Most poker players don't think they need to study ICM until they make a costly mistake at a big final table - don't be one of those players. The Independent Chip Model (ICM) is the most important strategy concept in multi table tournaments, yet very few players understand it, other than knowing they should play tighter on the bubble. Not only does ICM impact the single biggest monetary decisions you make in poker, it also influences everything in a tournament from game selection, staking, when to register, playing the early levels, the bubble, the final table and much more. Endgame Poker Strategy is the first book to take a deep dive into the subject of ICM and how it impacts how you should play in tournaments. This book contains groundbreaking insights that most professional poker players are not aware of, including:

- How to adjust your play in the late stages of tournaments
- When to ladder and when to play for the win
- How to negotiate profitable final table deals
- The optimal game selection, rebuy and late registration strategies
- How to play short, average and big stacks at the end of tournaments

Dara O'Kearney is a professional poker player, sponsored Unibet Pro and co-host of The Chip Race Podcast. He is regarded as one of the best satellite grinders in the world and professional poker players seek out his advice on ICM whenever they prepare for a big final table. He is the co-author of the best selling books *Poker Satellite Strategy* and *PKO Poker Strategy*. "In an era of solvers and preflop charts, game states involving ICM pressure remain one of the few unsolved and untapped areas of poker. Endgame Poker Strategy does an excellent job of clearly explaining the most important ICM ideas and effects. Whether you are a beginning player looking to build an understanding of how ICM works, or a more advanced player looking to better internalise ICM concepts, there is something in this book for you." - Daniel Dvoress, high stakes poker player

Excelling at No-Limit Hold'em is a sensation in poker publishing. Renowned poker professional and author Jonathan Little brings together 17 of the greatest no-limit experts in the world to discuss all aspects of the game. These experts include superstars such as Phil Hellmuth, Chris MoneyMaker, Mike Sexton and Jared

Tendler. In Part 1 strategies are analysed for topics such as understanding the fundamentals, satellite play, lower-buy in events, analysing tells and moving up in stakes Part 2 sees a thorough technical breakdown of the game including sections on range analysis, game theory optimal play, short stack strategies, value betting and final table play. As any serious poker will confirm, the technical side is only half the battle and so Part 3 deals with mental toughness, psychology and understanding tilt. *Excelling at No-Limit Hold'em* provides all the tools that an aspiring player needs to understand no-limit hold'em. It is a must buy for anyone who is serious about wanting to improve their poker.

The Myth of Poker Talent is a unique book and is the culmination of renowned poker trainer Alex Fitzgerald's work with over 1000 students over a 10 year period. Alex has discovered what makes a winning poker player and here's the good news... It has nothing to do with poker talent. If you want to excel at the game you'll need to buy this book, study Alex's method and work hard - but you don't need talent. Alex's method focuses on understanding generic poker situations and not specific hands. As a highly experienced teacher, he expresses his ideas in simple, easy-to-understand language. *The Myth of Poker Talent* will teach you: A "model of poker" built from scratch An understanding of every poker tool Why much of what experienced players think they know is actually wrong. ... and much, much more.

This book teaches poker players how to study on and off the felt. It contains the techniques I've spent years using to improve my game.

Winning Poker in 30 Minutes a Day Two Plus Two Publishing LLC

This poker workbook has one goal: to help you actually improve between sessions. By learning powerful concepts and drilling through exercises, your ability to calculate accurately and quickly at the tables improves. Your time at the tables shouldn't be spent trying to calculate pot odds of a call or the breakeven-% of your bluffs. Calculations like these should be automatic, giving you extra time and brainpower to find ways to optimize your edge during a hand. Now you can practice the math that underlies all aspects of your poker strategy. Drill through the technical side of your preflop playbook. And start putting a bigger gap between your winrate and the regs in your game. This workbook teaches you the formulas and lays out practice exercises for concepts like: Equity Range Building/Hand Reading Combos & Blockers Pot Odds Implied Odds Breakeven % & Auto-Profit Expected Value (EV) Open-Raising 3Betting & 4Betting Preflop All-Ins By learning these simple formulas and practicing them at your own pace, you'll find poker math getting far easier. You don't need an IQ of 175 to master poker math - you just need some guidance, some shortcuts, and some in-depth training. Complete just a few pages per day, and you'll see serious improvement in the next month. And the best news is that these concepts come into play in every single session, at every single level, and wherever you happen to play poker. So the examples in this book range from live cash games to online tournaments - without bogging you down with confusing variables that will never apply to the poker games you play. The Answer Key Based upon feedback from previous workbooks, there is an included answer key so you can double-check your answers at any point. There is a link on Page #246 so you can download the answer key OR use the online version that will get lifetime updates. This key also includes all of the range strands, making it easy to copy ranges from the workbook and paste them directly into your poker software. Is This Workbook For You? We all have to start somewhere, and no one is born with technical poker knowledge imprinted in their brain. So truthfully answer each of these: Can you look at a range and correctly estimate its %-form and number of combos? If not, then this book is for you. Do you know how often a player would fold if you 3bet

or squeezed them? If not, this book is for you. Do you know how many combos of AQ a player can have on AQ4 when you hold AKs? If not, this book is for you. Do you know how much extra money you need to make when you have 15% equity and are getting 3:1 on a turn call? If not, then this book is for you. Do you know how often you can expect both the blinds to fold when you raise from the button? If not, this book is for you. Do you know how much equity AKs has against a range of QQ+/AK? If not, this book is for you. Are you 100% confident in your poker math skills yet? If not, then this book is for you. No more excuses. No more confusion when it comes to the core poker math. And no more reasons for skipping another study session. Pick up the Preflop & Math Poker Workbook and start seeing your strategy the right way. Good luck! The spiral design on the cover/back is purely decoration. Unfortunately, spiralbound printing is not an available option at this time.

Since its first publication in 1994, *Winning Low-Limit Hold'em*, by Lee Jones, has become the major reference on playing Texas Hold'em at the lower limits. However, poker has changed over the several years and Lee has continued to study the game. The result is this revised and expanded second edition.

Reading Poker Tells Huntington Press Inc

Poker star Dusty Schmidt presents his first book [–] one that stands to shake up poker in the same way Moneyball did for baseball. Schmidt offers an inspiring look at how in just five years, he went from not knowing a thing about poker to netting a seven-figure annual income. Far from a mathematical or technological genius, Schmidt says what guides him through is a fundamental understanding of business. *Treat Your Poker Like A Business* provides a foundation upon which all poker will be evaluated in the future, and will help an entire generation of poker players evolve their games into empires. A consummate "grinder," Dusty Schmidt has played nearly 7 million hands of online poker over more than 10,000 hours during his five-year career. He's won over \$3 million during that period, and has never experienced a losing month. In 2007, he achieved Poker Stars' SuperNova Elite status in just eight months while playing high-stakes cash games exclusively. Schmidt posted the world's highest win rate in both 5/10 NL and 10/20 NL in both 2007 and 2008. In a four-month period between Nov. 2007 and Feb. 2008, Schmidt won in excess of \$600,000 in high-stakes cash games. He is now a highly respected instructor at Stoxpoker.com, and plays as high as 25/50 NL. As a young man, Schmidt was a top-ranked golfer. He broke two of Tiger Woods' junior records, and was the leading money winner on the Golden States Tour when, at age 23, he suffered a career-ending heart attack. Schmidt returned to golf in 2009, winning medalist honors in qualifying for the Oregon Amateur Championship. Later that year, Schmidt famously represented himself in federal court in his suit against the United States Golf Association, which controversially stripped him of his amateur status, in part due to his poker profession. Schmidt is now a volunteer assistant coach for the University of Oregon's men's golf team, working under his good friend, Head Coach Casey Martin. Schmidt is also a successful entrepreneur. He is part-owner of Stoxpoker.com and Imagine Media, and the creator of 10thGreen.com, the first social network for golfers. His story has been featured in Sports Illustrated, Card Player, Poker News, Golf Magazine, Fairways and Greens, Golf Week, Golf World and the Portland Oregonian, as well as on ESPN, cnn.com, wallstreetjournal.com, forbes.com, fortune.com, espn.com, golfdigest.com and golf.com, among many others. He recently founded the House of Cards Project, a philanthropic effort to provide food and shelter to disadvantaged families. His life story will be told in the book [–] Raise: The Impossibly True Tale of Dusty Schmidt, [–] to be released later in 2010. He lives in Portland, Ore., with his wife, Nicole, and daughter, Lennon.

While most poker players dream of winning \$10,000,000 on poker's biggest stage, most find it impossible to win at even the smallest stakes. They usually blame bad luck for their failures whereas in reality, they are simply not skilled enough at poker. The secret to mastering poker is not in memorizing hand ranking charts or following a predetermined system. You must learn to think for yourself while at the table in order to adjust your strategy based on your specific opponents. *Strategies for Beating*

Small Stakes Poker Tournaments will explain how. In this guide, two-time World Poker Tour champion Jonathan Little explains numerous strategies he uses that will allow you to crush your opponents, giving you the opportunity to progress to the middle and high stakes.

Over the last ten years, the enormous growth of interest in poker and poker tournaments has led to an intense focus on the theory of tournament poker. The result was a re-examination of old ideas and the introduction of many new ones. The fundamentals of no-limit hold em did not change, but the game was revealed to have more depth than many older players could have anticipated. As a result, no-limit hold em tournament play has evolved into a newer, tougher, faster game, and good players have had to evolve to keep up. In *Harrington on Modern Tournament Poker*, Dan Harrington takes a fresh look at the world of no-limit hold em tournaments. He explains how the game is currently played, and what you'll have to do to be a successful tournament player in 2013 and beyond. The topics examined include how to play different hand types preflop, when to 3-bet and 4-bet, how to analyze the flop, turn, and river, and how to size your bets. Dan also explains how to adjust your strategy as your stack size grows and shrinks, and how to handle the new breed of super-aggressive players that you'll meet at the table (and, if you want, how to play that way yourself). Dan Harrington won the Gold Bracelet and the World Champion Title at the Main Event of the 1995 World Series of Poker. And he was the only player in recent history to make the final table in back-to-back years 2003 and 2004 considered by cognoscenti to be the greatest accomplishment in WSOP history.

Harrington on Cash Games: Volume II Booksurge Publishing

For decades, the highest level of poker have been dominated by players who have learned the game by playing it, road gamblers' who have cultivated intuition for the game and are adept at reading other players' hands from betting patterns and physical tells. Over the last five to ten years, a whole new breed has risen to prominence within the poker community. Applying the tools of computer science and mathematics to poker and sharing the information across the Internet, these players have challenged many of the assumptions that underlay traditional approaches to the game.'

All you need to play is a chip and a chair--and this straight from the start guide to the hottest, most popular form of poker around. Ben Affleck plays it, Allison Janney plays it, even Jason Alexander plays it. It's the game as big as all Texas, and the so-called "Cadillac of poker." With shows like *Celebrity Poker Showdown* winning an avid audience, it seems everyone wants to get dealt in. Don't let the fun pass you by, because every rule and trick is explained in this first-ever truly complete guide to success in today's Texas hold'em games. Written by a professional player, it reveals everything you need to know to beat cash games for thousands of dollars. Begin with the most general concepts and move on to pot and implied odds; betting; bluffing and semi-bluffing; deception; flop, turn and river play; and other techniques of the table--including some advanced ones. And, because it's less about the cards you've got in your hand than your ability to psych-out your competitors--there's also plenty of advice on honing that skill, too.

This new, expanded, fully updated and revised, edition of 'Secrets of Professional Tournament Poker' is a landmark in poker publishing. Originally published in two volumes in 2011 and 2012 this was both a critical and commercial success. Over the last decade, the understanding of poker has changed dramatically and this new edition fully reflects current thinking on the game. This book will give readers a thorough understanding of everything they need to know about playing tournaments and Jonathan Little is undoubtedly the person best qualified to impart this information. The book is split into seven sections: 1) How Tournaments Work -This explains why tournaments are a highly profitable form of poker and examines the basic concepts that need to be mastered. 2) Playing Deep Stacked -This deals with situations where (most) players have stacks of 50 big blinds or more. All situations are dealt with including pre-flop and all three post-flop streets. There is further information on general topics at this stack depth. 3) Playing Mid Stacked -This deals with situations where the basic stack depth is between 27 and 50 big blinds. These situations are tricky because with the shorter stack, players are often going all-in. This means that very clear adjustments are required compared to the deeper stack strategies. 4) Playing Short Stacked -This section focuses on play below 27 big blinds. Now play is almost exclusively focused on the possibility of players going all-in. Knowing the correct ranges and plays here is vital to maximise your chances for tournament survival. 5) The Late Stages -As the prospect of serious prize money looms, huge adjustments need to be made. How to play on the bubble and concepts such as risk premium and the Independent Chip Model are fundamental to maximising your chance of landing a major prize and they are all thoroughly

explained. 6) Hand Examples -This will test your understanding of everything you have learnt so far. 7) Other Considerations -You can improve your tournament results by also working on your general attitude and approach. This section encompasses all the non-technical aspects of playing, including learning, the mental approach, tells and practical tips. Jonathan Little has dedicated himself to educating players who are keen to improve their poker strategy, and in 2020, he was awarded the prestigious title of Global Poker Index "Poker Personality of the Year" - voted for by the poker-playing public. As well as being an immensely successful professional player with over \$7,000,000 in live tournament cashes, Jonathan runs the highly respected coaching site pokercoaching.com. By interacting regularly with his students, he has developed a clear understanding of how to explain important concepts in a language that can be easily understood by players of all skill levels. The result is *Secrets of Professional Tournament Poker* - the definitive guide to modern tournament play.

The best way for small stakes poker players to earn life-changing amounts of money is to win a satellite into a bigger tournament. Yet there is surprisingly little poker theory written about how to win satellite tournaments, until now. In *Poker Satellite Strategy* professional poker player Dara O'Kearney gives you a framework for how to approach every stage of a satellite tournament, from the early levels right up to the bubble. This book takes the stress and uncertainty out of satellites. You will learn: *Adjustments you need to make from regular poker tournament strategy *What hands to shove, call and fold on the bubble *When to tighten up and when to keep accumulating chips *Easy poker math to do at the tables *The correct poker GTO ranges (and how to adjust to different player types and situations) *When it's correct to fold Pocket Aces preflop Dara O'Kearney is a professional poker player from Ireland with a long standing reputation as the best satellite specialist in the game. He has won over \$1 million in satellite tournaments alone and twice won the PokerStars UKIPT satellite leaderboard. He is sponsored by Unibet Poker and is the co-host of The Chip Race Podcast. "In the first 30 minutes of reading, I guarantee you will pick up something that will increase your future expectation to cover the cost of the book tenfold" - Marty "TheLipoFund" Mathis, partypoker PPL Satellite Leaderboard winner "A highly recommended book for anyone looking to play satellites well or related formats like Double or Nothing where multiple finishers receive identical top prizes" ~ Collin Moshman - author of Sit 'n' Go Strategy "Dara has been ahead of the curve on satellites for years and his results show it. This book will change the way you think about, and play, satellites forever." ~ Daiva Byrne - professional poker player and advocate for women in poker This book uses the most up-to-date poker ICM calculators, however it has been written in a way to make the poker math you need to do at the tables very simple. Every chapter starts from a poker GTO framework but then explains how you should deviate when the players or table dynamics change. It covers every aspect of satellite play, from the important bubble stage, but even explaining the poker game theory behind late registering, post flop play, poker mindset issues unique to satellites and how to adjust in live poker tournaments. It has everything a texas hold'em player needs to qualify for big poker tournaments like the World Poker Tour, EPT or World Series of Poker.
