A los doce años, Nicholas Goering sobrevivió milagrosamente a un disparo en la cabeza perpetrado por su propio padre, después de que este matara a su madre y se suicidara sin motivo aparente. Veinticinco años más tarde, ahora convertido en un referente de la Patología Forense en el prestigioso hospital de la ciudad sajona de Heimstadt, el misántropo doctor tendrá que lidiar con el caso más extraño de su carrera: el cuerpo de su padre ha aparecido en perfecto estado de conservación colgado

como en el día de su muerte y le han colocado los órganos internos de distintas personas. El recientemente ascendido y temperamental detective Matías Vandergelb, quien desprecia al patólogo, y la ambiciosa psiquiatra Angélica Grunnewald, quien, por el contrario, está obsesionada con él, serán los encargados de intentar resolver el rompecabezas humano en una carrera contrarreloj. *Memento Mori* es la primera entrega de la trilogía. Speaking all over the United States about apologetics issues, Charlie Campbell has heard just about every question skeptics have to offer. In this concise, reader-friendly handbook, he provides brief responses to the top-40 questions that keep people from the faith, such as... What evidence do you have that God exists? How do you know the Bible is actually true? What about those who have never heard of Jesus? Will they be condemned to hell? If God is so loving, why does He allow evil and suffering?

How can you say Jesus is the only way to heaven? Don't all religions basically teach the same thing? Aren't a lot of churchgoers hypocrites? With a gracious introductory note to skeptical readers and a generous sprinkling of inspiring quotes throughout, this handy resource is an enjoyable read as well as a powerful evangelistic tool.

From the master of historical fiction, this book follows an unforgettable family after the Second World War. Some bonds are hard to break... Daniel Pitt was an RAF fighter in the First World War and an espionage agent for the SOE in the Second. Now the conflicts he faces are closer to home. Daniel's marriage has fractured beyond repair and Daniel's relationship with his son, Bertie, has been a failure since Bertie was a small boy. But after his brother Archie's death, Daniel is keen for new perspectives. He first travels to Peshawar to bury Archie in the place he loved best, and then finds himself in Canada, avoiding his family and friends back in England. Daniel and Bertie's different experiences of war, although devastating, also bring with them the opportunity for the two to reconnect. If only they can find a way to move on from the past...

While Universal's Dracula and Frankenstein (both 1931) have received the most coverage of any of the studio's genre releases, it is the lesser known films that have long fascinated fans and historians alike. Starting with The Last Warning, a 1929 movie released as both a silent and a talkie, Universal provided a

decade of films that entertained audiences and sometimes frustrated critics. Each of Universal's horror, science fiction and "twisted mystery" films receives an in-depth essay for each film. The focus is first on the background to the making of the movie and its place in the Universal catalog. A detailed plot synopsis with critical commentary follows. Filmographic data for the film conclude the entry. Universal's The Shadow short film series is covered in an appendix. Many rare illustrations and movie posters are also included.

English spy Andrew Truesdale has been sent to Florence on a mission--to befriend widowed contessa Olivia di Montebaldi and discover if she's plotting a nationalist revolution in the aftermath of Napoleon's defeat. Andrew expects the assignment to be easy. After all, his job with the British Diplomatic Corps required him to perfect the art of flirtation and become a consummate seducer of women. Everything changes, however, when he arrives at Olivia's villa. Instead of the middle-aged woman he expects, Andrew finds a vivacious young beauty who piques his interest...and his lust.

But while Andrew may be taken aback by the contessa, Olivia knows exactly who Andrew is...and that he is dangerous. She may let him claim her body, but can she trust him with her secrets?

Wanted: Company Daughters. Virtuous young ladies to become the brides of industrious settlers in a foreign land. The Company will pay the cost of the lady's dowry and travel. Returns not permitted, orphans preferred. Amsterdam, 1620. Jana Beil has learned that life rarely provides moments of joy. Having run away from a violent father, her days are spent searching for work in an effort to stay out of the city brothels, where desperate women trade their bodies for a mouthful of bread. But when Jana is hired as a servant for the wealthy and kind Master Reynst and his beautiful daughter Sontje, Jana's future begins to look brighter. Then Master Reynst loses his fortune on a bad investment, and everything changes. The house is sold to creditors, leaving Jana back on the street and Sontje without a future. With no other choice, Jana and Sontje are forced to sign with the East India Company as Company Daughters: sailing to a colonial Dutch outpost to become the brides of male settlers they know nothing about.
