How to Succeed in School Without Spending All Your Time Studying; A Guide for Kids and Teens Xulon Press

According to Richard Houston, with the right information and attitude, YOU can be one of the lucky success stories out on the leading edge of business development and growth. Of course, in reality, getting there involves a lot more than luck (although a bit of that doesn't hurt). It takes clarity, guts, determination, courage-and a blueprint for the most crucial preparations and protections. Houston's mission, following his own successful string of businesses that made him independently wealthy and free to pursue his passions, is to help people obtain the financial education we all need to free us from the tyranny of modern money markets-and from our own ignorance. With that freedom, with open eyes and new awareness of both pitfalls and possibilities, we can escape the rat race to which most of us resigned ourselves long ago. And while it takes some work, it's NOT impossible. In this fast-reading story Houston looks at all the options to where you can invest today

and provides a fresh and honest assessment of where he feels is the best investment to make. In order to understand Houston's beliefs you are taken on a journey through the ages to understand what will affect your decisions. From the history of money to the US housing crisis and the dominant effects that come from decisions made by Government and the Federal Reserve. Houston explains how the coming world wide depression will have a profound effect on the decisions you will make and he encourages you to explore a true financial education for the sake of not just you but your friends and family. So grab a coffee and take a moment to read this book from start to finish and truly start grasping what you need to do in the future.

How can I be a successful business leader, make tough business decisions, and still heed God's call to generosity, compassion, and empathy? How can I be a faithful Christian and still be successful in the "real" world? It's easy to talk about how business and faith can live in harmony, but when the rubber meets the road, we often find ourselves tempted to compromise. We need to be reminded, challenged, and inspired to live lives of authentic faith in the workplace. The book you hold in your hands will do just that. Invest Yourself is the story of one man's quest to live his faith boldly and authentically in the workplace, and it will challenge you to think differently about how you can be a more effective leader. You'll be encouraged to put the needs of others first, assist them with their hardships, and inspire them to strive for excellence. Along the way you'll discover that business success and a deep Catholic faith aren't mutually exclusive, but instead together form the basis of a life that is rich in what matters. Book jacket.

OVER 250,000 COPIES IN PRINT, WITH A NEW CHAPTER ON THE 2018 TAX CUTS. There's a massive freight train bearing down on the average American investor, and it's coming in the form of higher taxes. The United States Government has made trillions of dollars in unfunded promises for programs like Social Security and Medicare—and the only way to deliver on these promises is to raise taxes. Some experts have even suggested that tax rates will need to double, just to keep our country solvent. Unfortunately, if you're like most Americans, you've saved the majority of your retirement assets in tax-deferred vehicles like 401(k)s and IRAs. If tax rates go up, how much of your hard-earned money will you really get to keep? In *The Power of Zero*, McKnight provides a concise, step-by-step roadmap on how to get to the 0% tax bracket by the time you retire,

effectively eliminating tax rate risk from your retirement picture. Now, in this expanded edition, McKnight has updated the book with a new chapter on the 2017 Tax Cuts and Jobs Act, showing readers how to navigate the new tax law in its first year of being in effect, and how they can extend the life of their retirement savings by taking advantage of it now. The day of reckoning is fast approaching. Are you ready to do what it takes to experience the power of zero?
