The Next Step in TJEEd. Often cited by the DeMilles as their favorite work to date, this inspirational manual picks up where the primer/overview work, A Thomas

Jefferson Education leaves off. It develops in depth not only the philosophy but also the nuts-and-bolts application of each individual Phase, the critical Transitions between Phases and the "big-picture" vision to begin with the end in mind. Those who master the content in this book leave behind the question, "But how do you actually DO it?" A Crisis of Leadership The world's problems can be summed up in just a few words: lack of leadership. While the world is in desperate need of leaders, very few people have the tools to become one. Oliver and Rachel DeMille's Leadership Education: The Phases of Learning is the manual that every person who aspires to be an effective leader, or to raise one, needs. Principled decision-making, the cultivation of character,

studying the classics, and using critical thinking skills are just a few of the lost educational virtues of today restored by this book. An in-depth look at the philosophy and phases of education is indispensable when creating leaders. This book will help any family find the direction they are looking for when pursuing leadership education. This book teaches not only the theories behind Thomas Jefferson Education but also the practical application of these theories for you and your children, with great detail on the features of Thomas Jefferson Education-modeled home, parenting, family, education, leadership and life's mission. As we apply the philosophy contained in Leadership Education: The Phases of Learning we will transform not only our families and our classrooms, but

the world.

Teach Your Child to Read in 100 Easy Lessons McGraw-Hill/Contemporary
Alpha-Phonics: IT IS THE PERFECT
READING INSTRUCTION PROGRAM TO
USE DURING THE VIRUS CRISIS. IT
WORKS FAST, IS VERY SIMPLE. SURE

RESULTS! THIS ONE BOOK IS COMPLETE. NOTHING ELSE NEEDED. HE/SHE CAN BE READING SIMPLE SENTENCES EVEN ON DAY ONE!! Used by tens of thousands for 37 years. Alpha-Phonics is probably the simplest, most effective, REASONABLY priced phonics instruction programs available. HERE IS WHY IT WORKS SO WELL: IT IS SIMPLE!! (Please also scroll down to see the VIDEO near the bottom left of this page) HERE IS WHY: There are only 44 phonograms (Sounds) the child needs to learn in order to read. Reading, contrary to what you have been told, is easy to teach because all you need to do is teach the student to SOUND OUT the words they want to read. At first, they sound the words out aloud, later they do it in their head silently. That is ALL there is to teaching reading. MOM get this: All

128 Lessons in Alpha-Phonics are covered in ONLY 14 pages of instructions for you. Students begin with short vowels putting together simple words (Like a with m = am or a with s = as) and progress to the more advanced words. With Alpha-Phonics the beginner can be reading simple sentences by lesson three, and that can even be on the first day! Other reading instruction programs try to do too much. They inject grammar, pictures and other material, needlessly complicating the task. Alpha-Phonics just teaches reading only. Alpha-Phonics has as a BONUS: you teach SPELLING easily as you go (through simple dictation). Alpha-Phonics easily introduces over 3,500 words in its simple 128 lessons. Some students can learn to read in only months or less. Alpha-

Phonics also works very well for older students, even grown adults who need remediation. Is there a negative about Alpha-Phonics? Yes. In the past 37 years we have heard only one criticism (Only a few times). It is: Some Moms say they think their child can become bored when taught by Alpha-Phonics. Why? Parents have been convinced that learning has to be fun time. They have been led to believe games, card decks, cartoons/pictures, spin the needle tricks, etc., make it fun. They feel they have to entertain their kids while teaching. But this unnecessarily slows down the process. With Alpha-Phonics the student can actually be **READING** simple sentences even day **ONE!** Students do see lists of words in Alpha-Phonics lessons, but they **QUICKLY** are actually

READING those words; they are accomplishing, instead of being entertained. The Bells and Whistles in other programs slow the process and cost time and money \$. The huge sense of success in actually reading quickly overcomes any other consideration. We almost forgot the **SUPER BONUS**: Many **ADULTS** become **BETTER** readers while teaching their child! The lessons for the Student are in **LARGE TYPE** on 8 1/2 X11 pages meaning you can instruct him/her **DIRECTLY** from the book. Nothing need be copied on separate paper. Makes everything much easier than if it were on 5 X 8 pages. Alpha-Phonics is highly recommended by leading Homeschooling curriculum reviewers such as Mary Pride, Cathy Duffy, Karen Andreola. Amazon also has a set of

practice Readers and a practice Phonics Workbook to accompany Alpha-Phonics. (But they are NOT required, but Moms find them helpful) The Alpha-Phonics and How To Tutor Little Companion READERS (10 books combined into one handy book): \$ 19.95 (ISBN 9780941995344). They are specifically designed to follow along with the Alpha-Phonics book as you teach from it. The other resource is The Alpha-Phonics and How To Tutor Phonics Companion PRACTICE WORKBOOK: \$ 19.95 (ISBN: 9780941995337). Designed to accompany the Alpha-Phonics book as you go through the lessons. ALPHA-PHONICS REALLY DOES WORK.....IT HAS FOR OVER 37 YEARS!!
