**TYRONE KAYLEY****Speech** Gramedia Pustaka Utama

This is a detailed, narrative-based history of Classical Malay Literature. It covers a wide range of Malay texts, including folk literature; the influence of the Indian epics and shadow theatre; Panji tales; the transition from Hindu to Muslim literary models; Muslim literature; framed tales; theological literature; historical literature; legal codes; and the dominant forms of poetry, the pantun and syair. The author describes the background to each of these particular literary periods. He engages in depth with specific texts, their various manuscripts, and their contents. In so doing, he draws attention to the historical complexity of traditional Malay society, its worldviews, and its place within the wider framework of human experience. Dr. Liaw's History of Classical Malay Literature will be of benefit to beginning students of Malay Literature and to established scholars alike. It can also be read with benefit by those with a wider interest in Comparative Literature and in Southeast Asian culture in general.

This study of female suicide bombers examines the political pressures, motivations, and marginalization within Palestinian suicide bombers that gave rise to the shahida phenomenon.

**The Action Research Planner** Cambridge University Press

Ready to follow Nick Hornsby and Helen Fielding as the next big thing from Cool Britannia to hit America is Ben Elton. Already known to a wide public television audience as the funnyman behind Blackadder, The Young Ones, and The Thin Blue Line, Elton, author of Popcorn, lights up the literary

sky with Blast from the Past. Part noir thriller, part hilarious send-up of the politics of extremism, Blast from the Past is the new novel from English comedy phenomenon (stand-up, playwright, television writer, and author) Ben Elton--a name soon to be known in all circles once Joel Schumacher's film of his book Popcorn reaches the silver screen. In the early 80s, when Polly was a seventeen-year-old ideological peace protestor and Jack was a U.S. Army captain stationed at England's Greenham Common, the two had a secret and very unlikely affair. No two people could have had more to argue about, save that they couldn't live without each other, yet one day Jack came to the conclusion that he loved soldiering more than Polly and sacrificed their love to be a career army man. Now, sixteen years later, Polly is a lonely thirty-something social services employee and Jack is a four-star general who has returned to Britain to find her, his only true love. With only one night to resolve their differences, and a knife-wielding stalker lurking in the shadows, for everyone concerned this will be a night like no other.

This book attempts to discuss selected but thorny issues of humor research that form the major stumbling blocks as well as challenges in humor studies at large and thus merit insightful discussion. Any discourse is action, so the text-creation process is always set in a non-verbal context, built of a social and communicative situation, and against the background of relevant culture. On the other hand, humor scholars claim that humorous discourse has its special, essential features that distinguish it from other discourses. The pragmatic solution to the issue of potential circularity of humor defined in terms of discourse and discourse in terms of humor seems only feasible, and thus there is a need to discuss the structure and mechanisms of humorous texts and humorous performances. The chapters in the present volume, contributed by leading scholars in the field of humor studies, address the issues from various theoretical perspectives, from contextual semantics through General Theory of Verbal Humor, cognitive linguistics, discourse studies, sociolinguistics, to Ontological Semantic Theory of Humor, providing an excellent overview of the field to novices and experts alike.

**A Novel** Prentice Hall

Which animal says, "moo?" Which one says, "oink?" Little ones and their parents will enjoy saying the clues, folding out the pages, and revealing who's on the farm each and every time. Perfect for nap time, play time, or bed time fun.

**Boy at the Window** Yayasan Pustaka Obor Indonesia

FROM THE AUTHOR OF THE SUNDAY TIMES NUMBER ONE BESTSELLER THE ETYMOLOGICON. 'An informative but highly entertaining journey through the figures of rhetoric ... Mark Forsyth wears his considerable knowledge lightly. He also writes beautifully.' David Marsh, Guardian. Mark Forsyth presents the secret of writing unforgettable phrases, uncovering the techniques that have made immortal such lines as 'To be or not to be' and 'Bond. James Bond.' In his inimitably entertaining and witty style, he takes apart famous quotations and shows how you too can write like Shakespeare, Oscar Wilde or John Lennon. Crammed with tricks to make the most humdrum sentiments seem poetic or wise, The Elements of Eloquence reveals how writers through the ages have turned humble words into literary gold - and how you can do the same.

**Its Function and Development** Penguin

A fully-updated and reworked version of the classic book by Stephen Kemmis and Robin McTaggart, now joined by Rhonda Nixon, *The Action Research Planner* is a detailed guide to developing and conducting a critical participatory action research project. The authors outline new views on 'participation' (based on Jürgen Habermas's notion of a 'public sphere'), 'practice' (as shaped by practice architectures), and 'research' (as research within practice traditions). They provide five extended examples of critical participatory action research studies. The book includes a range of resources for people planning a critical participatory research initiative, providing guidance on how to establish an action research group and identify a shared concern, research ethics, principles of procedure for action researchers, protocols for collaborative work, keeping a journal, gathering evidence, reporting, and choosing academic partners. Unlike earlier editions, *The Action Research Planner* focuses specifically on critical participatory action research, which occupies a particular (critical) niche in the action research 'family'. *The Action Research Planner* is an essential guide to planning and undertaking this type of research.

"Alif had never set foot outside of West Sumatra. He passed his childhood days searching for fallen durian fruit in the jungle, playing soccer on rice paddies, and swimming in the blue waters of Lake Maninjau. His mother wants him to attend an Islamic boarding school, a pesantren, while he dreams of public high school. Halfheartedly, he follows his mother's wishes. He finds himself on a grueling three-day bus ride from Sumatra to Madani Pesantren (MP) in a remote village on Java. On his first day at MP, Alif is captivated by the powerful phrase *man jadda wajada*. He who gives his all will surely succeed. United by punishment, he quickly becomes friends with five boys from across the archipelago, and together they become known as the Fellowship of the Manara. Beneath the mosque's minaret, the boys gaze at the clouds on the horizon, seeing in them their individual dreams of far-away lands, like America and Europe. Where would these dreams take them? They didn't know. What they did know was: never underestimate dreams, no matter how high they may be. God truly is The Listener. *The Land of Five Towers* is the first book in a trilogy written by A. Fuadi—a former TEMPO & VOA reporter, photography buff, and a social entrepreneur. He went to George Washington University and Royal Holloway, University of London for his masters. A portion of the royalties from the trilogy are intended to build Komunitas Menara, a volunteer-based social organization which aims to provide free schools, libraries, clinics and soup kitchens for the less fortunate. To learn more about Komunitas Menara and their activities, check out [www.negeri5menara.com](http://www.negeri5menara.com)"

Humor gets very little respect! While references to the importance of having a sense of humor are liberally sprinkled throughout the popular media, and it is usually mentioned as one of the qualities of effective employees, it is rare to find purposeful humor practice. Humor is without a doubt the one quality that most of us agree is needed in life. However, it is rare to find serious applications on the benefits of applying humor in everyday life and in our world of work. When the federal government tried to incorporate humor into a staff development program of a federal agency, there was an outcry. It seems that humor was thought to be a waste of taxpayer money, and the program was axed. The purpose of *Using Humor to Maximize Living* is to affirm, sustain, and encourage people in

the practice of humor not only as a personal tool to optimize a healthy life style, but also to maximize the benefits of humor in everyday life. Check out the research that includes a review on the use of humor to nurture creativity, to increase the capacity for memory retention, to support an optimal work environment, and to build safe communities that reflect the relational trust necessary for maximizing living. Author, Mary Kay Morrison teaches a 3 hour grad course in Humor Studies through the Association for Applied and Therapeutic Humor (AATH) at the annual conference each year: <http://www.aath.org/humor-academy>"

This book offers multiple perspectives on our understanding of literacy and its acquisition and retention.

[Sitti Nurbaya](#) Macmillan Publishing Company

Dolly Parton lends the lyrics of her classic song "Coat of Many Colors" to this heartfelt picture book for young readers. Country music legend Dolly Parton's rural upbringing in the Smoky Mountains of Tennessee provides the backdrop for this special picture book. Using lyrics from her classic song "Coat of Many Colors," the book tells the story of a young girl in need of a warm winter coat. When her mother sews her a coat made of rags, the girl is mocked by classmates for being poor. But Parton's trademark positivity carries through to the end as the girl realizes that her coat was made with love "in every stitch." Beautiful illustrations pair with Parton's poetic lyrics in this heartfelt picture book sure to speak to all young readers.

**The Good Son** Rodale Press

This book provides practical know-how on understanding, implementing, and managing main stream social media tools (e.g., blogs and micro-blogs, social network sites, and content communities) from a public sector perspective. Through social media, government organizations can inform citizens, promote their services, seek public views and feedback, and monitor satisfaction with the services they offer so as to improve their quality. Given the exponential growth of social media in contemporary society, it has become an essential tool for communication, content sharing, and collaboration. This growth and these tools also present an unparalleled opportunity to implement a transparent, open, and collaborative government. However, many government organization, particularly those in the developing world, are still somewhat reluctant to leverage social media, as it requires significant policy and governance changes, as well as specific know-how, skills and resources to plan, implement and manage social media tools. As a result, governments around the world ignore or mishandle the opportunities and threats presented by social media. To help policy makers and governments implement a social media driven government, this book provides guidance in developing an effective social media policy and strategy. It also addresses issues such as those related to security and privacy.

Divorced, thirtysomething Teresina, "Tere," spends her time working in a small dusty town near El Paso, Texas, but her life begins a series of turns when she meets ne'er-do-well Lucio, who ties her heart in knots with a string of empty promises, and joins the Pedro Infante Fan Club #256. Reader's Guide available. Reprint. 25,000 first printing.

Saving Languages Vintage

The Spice Islands Voyage is about a journey and a quest: a journey among the Spice Islands of equatorial Indonesia aboard a traditional native sailing vessel; a quest to rediscover Alfred Russel Wallace, the brilliant and intrepid naturalist who jointly proposed, with Charles Darwin, the theory of natural selection, and whose travels founded the science of zoo geography. Navigating through sparkling coral seas to remote shorelines, Tim Severin and his crew retraced the explorer's journeys, encountering green turtles and flying foxes, observing the smuggling of rare birds and rainforest destruction, but also witnessing the emergence of a new sense of environmental awareness. 'Full of insights retraces a journey through places of fabulous natural and cultural diversity should inspire new readers to discover the remarkable writings of Wallace himself', Independent

The Struggle of the Naga Tribe Penguin

Celebrate around the world with this adorable book that teaches little readers how to say "happy birthday" in sixteen different languages including English, Punjabi, Urdu, Chamorro, Filipino, French, Hausa, Spanish, Lithuanian, Arabic, Dutch, Catalan, Japanese, Mongolian, Welsh, and Portuguese. About the Global Greetings series: These beautifully illustrated, sturdy board books teach young readers to greet the world in languages from around the globe. Featuring simple pronunciation guides, these books are designed to help little ones master each word and encourage them to broaden their language skills, all while the adorable animal illustrations keep them entertained read after read.

*The Spice Islands Voyage* Maktaba Darussalam

It has long been a central conviction of western humanistic thought that reason is the most godlike of human traits, and that it makes us unique among animals. Yet if reason directs what we do, why

is human behavior so often violent, irrational and disastrous? In *Within Reason*, leading neurologist Donald B. Calne investigates the phenomenon of rationality from an astonishingly wide array of scientific, sociological, and philosophical perspectives--and shows that although reason evolved as a crucial tool for human survival, it is an aspect of mind and brain which has no inherent moral or spiritual qualities and one whose relationship to our thoughts and actions may not be as central as we want to believe. Learned, lucid, and always illuminating, *Within Reason* brings together the latest developments in the science of mind with some of the most enduring questions of Western thought. Icon Books

"There are not many books on ethics that are currently available, especially in Indonesia. This book comes to fill that gap. A commendable book that researchers should read, especially when there is more and more research on human behavior. It is a stupendous work." □ M. Chatib Basri, Executive Director, IBER Minister of Finance of the Republic of Indonesia 2013-2014 "This book addresses an important set of issues in the context of Indonesia, a large developing country in Southeast Asia. Most work on research ethics has originated in the developed world; the strength of this book is that it relates the large international literature to the specific problems which Indonesian researchers are likely to face, especially in the social sciences. It deserves a wide readership both in Indonesia and in other parts of the world." □ Anne Booth, Professor Emeritus, SOAS, University of London "In a world full of fake news, corrupt bureaucracies, and inequitable judgements it is vital that the training of rising generations of social scientists contains thorough grounding in ethics. This volume should be required reading in all teaching programs, and a valuable addition on the desk of all graduates wishing to pursue a career in the social research professions." □ Terence H. Hull, Emeritus Professor of Demography, The Australian National University "Reading this book is an eye-opening experience. Mayling Oey Gardiner presents novelty by discussing ethics in social science research on current issues such as big data, internet-based research, and environmental research. This book can guide academics and decision-makers to define boundaries and consider the impact of social research." □ Rhenald Kasali Ph.D, Founder Rumah Perubahan Professor of Management, University of Indonesia
