Domestic Abuse, Child Custody, and Visitation Jessica Kingsley Publishers

Spanning children's and adult's services, this book explores the nature and impact of domestic abuse and violence (DVA) throughout the lifecourse. It highlights evidence-informed practice and serves as an accessible and invaluable resource for all working with and supporting those dealing with DVA. Structured around three core themes of coercive control, developmental experiences of violence and the importance of an intersectional understanding of DVA, this book highlights the need for a coordinated 'whole family' approach in safeguarding work in this area. Chapters move through different stages of life, addressing topics such as children living with domestic violence, abuse in young people's relationships, mental illness, substance use and adolescent to parent abuse. Following significant changes in this field, including the introduction of coercive control as a legal offence and the global impact of COVID on DVA cases, this is a timely and much-needed resource.

Rethinking Domestic Violence UBC Press

For women experiencing domestic violence, narrative therapy can be a powerful tool to help them gain self-confidence and a sense of identity, resist violence, and make the transition from abuse to safety. Drawing on the narratives of women who have experienced domestic violence, this book explores how women employ strategies of resistance, and how strengthening their sense of identity can contribute to this resistance. It demonstrates how narrative therapy can be used as an effective intervention, helping women to leave abusive relationships and supporting them in moving on. The author outlines a model for intervention and discusses how to work with women whilst keeping their safety in mind. This book will be invaluable to counsellors, social workers and others working with abused

women, helping them to understand, engage with and fully support women to resist and move on from abuse.

Winning in Family Court Routledge

Domestic abuse is a national emergency: one in four Australian women has experienced violence from a man she was intimate with. But too often we ask the wrong question: why didn't she leave? We should be asking: why did he do it? Investigative journalist Jess Hill puts perpetrators - and the systems that enable them - in the spotlight. See *What You Made Me Do* is a deep dive into the abuse so many women and children experience - abuse that is often reinforced by the justice system they trust to protect them. Critically, it shows that we can drastically reduce domestic violence - not in generations to come, but today. Combining forensic research with riveting storytelling, *See What You Made Me Do* radically rethinks how to confront the national crisis of fear and abuse in our homes. 'A shattering book: clear-headed and meticulous, driving always at the truth'—Helen Garner 'One Australian a week is dying as a result of domestic abuse. If that was terrorism, we'd have armed guards on every corner.' —Jimmy Barnes 'Confronting in its honesty this book challenges you to keep reading no matter how uncomfortable it is to face the profound rawness of people's stories. Such a well written book and so well researched. *See What You Made Me Do* sheds new light on this complex issue that affects so many of us.'—Rosie Batty

Violent No More Psychology Press

"Selvaratnam very bravely and compellingly uses her personal experience to shine a light on the global crisis of violence against women. An important book for the women's rights movement, *Assume Nothing* demonstrates that violence against women exists across race, class, economic status and education levels, and may be perpetrated by those we think of as allies! It dispels the myth that there are certain types of victims and perpetrators. It will help a lot of people, and particularly those who hesitate to identify as a victim/survivor for fear of losing their grounding both publicly and privately."—Yasmeen Hassan, Global Executive Director, Equality Now "This courageous and terrifying book charts the author's descent into an abusive relationship and also her emergence from it in taut, seductive prose. Selvaratnam explains how—even as an educated, sophisticated, liberal feminist—she was enthralled by her lover's fame and tolerated escalating personal violence. Her narrative is vivid and bracingly frank, a tour-de-force of self-revelation and, ultimately, of redemption."—Andrew Solomon, National Book Award-winning author of *Far from the Tree* and *The Noonday Demon* Award-winning filmmaker Tanya Selvaratnam bravely recounts the intimate abuse she suffered from former New York State Attorney General Eric Schneiderman, using her story as a prism to examine the domestic violence crisis plaguing America. When Tanya

Selvaratnam met then New York State Attorney General Eric Schneiderman at the Democratic National Convention in July 2016, they seemed like the perfect match. Both were Harvard alumni; both studied Chinese; both were interested in spirituality and meditation, both were well-connected rising stars in their professions—Selvaratnam in entertainment and the art world; Schneiderman in law and politics. Behind closed doors, however, Tanya's life was anything but ideal. Schneiderman became controlling, mean, and manipulative. He drank heavily and used sedatives. Sex turned violent, and he called Tanya—who was born in Sri Lanka and grew up in Southern California—his "brown slave." He isolated and manipulated her, even threatening to kill her if she tried to leave. Twenty-five percent of women in America are victims of domestic abuse. Tanya never thought she would be a part of this statistic. Growing up, she witnessed her father physically and emotionally abuse her mother. Tanya knew the patterns and signs of domestic violence, and did not see herself as remotely vulnerable. Yet what seemed impossible was suddenly a terrifying reality: she was trapped in a violent relationship with one of the most powerful men in New York. Sensitive and nuanced, written with the gripping power of a dark psychological thriller, *Assume Nothing* details how Tanya's relationship devolved into abuse, how she found the strength to leave—risking her career, reputation, and life—and how she reclaimed her freedom and her voice. In sharing her story, Tanya analyzes the insidious way women from all walks of life learn to accept abuse, and redefines what it means to be a victim of intimate violence.

Rethinking Domestic Violence is the third in a series of books by Donald Dutton critically reviewing research in the area of intimate partner violence (IPV). The research crosses disciplinary lines, including social and clinical psychology, sociology, psychiatry, affective neuropsychology, criminology, and criminal justice research. Since the area of IPV is so heavily politicized, Dutton tries to steer through conflicting claims by assessing the best research methodology. As a result, he comes to some very new conclusions. These conclusions include the finding that IPV is

better predicted by psychological rather than social-structural factors, particularly in cultures where there is relative gender equality. Dutton argues that personality disorders in either gender account for better data on IPV. His findings also contradict earlier views among researchers and policy makers that IPV is essentially perpetrated by males in all societies. Numerous studies are reviewed in arriving at these conclusions, many of which employ new and superior methodologies than were available previously. After twenty years of viewing IPV as generated by gender and focusing on a punitive "law and order" approach, Dutton argues that this approach must be more varied and flexible. Treatment providers, criminal justice system personnel, lawyers, and researchers have indicated the need for a new view of the problem -- one less invested in gender politics and more open to collaborative views and interdisciplinary insights. Dutton's rethinking of the fundamentals of IPV is essential reading for psychologists, policy makers, and those dealing with the sociology of social science, the relationship of psychology to law, and explanations of adverse behaviour.

abuse are not as easy to identify as physical abuse. Emotional abuse leaves no visible marks, although its effect on a person's psyche can be just as devastating. Understanding abuse is the first step toward ending an abusive relationship. Enlightening charts, annotated quotes from experts, and real-world examples help young adults identify abuse in relationships with romantic partners, close friends, or family members. This knowledge gives them the tools they need to break free of an unhealthy relationship or help a loved one do the same.

Surviving Domestic Abuse examines how formal and informal

supports and services can mitigate the damaging, and sometimes fatal, social cost of domestic violence. The book highlights victims' perceptions of supports and lays a foundation for professionals and family members to effectively assist victims of domestic abuse. The book offers actionable recommendations and multiple-use cases to fill gaps in the understanding of the complexities that exist in domestic violence dynamics. Dr Finneran uses real-life interviews with victims to inform action and intervention for policy, strategy and decision-making for support and service providers including law enforcement, healthcare, social services and employers. Identification of successful supports and services can assist in preventing victims from returning to their abusive relationships, and the author provides real-life examples and a sounding board for the voices of real women who have endured domestic abuse. Spanning the gulf between research and practice, this is the ideal book for a range of professional communities including psychologists, social workers and healthcare professionals, and victims and survivors themselves. It's also suitable for academics and researchers, and students taking domestic violence treatment and prevention courses.
