Today gender studies as an interdisciplinary academic field has gained much momentum in India. Contrary to conventional idea that a person born either as a boy or a girl must conform to his or her sex in his or her growth, dress

and behaviour, modern Indian outlooks have rather started changing with the fast approaching new gender free world crowded with agender, bigender, genderfluid, genderqueer, non-binary and third gender people against conventional gender binary- male and female. Last few years, apart from schemes for women's security and empowerment, have also seen the announcement of many welfare schemes for the health and well-being of third gender people of India and

decriminalisation of homosexuality from Indian soil. With same spirit, the present anthology is an endeavour to shed some light on the glaring issues of rape, abuse, discrimination, exploitation and violence arising out of gender essentialism in Indian context. The anthology, with an aim to serving larger sections of humanity, covers twenty seven multidisciplinary articles hardly missing any aspect untouched from this field of study in Indian context.
