This book provides a clear overview of current thinking on the teaching and learning of geography. It is an ideal companion to all students beginning a career in teaching the subject in secondary schools. The chapters are written by experienced teacher educators and bridge both theory and practice. The writers focus on the continuities, whilst setting them in the context of the changing curriculum. The book is divided into four parts. Part One examines the historical context of geography teaching. Part Two looks at issues of course planning, design, syllabuses and programmes of study. Underlying this section is the assumption that geography should not be considered in isolation from other subjects, but rather as part of a whole curriculum. Part Three concentrates on teaching and learning, and includes chapters on the use of maps, field work, IT and first hand experience within a community. The final section covers the issues associated with assessment, across the whole school age range.

A tale of "dazzling brilliance . . . a simple story which conveys boundless meanings both modest and diverse, set in Jerusalem directly after WWII" (Historical Novel Society). When Soumchi, an eleven-year-old boy growing up in British-occupied Jerusalem just after World War II, receives a bicycle as a gift from his Uncle Zemach, he is overjoyed—even if it is a girl's bicycle. Ignoring the taunts of other boys in his neighborhood, he dreams of riding far away from them, out of the city and across the desert, toward the heart of Africa. But first he wants to show his new prize to his friend Aldo. In the tradition of such memorable characters as Huckleberry Finn and Holden Caulfield, Amos Oz's Soumchi is fresh, funny, and always engaging. "What a difference spirit and talent make! . . . told . . . with zest and buoyant humor, from the dual viewpoint of the alternately crushed and elated Soumchi and the amused author who delights in his boyhood excesses." —Kirkus Reviews "Oz shows a remarkable ability to stay true to his character and expand him fully into a multi-faceted jewel. Soumchi is a concise read which enhances each person's view on life, possessions, and how tender life and far-reaching imagination can be at such a sensitive age." —Historical Novel Society

A thrilling romance of fifteenth-century Scotland by a New York Times–bestselling author! Bestselling Author Hannah Howell returns to the splendor of medieval Scotland in this first novel of her new trilogy—a saga of clan warfare, divided loyalties, and forbidden love. Here, in the Scottish highlands of the fifteenth century, a powerful knight meets his match in a mysterious beauty bent on revenge. When destiny brought Sir Balfour Murray and his wounded brother down the same road as Maldie Kirkaldy, she offered her services as a nurse even as she tried to deny the desire this dark-eyed knight had ignited at first sight. Soon they discover that they both share a mission of vengeance, but Maldie cannot tell him her true identity—to do so would brand her a spy. Sworn to avenge his family as chief of the Doncoill Clan, Balfour vows to destroy his greatest foe, with Maldie at his side. Yet Balfour knows that he can no more afford to trust her than he can ignore his lust for this sultry

beauty. Now, he is not only determined to unearth her deepest secrets, but also to pursue his passion for her. And nothing will stand in his way.

This edited collection offers multi-disciplinary reflections and analysis on a variety of themes centred on nineteenth century executions in the UK, many specifically related to the fundamental change in capital punishment culture as the execution moved from the public arena to behind the prison wall.

By examining a period of dramatic change in punishment practice, this collection of essays provides a fresh historical perspective on nineteenth century execution culture, with a focus on Scotland, Wales and the regions of England. From Public Spectacle to Hidden Ritual has two parts. Part 1 addresses the criminal body and the witnessing of executions in the nineteenth century, including studies of the execution crowd and executioners' memoirs, as well as reflections on the experience of narratives around capital punishment in museums in the present day. Part 2 explores the treatment of the execution experience in the print media, from the nineteenth and into the twentieth century. The collection draws together contributions from the fields of Heritage and Museum Studies, History, Law, Legal History and Literary Studies, to shed new light on execution culture in nineteenth century Britain. This volume will be of interest to students and academics in the fields of criminology, heritage and museum studies, history, law, legal history, medical humanities and socio-legal studies.

(Discworld Novel 13) Simon and Schuster

As a psychiatrist, Dr. Berne found that each person, in early childhood--under the powerful influence of his parents--writes his own script that will determine the general course of his life. That script dictates what kind of person he will marry, how many children he will have, even what kind of bed he will die in. Most of all, it determines whether he will be a winner or a loser, a spendthrift or a skinflint, a tower of strength or a doomed alcoholic. Some people, says Berne, have scripts that call for them to fail in their professions, or to be repeatedly disappointed in love, or to be chronic invalids. Here, he demonstrates how each life script gets written, how it works, and how each of us can break free of it to help us attain real autonomy and true fulfillment.

A pass-along companion to *Anxious for Nothing* that features an 11-week plan to overcome anxiety.

According to one research program, anxiety-related issues are the number one mental health problem among women and are second only to alcohol and drug abuse among men. Stress-related ailments cost the nation \$300 billion every year in medical bills and lost productivity. And use of sedative drugs like Xanax and Valium have skyrocketed in the last 15 years. Even students are feeling it. One psychologist reports that the average high school kid today has the same level of anxiety as the average psychiatric patient in the early 1950s. Chances are, you or someone you know seriously struggles with anxiety. Max writes, "The news about our anxiety is enough to make us anxious." He knows what it feels like to be overcome by the worries and fear of life, which is why he is dedicated to helping millions of readers take back control of their minds and, as a result, their lives. This 64-page booklet features practical steps from Max Lucado to help readers overcome anxiety. Eleven weekly reminders in all, each segment includes a Scripture verse for meditation, and a prayer to reframe anxious thoughts. This booklet includes a passage from the book, *Anxious for Nothing*, by New York Times bestselling author Max Lucado. The small trim and low price point make this booklet easy to share with friends and family who are struggling with anxiety and need a fresh perspective on how to face it. Stop letting anxiety rule the day. Join Max on the journey to true freedom and experience more joy, clarity, physical renewal, and contentment by the power of the Holy Spirit. Anxiety comes with life. But it doesn't have to dominate your life.

This book by Lionel Robbins first appeared in 1932 as an outstanding English-language statement of the Misesian view of economic method, namely that economics is a social science and must advance its propositions by means of deductive reasoning and not through the methods used in the natural sciences. The case is argued here with patience and attention to scholarly details. The unfortunate second edition of this book, which is more available today, introduces confusions by departing from Austrian microeconomic theory. Thus does the Mises Institute celebrate the 75th anniversary of the first edition with this reprint. "Reading Robbins," writes Samuel Bostaph of the University of Dallas, "is an excellent way of contrasting his explanation of the basic nature of economics with that of the Austrian School, as found in the work of Mises as an extension of Carl Mengers's foundations. Such a reading wonderfully clarifies one's understanding of the basic conception of economics as a science of human action, rather than one of mere 'economizing.'"
