Asymmetric Induction: Nucleophilic Addition to Chiral Carbonyl Compounds

Stereochemistry 7 - Asymmetric Synthesis

Sharpless's Asymmetric Epoxidation (Asymmetric Synthesis -3)

Regioselectivity, stereoselectivity, and stereospecificity Asymmetric Synthesis Garry Procter This book covers a wide range of reactions which are of importance in the asymmetric synthesis of organic compounds. The principles of asymmetric additions to carbonyls, enolate alkylation, aldol reactions, additions to C-C double bonds, reduction and oxidation, rearrangements, and hydrolysis/ esterification reactions are covered, and selected examples used to illustrate the various topics. Asymmetric Synthesis (Oxford Science Publications Oxford ... Asymmetric Synthesis. Garry Procter. Description. This book covers a wide range of reactions which are important in the asymmetric synthesis of organic compounds. Each chapter is self-contained, covers a single reaction type, and concludes with references to the original literature for the examples. Topics include principles of asymmetric additions to carbonyls, enolate alkylation, aldol reactions, additions to C-C double bonds, reduction and oxidation, rearrangements, and hydrolysis/ ... Asymmetric Synthesis - Garry Procter - Oxford University Press Following an introductory chapter on the principles of asymmetric induction are seven chapters on individual classes of reactions: additions to carbonyl compounds, alpha-substitution using chiral enolates, asymmetric aldol reactions, additions to C-C double bonds, reduction and oxidation, rearrangements, and hydrolysis and esterification. Asymmetric Synthesis (Procter, Garry) | Journal of ... This book covers a wide range of reactions which are of importance in the asymmetric synthesis of organic compounds. The principles of asymmetric additions to carbonyls, enolate alkylation, aldol reactions, additions to C-C double

bonds, reduction and oxidation, rearrangements, and hydrolysis/ esterification reactions are covered, and selected examples used to illustrate the various topics.
