As a delineator of the darkest aspects of Dublin James Joyce is unmatched. For him it has remained in "Dubliners" to illuminate with a flood search of imagination and sympathy extensions entire understanding of middle-class life in the gray city and laughing. Invest with a convincing reality and lasting human significance which are apparently the most trivial and insignificant events. This volume of fifteen short stories and sketches are not insignificant, and almost all are high interpretative value. Perhaps the best book is the last and longest, "The Dead," which describes in meticulous detail the annual dinner and dance of the ladies Morkan. Julia Morkan remains the leader Prano as Adam and Eve's Church. Kate's older sister, teaches music to young students. Gabriel Conroy and his wife Gretta, niece old ladies, it is expected that at any moment, and there is fear not true Freddy Malins should rise "screwed". After some delay Gabriel and Gretta arrive and, a little later, Freddy Malins, only moderately sober. Delicious exchanges are among the guests: Mr. Brown, who takes no because she likes whiskey, but because "God help me it's doctor's orders"; Miss Ivors, Gaelic League, and Mr. Bartell D'Arcy, the tenor. Gabriel Conroy, who is literary and has a brother priest, carves the turkey and makes speech principal at dinner. James Joyce, one of the most influential writers in the early 20th century

A Guide to Human Behaviour in the Shipping Industry Cambridge University Press

Based on a wide range of consultations with maritime organisations, the guide was produced by organisational psychologists gs partnership ltd, for consortium partners UK Maritime and Coastguard Agency, BP Shipping, Teekay Marine Services, and the Standard P&I Club. Aimed at everyone in the shipping industry, the Guide explains the fundamental aspects of human behaviour, which together constitute what the commercial maritime sector calls 'the human element'. It makes clear that the human element is neither peripheral nor optional in the pursuit of a profitable and safe shipping industry. The Guide clearly shows that managing the human element must take place simultaneously at all levels of the industry. Analysis of continuing shipping disasters has increasingly implicated the human element. The loss of life, the impact on company profits and credibility, and the vast environmental damage that can result from the loss of even a single vessel remain clear. The Guide offers insight, explanation and advice to help manage the human element more effectively, more safely and more profitably.

This is the extended and annotated edition including \* an extensive biographical annotation about the author and his life \* all the original illustrations A Tangled Tale is a collection of ten brief humorous stories by Lewis Carroll (Charles Lutwidge Dodgson), published serially between April 1880 and March 1885 in The Monthly Packet magazine. Arthur B. Frost added illustrations when the series was printed in book form. The stories, or Knots as Carroll calls them, present mathematical problems. In a later issue, Carroll gives the solution to a Knot and discusses readers' answers. The mathematical interpretations of the Knots are not always straightforward. The ribbing of readers answering wrongly — giving their names — was not always well received. (from wikipedia)
