**Towards a History of Linguistics in  
Poland** Lerner Publications

An eye-catching new book introducing Polish culture to English-language readers. Can you distil the essence of a country into just 100 words? We think so. Written by Mikolaj Gliński, Matthew Davies and Adam Żulawski, and illustrated by award-winning graphic

designer Magda Burdzynska, Quarks, Elephants & Pierogi: Poland in 100 Words is made up of a series of 100 full-colour illustrations and articles that each discuss all sorts of Polish words, such as miłość (love), imieniny (name day), ojczyzna (fatherland), wolność (freedom), and even filiżanka (tea cup). Often via etymology, each word is an entry point to the multi-layered world of Polish culture and history. Winner of Most Beautiful Books in Poland 2018 in the Guide category.

Where did your surname come from? Do you know how many people in the United States share it? What does it tell you about your lineage? From the editor of the highly acclaimed Dictionary of Surnames comes the most extensive compilation of surnames in America. The result of 10 years of research and 30 consulting editors, this massive undertaking documents 70,000 surnames of Americans across the country. A reference source like no other, it surveys each surname giving its

meaning, nationality, alternate spellings, common forenames associated with it, and the frequency of each surname and forename. The Dictionary of American Family Names is a fascinating journey throughout the multicultural United States, offering a detailed look at the meaning and frequency of surnames throughout the country. For students studying family genealogy, others interested in finding out more about their own lineage, or lexicographers, the Dictionary is an ideal place to begin research.

*The Rise of Humanism, 1470-1543*  
Rowman & Littlefield

Through a chronology; an introductory essay; appendixes, a bibliography; and over 300 cross-referenced dictionary entries on films, directors, actors, producers, and film institutions, a balanced picture of the richness of Polish cinema is presented.

Polish Digest Northwestern University Press

This book acquaints readers with traditional Polish foods associated with various occasions and furnished countless cooking tips and serving suggestions. The clearly written recipes facilitate the preparation of the dishes and their incorporation in the Polish-American mainstream culture. Calendar of Polish Festivities is devoted to those holidays and events connected to a specific time of year. Polish Rites of

Passage focuses on life's milestones -- the family occasions that take place at various times of year. This "instruction manual for the culturally aware Polish American" offers over 400 recipes, along with a lexicon of basic foods and culinary concepts, ingredients and procedures, and sample menus.

Polish Catholicism between Tradition and Migration Oxford University Press

Feasting seems to be an inseparable element of peoples'—especially their collective—lives. \_\_\_|\_\_\_ The proposed volume consists of original unpublished texts in which their Authors search for the answers to the following questions: How far have we gone astray from the primeval idea of celebrating the feast, from understanding tradition in terms of the Romanian historian of religion,

Mircea Eliade, or the French sociologist, Émile Durkheim? Are there still any traditional, in its very meaning, feasts? If not—if they are invented (Hobsbawm and Ranger [1983] 1992)—why are they called “traditional”? What elements have changed and why? What has had the greatest impact on celebrating feasts? What are the new factors influencing the course of a feast’s celebration? \_\_\_|\_\_\_ It was difficult to categorize the texts contained in this book because the subjects discussed in them very often overlap. Still, it was possible to recognize several accentuated aspects that served as the basis for the division of the book into three sections: 1) Culture and Identity; 2) Ritual and Cultural Values; 3) Culture and Policy. The contributors are scholars who represent various

international institutions and fields of research, and use different approaches and methodologies to study the subject of the feast. This publication is an opportunity to bring the results of their research together in one book. The volume contains chapters in which various aspects of feasts, festivals, and festivities perceived as a mirror of social and cultural changes in the twentieth and twenty-first centuries are presented. It provides a unique and rich resource in the fields of culture, folklore, religion, anthropology, sociology, as well as politics and other cultural and social sciences. In the future, we hope to broaden the scope of our research and to include more ethnic groups and their cultures in order to see the changes they have undergone and factors that caused

them. \_\_\_\_ TABLE OF CONTENTS \_\_\_\_

*The Polish Vernacular Culture* John Benjamins Publishing

Gender, especially masculinity, is a perspective rarely applied in discourses on cinema of Eastern/Central Europe. *Masculinities in Polish, Czech and Slovak Cinema* exposes an English-speaking audience to a large proportion of this region's cinema that previously remained unknown, focusing on the relationship between representation of masculinity and nationality in the films of two and later three countries: Poland, Czechoslovakia/the Czech Republic and

Slovakia. The objective of the book is to discuss the main types of men populating Polish, Czech and Slovak films: that of soldier, father, heterosexual and homosexual lover, against a rich political, social and cultural background. Czech, Slovak and Polish cinema appear to provide excellent material for comparison as they were produced in neighbouring countries which for over forty years endured a similar political system - state socialism.

From the early beginnings to the end of the 20th century Scarecrow Press

In Poland's Last King, Richard Butterwick reassesses the achievement of Poland's most controversial king. He shows how Stanislaw August's radical plans for constitutional reform and the renewal of

Polish culture were profoundly influenced by his admiration of England, and examines the successes and limitations of the Polish Enlightenment.

**The Esterke Story in Yiddish and Polish Literature** Oxford University Press

Most dictionaries have forerunners, and all have imitators; an understanding of the historical foundations of dictionary-making is therefore one of the preconditions of further progress in academic lexicography. The papers in this volume, which were presented at the 1986 Exeter Seminar, survey most of the lexicographical traditions in the world, some tracing them right back to their beginnings. The programme was divided into eight sessions, with the following concentrations of topics: (1)

three classical traditions, (2) the early history of European lexicography, (3) the beginnings of English lexicography, (4) further aspects of English lexicography, (5) the background of diverse national developments, (6) specific features of national developments, (7) pioneers of three genres, (8) recent trends in the English dictionary.

Complete dictionary Polish and English  
Historical Dictionaries of Europe  
Language policies are political. They have political consequences as well as political origins. In State Traditions and

Language Regimes, scholars from Asia, Europe, and North America shift focus from the consequences of language policies to how and why states make language policy choices. This shift, theorized through the concept of "language regime," inserts an urgently needed political science perspective into the current dialogue between sociolinguists, who research the societal effects of language policies, and political theorists of language rights, who analyze the normative implications of policies. New analytical tools drawn from comparative politics are showcased to analyze paths taken by different states in establishing language regimes, at times disrupted and redirected at critical junctures. Contributions to the volume include analyses of Canada's

increasingly court-driven language policies, the United States' bifurcated language regime in the aftermath of 9/11, Ireland's conflicted protection of the Irish language, France's linguistic Jacobin tradition disrupted by Europeanization, the role of political parties and coalitions in language regime stability and change in Taiwan and Southeast Asia, Poland's war-torn history informing policy toward regional languages, and the role of English in international peace-building. While other books look at the political and societal effects of language policy, none seeks to employ a historical institutionalism approach which sets language policy choice in the context of power relations embedded in state traditions. *State Traditions and Language Regimes* offers

a comparative politics perspective, one that enriches interdisciplinary debate on language policy.

 Renaissance Culture in Poland  
 The Rise of Humanism, 1470-1543  
 The Historical Dictionary of Poland, Second Edition, strikes a judicious balance in covering past and contemporary figures in Poland's history,

as well as its richly-textured political, social, and cultural dimensions. Revised and updated to include more than 150 new entries, this second edition now brings readers up to date on the many events that have taken place since the publication of the first edition.

Polish-Language Press, Culture, and Politics McGill-Queen's Press - MQUP

This book provides a unique description of the identity strategies of stateless ethnic minorities in Poland. It describes and analyses the identity politics carried out by these groups, aimed at obtaining recognition of a separate status from the Polish state (a dominant group) in the symbolic and legal realms. On the one hand, comparative analysis of the activity undertaken by Lemkos, Polish Tatars, Roma, Kashubians, Karaims and

Silesians will allow us to present the specifics of each of the communities, resulting from the special nature of their ethnicity. On the other hand, it will show some typical strategies for stateless groups in the field of identity and ethnicity. Critical factors here are processes such as building ethnic borders, dealing with a non-privileged position, striving to achieve recognition for the status quo of a particular identity or politicization of ethnicity. The subjects are mostly indigenous groups, and the lack of legitimacy of emancipation in their own nation-state can determine their status as an 'in-between' in the context of ethnic relations in Poland. In the analysis undertaken in the book of the activity of the ethnic groups there are three main contexts: intragroup,

state policy and the global discourse of the rights of minorities. They determine the choice of identity strategy and adopted policy of identity. Not without significance is also the historical context, especially the political transformation in Poland after 1989, when Polish state policy towards ethnic minorities changed fundamentally - moving from the mono-national ideology of a socialist state to a pluralistic model of a democratic state. Gathering diverse examples in one volume will allow the reader to become familiar with the complex topic of ethnic relations in the world today, and especially in Central Europe, which is still in the process of change.

PediaPress

The postwar political and technological-industrial revolutions have brought

profound changes to Poland. Yet although a generation has now grown up in the Communist ideology, the transformation it demands is far from complete. Traditional institutions, values, and patterns of behavior continue to exist and are in daily confrontation with the new regime. Education must obviously play a critical role in the process of socialization, and teachers are expected to instill in future citizens a thorough commitment to socialist values. But how well are they equipped for this task? To answer this question Joseph R. Fiszman has done extensive field work in Poland sponsored by the U.S. Office of Education. He is the first American citizen permitted to do research of this type in an Eastern European country. He has examined all

aspects of the teachers' lives, from social background and training to attitudes, values, and status in the community. His findings are an important contribution to the attempt to understand the process of change in societies where revolutionary values face the entrenched power of tradition. Originally published in 1973. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly

heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

*Polish-English, English-Polish Dictionary*  
 Jerusalem : Zalman Shazar Center for the Furtherance of the Study of Jewish History

The first authoritative, comprehensive historical dictionary of Poland in English, this volume includes over 2,000 entries on people, events, places, and terms important to Poland's history from 966 to 1945. Entries include English and Polish language bibliographic sources. The student of Polish history seeking specific information on a person or event in medieval times, the troubled era leading to the late 18th century partitions of Poland, and the Polish nationalist struggles before 1919, reborn Poland in

the interwar years, or the trauma of World War II will be amply rewarded by the accurate, concise information provided in this unique historical dictionary. Each of the alphabetically arranged entries is followed by pertinent bibliographic sources in both English and Polish languages. A list of abbreviations, a note on the Polish alphabet, and a series of historical maps precede the entries. Helpful cross-references are provided throughout the text and in the index. A general bibliography precedes the index. After five years of work, George Lerski completed the original manuscript in 1992, shortly before his untimely death. The special editing subsequently undertaken preparatory to publication has remained faithful to the original work, its concept, organization,

and purpose.

"A richly perceptive sociological consideration of the Jewish community as a caste in 19th- and early-20th-century Poland... A book that should be part of any study of modern Polish culture or Diaspora Jewry." --Kirkus Reviews

*Historical Dictionary of Polish Cinema*  
Cornell University Press

The book is solidly grounded in theory and methodology, but at the same time

takes into account the most contemporary factual settings. Professional scientists are used to dry and uninteresting volumes, this one should give them a much needed variety. Thanks to its language the book can also acquire readers outside the

strictly scientific academia, the humanities and the social sciences – it should reach students and doctoral researchers, who could greatly benefit from it, as well as to the general public.  
Dr Piotr Majewski SWPS University
