 theory and practices in organization Participatory management is
 the practice of empowering members of a group, such as
 employees of a company or citizens of a community, to
 participate in organizational decision making. It is used as an
 alternative to traditional vertical management structures, which
 has shown to be less effective as participants are growing less
 interested in their leader's expectations due to a lack of
 recognition of the participant's effort or opinion. This practice
 grew out of the human relations movement in tParticipatory
