The Francis A. Schaeffer Trilogy Farrar, Straus and Giroux

"It is possible to be a Christian without showing the mark, but if we expect non-Christians to know that we are Christians, we must show the mark." Christians have not always presented an inviting picture to the world. Too often we have failed to show the beauty of authentic Christian love. And the world has disregarded Christianity as a result. In our era of global violence and sectarian intolerance, the church needs to hear anew the challenge of this book. Decades ago Francis Schaeffer exhorted, "Love--and the unity it attests to--is the mark Christ gave Christians to wear before the world. Only with this mark may the world know that Christians are indeed Christians and that Jesus was sent by the Father." More than ever, the church needs to respond compassionately to a needy world. More than ever, we need to show the Mark.

The experiences and attitudes of a man who lived under Chinese Communism, rising to a position of importance before his decision to flee to the West, whose story describes much of life and society under Maoism. Robert Loh is the first educated Chinese to give a view from the inside of life in Red China. Son of a well-to-do family who was sent to study political science in the United States during the period when the authority of the Nationalist Government was disintegrating, Loh chose to return to Shanghai to contribute what he could toward reshaping China into a major world power. Robert Loh is at pains to make clear that he could not have survived, and indeed lived a relatively privileged life in communist China without giving in to much that he hated and despised.

Why do people choose authoritarianism over freedom? The classic study of the psychological appeal of fascism by a New York Times--bestselling author. The pursuit of freedom has indelibly marked Western culture since Renaissance humanism and Protestantism began the fight for individualism and self-determination. This freedom, however, can make people feel unmoored, and is often accompanied by feelings of isolation, fear, and the loss of self, all leading to a desire for authoritarianism, conformity, or destructiveness. It is not only the question of freedom that makes Fromm's debut book a timeless classic. In this examination of the roots of Nazism and fascism in Europe, Fromm also explains how economic and social constraints can also lead to authoritarianism. By the author of *The Sane Society* and *The Anatomy of Human Destructiveness*, this is a fascinating examination of the anxiety that underlies our darkest impulses, an enlightening volume perfect for readers of Eric Hoffer or Hannah Arendt. This ebook features an illustrated biography of Erich Fromm including rare images and never-before-seen documents from the author's estate.

By the time he was nineteen, Frank Schaeffer's parents, Francis and Edith Schaeffer, had achieved global fame as bestselling evangelical authors and speakers, and Frank had joined his father on the

evangelical circuit. He would go on to speak before thousands in arenas around America, publish his own evangelical bestseller, and work with such figures as Pat Robertson, Jerry Falwell, and Dr. James Dobson. But all the while Schaeffer felt increasingly alienated, precipitating a crisis of faith that would ultimately lead to his departure—even if it meant losing everything. With honesty, empathy, and humor, Schaeffer delivers “a brave and important book” (Andre Dubus III, author of *House of Sand and Fog*)—both a fascinating insider's look at the American evangelical movement and a deeply affecting personal odyssey of faith.

Since the age of ten, Mia has rebelled against the iron fist of a fundamentalist preacher who lured her mother away to join a fanatical family of followers. At “Edenton,” a supposed Garden of Eden deep in the South American jungle, everyone follows the reverend's strict and arbitrary rules—even about whom they can marry. Mia dreams of slipping away from the armed guards who keep the faithful in and the curious out. When the rebellious Gabe, a new boy, arrives with his family, Mia sees her chance to escape and to free her family. But the scandalous secrets the two discover beyond the compound's facade are more shocking than anything they imagined. While Gabe has his own terrible secrets, he and Mia bond together, more than friend and freedom fighters. But there's no time to think about love as they race against time to stop the reverend's paranoid plan to free his flock—but not himself—from this corrupt world. Can two kids crush a criminal mastermind? And who will die in the fight to save the ones they love from a madman whose only concern is his own secrets?

Francis Schaeffer was a well-known, extremely influential apologist and thinker who made his mark defending orthodox truth in the face of strong opposition. He was foremost in the vocation of apologetic ministry, and he was a brilliant man whom God used mightily during the decades of the 1960s, 70s, and 80s. In *Truth with Love*, Bryan Follis explores the theology and thinking that fueled the ministry of Francis Schaeffer, from his Reformed position to his understanding of fundamentalism. Follis examines Schaeffer's apologetic argument and the role of reason in his discussions and writings. The position Francis Schaeffer took against modernism and its applicability in this day of postmodernism are studied as well. This book is a beneficial resource for any Francis Schaeffer fan and any minister, teacher, or student who appreciates truth and its defense in the face of different kinds of opposition.

Truth used to be based on reason. No more. What we feel is now the truest source of reality. Despite our obsession with the emotive and the experiential, we still face anxiety, despair, and purposelessness. How did we get here? And where do we find a remedy? In this modern classic, Francis A. Schaeffer traces trends in twentieth-century thought and unpacks how key ideas have shaped our society. Wide-ranging in his analysis, Schaeffer examines philosophy, science, art and popular culture to identify dualism, fragmentation and the decline of reason. Schaeffer's work takes on a newfound relevance today in his prescient anticipation of the contemporary postmodern ethos. His critique demonstrates Christianity's promise for a new century, one in as much need as ever of purpose and hope.

Her bosses enlist her as part of a dwindling skeleton crew with a big end-date payoff. But Candace is carrying a secret she knows Bob will exploit. Should she escape from her rescuers? A send-up and takedown of the rituals, routines, and missed opportunities of contemporary life, Ling Ma's *Severance* is a moving family story, a quirky coming-of-adulthood tale, and a hilarious, deadpan satire. Most important, it's a heartfelt tribute to the connections that drive us to do more than survive.

Genesis is a book of origins--the origin of the universe, the origin of life and the origin of man. It places man in his cosmic setting, shows his particular uniqueness, explains his wonder and his flaw, and begins to trace the flow of human history through space and time. Many today, however, view this book as a collection of myths, useful for understanding the Hebrew mind, perhaps, but certainly not a record of what really happened. Dr. Francis A. Schaeffer challenges that view and shows how the first eleven chapters of Genesis stand as a solid, space-time basis for answering the tough questions posed by modern man.

Escape from the Flames Basic Books

Truth is no longer based on reason. What we feel is now the truest reality. Yet despite our obsession with the emotive and the experiential, we still face anxiety, despair, and purposelessness. Tracing trends in twentieth century thought, Francis A. Schaeffer shows that Christianity offers meaning where there is purposelessness and hope where there is despair.

A Nobel Prize-winning economist tells the remarkable story of how the world has grown healthier, wealthier, but also more unequal over the past two and half centuries The world is a better place than it used to be. People are healthier, wealthier, and live longer. Yet the escapes from destitution by so many has left gaping inequalities between people and nations. In *The Great Escape*, Nobel Prize-winning economist Angus Deaton—one of the foremost experts on economic development and on poverty—tells the remarkable story of how, beginning 250 years ago, some parts of the world experienced sustained progress, opening up gaps and setting the stage for today's disproportionately unequal world. Deaton takes an in-depth look at the historical and ongoing patterns behind the health and wealth of nations, and addresses what needs to be done to help those left behind. Deaton describes vast innovations and wrenching setbacks: the successes of antibiotics, pest control, vaccinations, and clean water on the one hand, and disastrous famines and the HIV/AIDS epidemic on the other. He examines the United States, a nation that has prospered but is today experiencing slower growth and increasing inequality. He also considers how economic growth in India and China has improved the lives of more than a billion people. Deaton argues that international aid has been ineffective and even harmful. He suggests alternative efforts—including reforming incentives to drug companies and lifting trade restrictions—that will allow the developing world to bring about its own Great Escape. Demonstrating how changes in health and living standards have transformed our lives, *The Great Escape* is a powerful guide to addressing the well-being of all nations.
