists, engineers, analysts, research institutions, and companies. All of the content is from peer-reviewed sources, and all of it is written, assembled, and edited by the editors at ScholarlyEditions™ and available exclusively from us. You now have a source you can cite with authority, confidence, and credibility. More information is available at <http://www.ScholarlyEditions.com/>.

The Comprehensive Guide to Careers in Sports

Yasutaro Soga's *Life behind Barbed Wire* (Tessaku seikatsu) is an exceptional firsthand account of the incarceration of a Hawai'i Japanese during World War II. On the evening of the attack on Pearl Harbor, Soga, the editor of a Japanese-language newspaper, was arrested along with several hundred other prominent Issei (Japanese immigrants) in Hawai'i. After being held for six months on Sand Island, Soga was transferred to an Army camp in Lordsburg, New Mexico, and later to a Justice Department camp in Santa Fe. He would spend just under four years in custody before returning to Hawai'i in the months following the end of the war. Most of what has been written about the detention of Japanese Americans focuses on the Nisei experience of mass internment on the West Coast—largely because of the language barrier immigrant writers faced. This translation, therefore, presents us with a rare Issei voice on internment, and Soga's opinions challenge many commonly held assumptions about Japanese Americans during the war regarding race relations, patriotism, and loyalty. Although centered on one man's experience, *Life behind Barbed Wire* benefits greatly from Soga's trained eye and instincts as a professional journalist, which allowed him to paint a larger picture of those extraordinary times and his place in them. The Introduction by Tetsuden Kashima of the University of Washington and Foreword by Dennis Ogawa of the University of Hawai'i provide context for Soga's recollections based on the most current scholarship on the Japanese American internment.
