Wyatt North Publishing, LLC

Strategies for successful business ownership Job security has become a myth, no matter where you work. Alan Greenspan testified before the House Ways and Means Committee in February 2004 that there is a turnover rate of approximately 1 million jobs per month. Because of the turbulent job market, more and more people are concluding that entrepreneurship is the way to go. However, many jobholders view entrepreneurship as risky. Entrepreneurship isn't taught in schools and most

entrepreneurs endure a baptism by fire before they taste success. This book shows you learn not only how to strike out on your own, but how to make your entrepreneurial dream a success. Phil Laut (Charlotte, NC), self-published *Money Is My Friend* in 1979 and sold 400,000 copies in 18 languages. Andy Fuehl (Phoenix, AZ) is a recognized teacher of business psychology. He has also worked for several Fortune 500 companies such as AT& T, Bell Labs, and Motorola. Mr. Fuehl went from unemployed to self-made millionaire in less than three years using the methods in this book.

Permiso surge en
realidad como una
irreverencia. Ya que no
lo pido, me lo doy. Es
un permitido luego de
un proceso de
aprender a
equivocarme, y
reiteradas veces.
Luego de tan duro
entrenamiento en el

arte de los imperfectos aquí doy a luz... una creación más. Permiso es una mixtura evolutiva de textos que surgieron consecutivamente -sin prisa y sin pausa- donde el VOS y el TÚ se unen a veces y otras claramente se separan. Es mi territorio y lo construí a mi manera, es una forma de invitarlos a recorrer los diferentes espacios de mi ecléctico hábitat. Desde Génesis -que fue lo primero que escribí hace casi 27 años-, pasando por el Autoprólogo hasta las últimas reflexiones a la carta (mi carta) exponen partes de mi Ser Creador inquieto, soñador, a veces mágico y luminoso, y otras definitivamente desgarrado y sombrío. Diferentes

momentos generan distintos destinos y creaciones únicas. Llevo acumulados ya muchos momentos, con personas y personajes tan dispares como este contenido. A todos y cada uno ellos con los que me he cruzado en este andar llamado vida: GRACIAS. Tal vez aún sin saberlo han sido parte constitutiva para mis escritos, ya que me han inspirado o motivado. GRATITUD infinita porque son la base y sostén de este PERMISO que me doy y que invito a cada uno, a que, en algún momento de su vida, se lo puedan dar. Permiso para pensar "fuera de la lata", romper estructuras, generar y producir lo nuevo, y si nadie lo hizo antes, mejor; hay que ser el primero. Sin

riesgos no hay historias que contar, así que a permitirse asumirlos. Ahora sí, permiso... voy a seguir Creando.

Book Candlewick Press Expanded and updated, Charles Eisenstein's classic

treatise on capitalism, currency, and the gift economy. This revised version traces the history of money, from ancient gift economies to modern capitalism, and includes new material on cryptocurrencies and emerging research that has come out since the book's original publication. Charles Eisenstein shows how capitalism contributes to alienation, competition, and scarcity; destroys community; and necessitates endless growth at the cost of social and environmental devastation. Today, these trends have reached their extreme--and their collapse presents a golden opportunity to transition to a more connected, ecological,

and sustainable way of being. Eisenstein describes the deeper narratives beneath our economic system, and how we can reimagine it to align with a new story. Applying a broadly integrated synthesis of theory, policy, and practice, he explores avant-garde concepts of the New Economics, including negative-interest currencies, local economies, gift economics, cryptocurrencies, and the restoration of the commons. Tapping into a rich lineage of conventional and unconventional economic thought, Eisenstein presents a vision that is original yet commonsense, radical yet gentle, and increasingly relevant as the crises of our civilization deepen.

The Magic of Thinking Big New Directions Publishing
Imaginary friend Budo narrates this heartwarming story of love, loyalty, and the power of the imagination—the perfect read for anyone who has ever had a friend . . . real or otherwise Budo is lucky as imaginary friends go. He's been alive for more than five years, which is positively ancient in the world of imaginary friends. But Budo feels his age, and thinks constantly of the day when eight-year-old Max Delaney will stop believing in him. When that happens, Budo will disappear. Max is different from other children. Some people say that he has Asperger's Syndrome, but most just say he's "on the spectrum."

None of this matters to Budo, who loves Max and is charged with protecting him from the class bully, from awkward situations in the cafeteria, and even in the bathroom stalls. But he can't protect Max from Mrs. Patterson, the woman who works with Max in the Learning Center and who believes that she alone is qualified to care for this young boy. When Mrs. Patterson does the unthinkable and kidnaps Max, it is up to Budo and a team of imaginary friends to save him—and Budo must ultimately decide which is more important: Max's happiness or Budo's very existence. Narrated by Budo, a character with a unique ability to have a foot in many

worlds—imaginary, real, child, and adult—
Memoirs of an Imaginary Friend touches on the truths of life, love, and friendship as it races to a heartwarming . . . and heartbreaking conclusion.

Anyone concerned about finances—and that's just about everyone—will welcome this step-by-step guide to opening up about a difficult subject. It offers a strategy that can save money, improve relationships, and help people raise fiscally responsible children. • Discusses the societal, familial, and personal roadblocks that make talking about money and finance challenging • Explores gender differences when it comes to talking about money and how "money silence" contributes to the wage gap for women • Reveals the cost of living in "money

silence," including how it contributes to the high U.S. divorce rate, how it inhibits the ability of some parents to raise financially literate and responsible children, and how it stops families from successfully passing on wealth • Identifies common money myths that fuel financial misunderstandings and mistakes, and offers tools for uncovering these fallacies • Shows how the financial advising industry has colluded with the idea that men and women don't need to talk about family finances as a couple—and how advisors can advocate for change • Shares practical, easy-to-implement tips and tools for talking about money with partners, parents, siblings, children, and

employers/employees
 • Offers a "Money Talk Challenge" coaching exercise at the end of each chapter, with a special section on how advisors can use these tools with clients
