Complex, unfolding case studies are presented in all disease chapters, accompanied by review questions with a comprehensive answer key. Multidisciplinary Plans of Care provide at-a-glance information for common ICU conditions. Nutrition boxes appear in each relevant chapter, offering guidelines for patient needs with specific illnesses. Research-Based Practice Guidelines boxes and Promoting Evidence-Based Practice features appear throughout the text whenever applicable to present the latest research-supported nursing assessment and intervention practices. Drug boxes include common classifications of critical care drugs for specific disorders, including drug, actions, dosage, and special considerations.
