Disney Channel Tween Programming Running Press Kids

Much has been written about the Walt Disney Company's productions, but the focus has largely been on animation and feature film created by Disney. In this essay collection, the attention is turned to The Disney Channel and the programs it presents for a largely tween audience. Since its emergence as a market category in the 1980s, the tween demographic has

commanded purchasing power and cultural influence, and the impressionability and social development of the age group makes it an important range of people to study. Presenting both a groundbreaking view of The Disney Channel's programming by the numbers and a deep focus on many of the best-known programs and characters of the 2000s--shows like *The Wizards of Waverly Place*, *That's So Raven* and *Hannah Montana*--this collection asks the simple questions, "What does The Disney Channel Universe look and sound like? Who are the stories about? Who matters on The Disney Channel?"

In the summer of 2016, Disney introduced its first Latina princess, Elena of Avalor. *Princesa of the Periphery* explores this Disney property using multiple case studies to understand its approach to girlhood and Latinidad. Following the circuit of culture model, author Diana Leon-Boys teases out moments of complex negotiations by Disney, producers, and audiences as they navigate Elena's circulation. Case studies highlight how a flexible Latinidad is deployed through corporate materials, social media pages, theme park experiences, and the television series to create a princess who is both marginal to Disney's normative vision of princesshood

and central to Disney's claims of diversification. This multi-layered analysis of Disney's mediated Latina girlhood interrogates the complex relationship between the U.S.'s largest ethnic minority and a global conglomerate that stands in for the U.S. on the global stage.

[Disney Junior: Muppet Babies](#) Pi Kids Seminar paper from the year 2014 in the subject Cultural Studies - Miscellaneous, grade:

1,0, University of Würzburg (Philosophische Fakultät I), course: Feminism in the U.S.: History, Ideas, and Politics, language: English, abstract: Bewitched by the magical atmosphere these films create, millions of girls are dreaming of becoming a Disney princess one day. Seeing girls and boys re-enact these fairy tales and in that way slip into the role of a princess the thought struck me in the context of my seminar about Feminism, in what way these movies influence children. Which concepts of womanhood do they foster and are these fairy tales really as timeless as the grandparents think they are? Taking a closer look at the most

successful and best known of all Disney princess movies, there are basically three waves, defined by their date of release. The first feature-length animated film Disney created was a story based on the Brother Grimm fairy tale "Schneewittchen". The Disney movie Snow White and the Seven Dwarfs was premiered in 1937 and was an instant success, followed by Cinderella in 1950 and Sleeping Beauty in 1959. The next wave of princess movies were produced between 1989, starting with Little Mermaid, followed by Beauty and the Beast (1991), Aladdin (1992), Pocahontas (1995) and ending in 1998 with Mulan, so basically during the 1990s. The latest wave of Disney

princess films is from 2009 on with *The Princess and the Frog*, then *Tangled* (2010), *Brave* (2012) and the last one was *Frozen* (2013). This is an enormous timeframe. The 1930s, 40s and 50s provided a completely different audience than the 1990s or the current decade, as society and especially gender roles changed a lot over time. Consequently one can also expect differences in the way the Walt Disney Company chose to depict its characters over the years. This research paper will show that female gender roles in Disney princess movies respond to the change of society by portraying their Disney heroine much more assertive and less

passive over time. To support this thesis one movie from each of the three waves which were introduced above will be analyzed exemplary for the period.
