## TRISTIN GUNNER

General Awareness for Competitive Exams - SSC/ Banking/ NRA CET/ CUET/ Defence/ Railway/ Insurance - 2nd Edition Hachette India

INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." – Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

**Multiple Choice General Knowledge Quiz Book** St Pauls BYB

1,000+ questions, expertly crafted, for anyone who loves trivia. It includes 50 general knowledge quizzes across a range of topics, a holiday quiz, and the year in review quiz for 2018. Each quiz is written and reviewed by trivia experts. In most cases, the questions are more difficult than other trivia books on the market. They also include detailed information accompanying the answers which allows you to really understand the topic. Whether you're a beginner or an expert, you're almost certainly going to learn a lot from this book. The questions are in a pub quiz style, spanning categories including history, geography, music, movies, television, sports, literature, art, technology, business, theater, mythology, and others. NOTE: "Trivial Studies Quiz Archive: 2018 Edition" and "The Ultimate Trivia Study Guide: Vol. 1" are the same book. If you own one, then you do not need to purchase the other (unless you want both covers).

REAL-LIFE SUPERHEROES. CHAMPIONS AMONG CHAMPIONS. THE MOST OUTSTANDING RECORDS.

India's firsts and foremost, her stellar victories and accomplishments in human endeavour, structures, education, defence, government, science and technology, adventure, business, cinema, the natural world, literature and the arts - discover them all in this landmark volume that marks 30 completed years of the country's only comprehensive book of records. From the longest, tallest and fastest to the unique and truly extraordinary, this curation of superlatives presents an astonishing range of newly set records as well as those that have stood steadfast over the years. Besides infographics, tables and over 700 colour images, the Super 30 and Record Rewind capsules recall golden moments of the past three decades. In our support of a cleaner and greener planet, a new environment and sustainability section spotlights eco-warriors and their earth-friendly feats. Finally, as a tribute to the fight against the pandemic, the Covid-19 feature traces mighty milestones, compassionate action and innovative ideas that echo the very spirit of the Limca Book of Records - persistence, resilience and triumph in the face of all odds.

**Objective General Knowledge Chapterwise Collection Of 6250+ Questions** Apex Publishing Limited

What makes some experiences more memorable than others? How can you better remember specific information later? Memories That Matter addresses these questions and more. The book is divided into three main parts, with each part focusing on a different aspect of memory. After the introductory first part, Part II discusses everyday uses of memory and why we remember, establishing a foundation for how memory is structured and stored in the brain. Part III dives into what makes us remember. Emotional and rewarding experiences are both more memorable than mundane experiences but are often studied using different approaches. Self-relevance and objects we can interact with are remembered better than less relevant information. The author explores these motivation-related influences on memory and considers whether a common mechanism underlies them all. Part IV changes the focus, discussing how we sometimes want to remember specific information that does not automatically capture our attention. The book considers evidence-based learning strategies and memory strategies, whilst also exploring real-world applications, with discussion of professions that accomplish amazing memory feats daily. The book concludes with a reflection on how the role of memory is changing as our world makes information increasingly accessible, particularly with the ever-expanding influence of the internet. Drawing from a variety of literatures and perspectives, this important book will be relevant for all students of memory from psychology, cognitive neuroscience, and related health backgrounds.
