Capo Press, Incorporated Hap and Leonard is now a Sundance TV series starring James Purefoy and Michael Kenneth Williams. If there's one thing Hap Collins and Leonard Pine like, it's trouble—and they especially like getting paid to find it. So when their friend and sometime boss Marvin Harmon asks the boys to look into a cold-case double homicide, they're happy

to oblige. It turns out that both victims were set to inherit some serious money, and one of them ran with an honest-to-goodness vampire cult. The more closely Hap and Leonard look over the crime-scene photos, the more trouble they see. The image of a red devil's head painted on a tree is just the beginning—a little research turns up a slew of murders with that same fiendish signature. And

if things aren't weird enough, Leonard has taken to wearing a deestalker cap . . . Will this be the case that finally sends Hap over the edge? Leonard and Hungry Paul Penguin When thirteen-year-old Oz Keiller finds a dead body in his family's Santa Fe, New Mexico, restaurant, he is determined to solve the mystery in which his older brother is implicated, but which also involves their long-dead

father, who was accused of being a spy. *Katerina* Macmillan A one-time suburban husband, father, and corporate planner describes his experiences in a Nevada penitentiary after being convicted of voluntary manslaughter, profiling life in a small claustrophobic cell, the colorful and violent inmates of the prison, and the essential survival strategies he has had to learn. Reprint.

He's not a stray house cat, he's an immortal being. And now he must choose whether to return to his planet or remain with his new human friend in a humorous, heart-tugging story from the author of *I, Cosmo*. The cat that Olive rescues from a flood has a secret: he's not really a cat at all, but an alien who crashed to Earth on a beam of light. The cat, whom

Olive names Leonard, was prepared to visit the planet as a human--but something went wrong. Now Leonard may never know what it's like to hold an umbrella, go bowling, or host a dinner party. (And his human jokes still need some work: Knock, knock. Who's there? Just Leonard. It is me.) While Olive worries about whether she will have to move after her mom and her new boyfriend get back from

their summer vacation, Leonard tries to figure out how to get from South Carolina to Yellowstone National Park, because if he's not there at the end of the month, he'll miss his ride home. But as Olive teaches Leonard about the beautiful and confusing world of humans, he starts to realize how much he cares about this particular one. A sweet and dryly funny story about what it means to be human--

and what it means to be home. Stephen Hawking Drawn and Quarterly In this superb short fiction collection, Elmore Leonard, "the greatest crime writer of our time, perhaps ever" (New York Times Book Review), once again illustrates how the line between the law and the lawbreakers is not as firm as we might think. In the title story, the basis for the hit FX series *Justified*, U.S. Marshal

Raylan Givens meets up with an old friend, but they're now on different sides of the law. Federal marshal Karen Sisco, from *Out of Sight*, returns in "Karen Makes Out," once again inadvertently mixing pleasure with business. In "When the Women Come Out to Dance," Mrs. Mahmood gets more than she bargains for when she conspires with her maid to end her unhappy marriage.

These nine stories are the great Elmore Leonard at his vivid, hilarious, and unfailingly human best.

How would you spend your birthday if you knew it would be your last?

Eighteen-year-old Leonard Peacock

knows exactly what he'll do.

He'll say

goodbye. Not to his mum - who he calls Linda because it annoys her - who's moved out and left him to fend for himself.

Nor to his former best friend, whose torments have driven him to consider committing the unthinkable.

But to his four friends: a Humphrey-Bogart-obsessed neighbour, a teenage violin virtuoso, a pastor's daughter and a teacher.

Most of the time, Leonard believes he's

weird and sad but these friends have made him think that maybe he's not. He wants to thank them, and say goodbye. In this riveting and heart-breaking book, acclaimed author Matthew Quick introduces Leonard Peacock, a hero as warm and endearing as he is troubled. And he shows how just a glimmer of hope can make the world of difference. The Collected

Stories Simon & Schuster Perhaps the most unconventional and literally breathtaking father-son story you'll ever read, *My Friend Leonard* pulls you immediately and deeply into a relationship as unusual as it is inspiring. The father figure is Leonard, the high-living, recovering coke addict "West Coast Director of a large Italian-American finance firm" (read: mobster) who helped to keep James Frey clean in *A Million Little Pieces*. The son is, of course, James, damaged beyond repair by years of crack and alcohol addiction—and by more than a few cruel tricks of fate. James embarks on his post-rehab existence in Chicago emotionally devastated, broke, and afraid to get close to other people. But then Leonard comes back into his life, and everything changes. Leonard offers his "son" a lucrative—if illegal and slightly dangerous—employment. He teaches James to enjoy life, sober, for the first time. He instructs him in the art of "living boldly," pushes him to pursue his passion for writing, and provides a watchful and supportive veil of protection under which James can get his life together. Both Leonard's and James's careers

flourish...but then Leonard vanishes. When the reasons behind his mysterious absence are revealed, the book opens up in unexpected emotional ways. My Friend Leonard showcases a brilliant and energetic young writer rising to important new challenges—displaying surprising warmth, humor, and maturity—with out losing his intensity. This book proves that one of the most

provocative literary voices of his generation is also one of the most emphatically human. Out After Dark Penguin An intimate and inspirational exploration of Stephen Hawking--the man, the friend, and the physicist. Stephen Hawking was one of the most famous and influential physicists in the world. He left a mark in our culture that touched the lives of millions. His books have

inspired countless scientists-to-be, and his research on the laws of black holes and the origin of the universe charted new territory. Recalling his nearly two-decades as a friend and collaborator with Stephen Hawking, Leonard Mlodinow brings a complex man into focus like no one has before. He introduces us to Hawking the colleague, for whom no detail is too minor to get

right, a challenge for a man who could only type one word per minute. We meet Hawking the friend, who creates such strong connections with those around him that he can communicate powerfully with just the raise of an eyebrow. We witness Hawking the genius, who, against all odds, flourishes after he is diagnosed with ALS and pours his mind into uncovering

the mysteries of the universe. Brilliant, impish, and kind, Hawking endeared himself to almost everyone he came into contact with. This beautiful portrait is inspirational and is sure to stick with you long after you've read it. **My Friend Lenny** Harper Collins The New York Times bestseller and international multimedia phenomenon!  Peltier! In I
 Will, Sheron
 Wyant-
 Leonard
 weaves the
 personal
 recollections
 of four
 members of

the American Indian Movement-- Leonard Peltier, Dennis Banks, Dorothy Ninham, and her husband Herb Powless-- into a unique narrative to expose their trials and tribulations over the course of two decades. When the last gunshots of the Indian Wars of the nineteenth century faded away, a dark and desperate time began for Native American people. Poverty, neglect, and

hopelessness hung over the land. But as the seventies dawned, a powerful movement for change by newly urban Indians was born with the words "American Indian Movement." This story includes a brief look at their childhoods as told by the people who lived it, including their government boarding schools, reservation life, the fight against termination, and the

founding of their resistance with building takeovers and government saboteurs, a prison escape, including the largest FBI manhunt in history. They walked the line between courage and fear and changed the direction of Native history forever. *You Got Nothing Coming* Hachette UK When Leonard Bernstein died in 1990 at the age of 72, one of his admirers said he was actually 288

because he led four separate lives: as a conductor, a composer, a pianist, and a teacher. No other American musician has ever had such a diverse career. A sickly boy, Bernstein discovered music when he was about 10 and pursued a musical career despite his father's objections. He became literally an overnight sensation when he was 25. With only a few hours

notice, he conducted a concert that was broadcast across the entire country. He spent the rest of his life (nearly 50 years) in the spotlight, continually impressing people with his seemingly boundless energy and his love for music. Those qualities have influenced countless numbers of people, adding to their own appreciation of music. Savage Season Sourcebooks, Inc.

If you think it was all good

deeds and fancy ideals back in the days of Camelot, think again. Most people don't know this, but for a time things went seriously bad; Arthur was imprisoned, Merlin had vanished, and a vile demon had taken over the throne. Young Leonard would have been shocked to learn any of this but right now all that concerned him was where his next meal was coming from. As page to Sir Ronald, a poor

but kind knight, events at the castle took a back seat to a rumbling stomach. Oh sure, he held a secret dream that one day Sir Ronald would take a seat at the Round Table, but seriously, that was about as likely as Maid Glennys seeing him as anyone other than the dirty page of a low-ranking nobleman. Not gonna happen. Everything changes when Leonard meets Mantooth, a

seriously depressed dragon who's looking for a knight to end his misery with a swing of a broadsword. Wait a minute. If the dragon will allow Sir Ronald to slay him, his misery would be over, Sir Ronald would surely get a Round Table invite for such a brave deed, and Leonard might even climb a notch or two in the eyes of Glennys! Everybody wins, right? Wrong. Leonard's plan backfires

horribly when, on the day of the battle, Sir Ronald is arrested for "bravery without a license" and he and Mantooth are dragged off to Camelot's dungeons. Now Leonard must do whatever it takes to free his master even if that means doing battle with dangerous monsters, trying to outwit Camelot's dark overlord, or taking a bath!

Hugh Leonard's second volume of autobiography is a rich portrait of adolescence in Dublin in the 40s and 50s: schooldays and altar-boyhood, early bliss in the seven pennies at the Astoria, problems with Gloria and Dolores. Leonard stirs in theater anecdotes, vignettes of Patrick Kavanagh and Brenda Behan, and divulges his own

beginnings as a writer. The result is a witty and entertaining analysis of Dublin and Dubliners by one of Ireland's finest playwrights. I Will Harper Collins
Joe LaBrava first fell in love with femme fatale movie queen Jean Shaw in a darkened theater when he was twelve. Now he's finally meeting his dream woman in the flesh, albeit in a rundown Miami crisis center. Cleaned up

and sober, though, she still makes LaBrava's heart race. And now that Jean's being terrorized by redneck thug Richard Nobles and his slimy Marielito partner Cundo Rey, Joe has a golden opportunity to play the hero. Or he could wind up the patsy—or dead—in the final reel.

Making Space for You to Be You Vintage Crime/Black Lizard Savage Season is the basis for the first season of

the Sundance TV series Hap and Leonard A rip-roaring, high-octane, Texas-sized thriller, featuring two friends, one vixen, a crew of washed-up radicals, loads of money, and bloody mayhem. Hap Collins and Leonard Pine are best friends, yet they couldn't be more different. Hap is an east Texas white-boy with a weakness for Texas women. Leonard is a gay, black Vietnam vet. Together, they steer up more

commotion than a fire storm. But that's just the way they like it. So when an ex-flame of Hap's returns promising a huge score. Hap lets Leonard in on the scam, and that's when things get interesting. Chockfull of action and laughs, Savage Season is the masterpiece of dark suspense that introduced Hap and Leonard to the thriller scene. It hasn't been the same since. *My Fifty-Year*

<i>Friendship with a Remarkable Man</i>	2019 * KIRKUS REVIEWS BEST BOOKS OF 2019 * SCHOOL LIBRARY JOURNAL BEST BOOKS OF 2019 "Superb...Amo ng the best books ever written about an American corporation." —Bryan Burrough, The New York Times Book Review Just as Steve Coll told the story of globalization through ExxonMobil and Andrew Ross Sorkin told the story of Wall Street excess through Too Big to Fail,	Christopher Leonard's Kochland uses the extraordinary account of how one of the biggest private companies in the world grew to be that big to tell the story of modern corporate America. The annual revenue of Koch Industries is bigger than that of Goldman Sachs, Facebook, and US Steel combined. Koch is everywhere: from the fertilizers that
---	---	---

make our food to the chemicals that make our pipes to the synthetics that make our carpets and diapers to the Wall Street trading in all these commodities. But few people know much about Koch Industries and that's because the billionaire Koch brothers have wanted it that way. For five decades, CEO Charles Koch has kept Koch Industries quietly operating in deepest secrecy, with

a view toward very, very long-term profits. He's a genius businessman: patient with earnings, able to learn from his mistakes, determined that his employees develop a reverence for free-market ruthlessness, and a master disrupter. These strategies made him and his brother David together richer than Bill Gates. But there's another side to this story. If you want to understand

how we killed the unions in this country, how we widened the income divide, stalled progress on climate change, and how our corporations bought the influence industry, all you have to do is read this book.
