 Simcha Guterman's, *Leaves from Fire*, is a firsthand account written with the deep sense of comprehension he was documenting the fate of his people. Knowing full well that his life was in danger, Simcha chronicled the occurrences of the Holocaust on long scraps of paper, as they happened right before his eyes. The events described take place in Poland, during the first years of World War II. The author stuffed long paper scraps, written in Yiddish, into bottles and hid in them in different places. One of these bottles was discovered after the war. Simcha Guterman's work has

been published and translated into eight different languages, receiving high praise from critics. The book's evocative illustrations were drawn by Yaakov Guterman, the author's son.

 2 Thessalonians 1 is a favorite of preachers. The dramatic description of the Day of the Lord is effective for the "altar call!" But, in this powerful, easy to read book, prolific author Dr. Don K. Preston shows, with compelling logic and exegesis, that Paul was anticipating, not an end of time coming of Christ, but, the AD 70 judgment of Old Covenant Israel, for persecuting the saints! This is a must read for serious Bible students!

 Having survived the worst effects of the Civil War, the city of Memphis, battered but unbowed, finds itself facing a far more dangerous foe. It is invisible, lethal, and unstoppable: a plague of yellow fever. It is the story of JP Mahoney, 14-year-old farm boy who dreams of escape from tedious chores and farmlife routine. It is the story of a courageous young woman, Ginnie

Moon, onetime Confederate spy, who now operates a boarding house for men who have survived the war. And it is the story of Kevin O'Boyle, an embittered riverfront laborer, who blames the world for his troubles, and finds the crippled city his perfect prey. Several characters in the novel are actual historical figures, most notably Ginnie Moon, Judge "Pappy" Hadden, and Cap'n Jim Lee. Their actions, and those of the other characters, are entirely fictional. The plague, one of several to hit the city in the years following the war, was all too real.

All Isla Macallen wanted was a simple existence on her little Scottish island—but what she got was embroiled in a war of good versus evil. Paranormal investigator Dr. Jeremiah Rousseau doesn't expect his research to lead him to Scotland, and to the woman who will turn his world upside down. Together they must defeat the demon king before time runs out. As a supernatural war wages around them, Isla and Jeremiah will risk it all for love. *Book 2, Trial of Fire Trilogy* Amazon Divine Vengeance weaves intrigue and drama through the accurate and volatile historical events of the Cathar wars in thirteenth century France. A brutal massacre sponsored by the Pope. Brother Raimon cannot reconcile the dissonance between his faith and the violence. Nor can he rationalize his love for a Guilelma, a Cathar heretic. What starts as offering a helping hand, soon turns into organized aid for fleeing heretics. Now Raimon is captured attempting to sabotage the trebuchet Malvoisine, and he is to be burned at the stake...along with 180 heretics...and the woman he loves. Sadly the brutality of crusade leader Simon de Montfort is not contrived. The Cathar crusade was the first pogrom aimed at a Christian region. It led to the dark years of the Inquisition and set a concerning tone that influenced Western thought for centuries. Action, intrigue, geography, an era of history rife with contradictions, and an unrequited love. Join the adventure!

Reproduction of the original: *The Rock of the Lion* by Molly Elliot Seawell [Peter Stack](#) of Firewood Press, A On the eve of St. Medard's Day in the year

1281, the moon, which had just risen, was shining brightly upon the imperial free city of Nuremberg; its rays found their way into the street leading from the strong Marienthurm to the Frauenthor, but entrance to the Ortlieb mansion was barred by a house, a watchtower, and—most successfully of all—by a tall linden tree. Yet there was something to be seen here which even now, when Nuremberg sheltered the Emperor Rudolph and so many secular and ecclesiastical princes, counts, and knights, awakened Luna's curiosity. True, this something had naught in common with the brilliant spectacles of which there was no lack during this month of June; on the contrary, it was very quiet here. An imperial command prohibited the soldiery from moving about the city at night, and the Frauenthor, through which during the day plenty of people and cattle passed in and out had been closed long before. Very few of the worthy burghers—who went to bed betimes and rose so early that they rarely had leisure to enjoy the moonlight long—passed here at this hour. The last one, an honest master weaver, had moved with a very crooked gait. As he saw the moon double—like everything else around and above him—he had wondered whether the man up there had a wife. He expected no very pleasant reception from his own at home. The watchman, who—the moon did not exactly know why—lingered a short time in front of the Ortlieb mansion, followed the burgher. Then came a priest who, with the sacristan and several lantern bearers, was carrying the sacrament to a dying man in St. Clarendasse. There was usually more to be seen at this hour on the other side of the city—the northwestern quarter—where the fortress rose on its hill, dominating the Thiergartenthor at its foot; for the Emperor Rudolph occupied the castle, and his brother-in-law, Burgrave Friedrich von Zollern, his own residence. This evening, however, there was little movement even there; the Emperor and his court, the Burgrave and his train, with all the secular and ecclesiastical princes, counts, and knights, had gone to the Town Hall with their ladies. High revel was held there, and inspiring music echoed through the open windows of the spacious apartment, where the Emperor Rudolph also remained during the ball. Here the moonbeams might have been reflected from glittering steel or the gold, silver, and gems adorning helmets, diadems, and gala robes; or they might surely have found an opportunity to sparkle on the ripples of the Pegnitz River, which divided the city into halves; but the heavenly wanderer, from the earliest

times, has preferred leafy hidden nooks to scenes of noisy gaiety, a dim light to a brilliant glare. Luna likes best to gaze where there is a secret to be discovered, and mortals have always been glad to choose her as a confidante. Something exactly suited to her taste must surely be going on just now near the linden which, in all the splendour of fullest bloom, shaded the street in front of the Ortlieb mansion; for she had seen two fair girls grow up in the ancient dwelling with the carved escutcheon above the lofty oak door, and the ample garden—and the younger, from her earliest childhood, had been on especially intimate terms with her.

THE FIRE IN THE ROCK is a first-person retelling of the Exodus story from the viewpoint of Tzipporah, the wife of Moses; but it is not a conventional "Bible story." First, God is "offstage"; He is present only in the characters' hearts and thoughts. Second, there are no overt "miracles"; all the events of the Plagues and the Exodus are attributed to natural, if unique, events that are now known to have taken place at around that time. This is not a book of "signs and wonders." I write of Moses and Tzipporah as real people with a real, human relationship; indeed, the book has been described (by Kirkus) as "a powerful, focused love story that may perhaps be more appealing to seekers than believers." As for the "religious" aspect -- Moses himself is filled with uncertainty and doubt till the end of his life. The central inspiration of the book was, in fact, the simple question, "What if Moses were just

an ordinary man?" THE FIRE IN THE ROCK received a Starred Review from Kirkus Reviews, and was named to its list of "Best Books of 2106."

Environmentalists worry about too much carbon dioxide, but what's too little? What if global financiers manipulated the global warming crisis to gain control over humanity's resources, freedoms, and population? What if someone with the financial and technical abilities decided mankind was a virus and used carbon dioxide trapping technology to plunge population levels by crashing life-essential CO2 to new lows? These are questions Anna Picard must face in *The Carbon Trap*, the first book in *The Carbon Series*. At the height of the global warming crisis, the United Nations attempts to control all carbon emissions, and authorizes a series of programs it deems necessary to save humanity. A progressive US government enthusiastically endorses the UN Carbon Trapping program, and to help pay for it, will impose carbon taxes, draconian regulations, and... it will secretly sell Alaska. Anna Picard is an amoral fixer, an employee of Agenda 21 member and global financier Alexis Swanson had trained to help recruit his corporate army and neutralize his enemies. It is her job to unleash a global hacker network to help destroy the carbon based industries and funnel insider-trading profits to Swanson. One of her recruits is Dr. Sven Johansson, a brilliant geneticist and President of Snath Biotechnology, who designs life forms to trap CO2. But Sven has more ambitious plans. At a UN conference in the Maldives held to impose draconian carbon regulations, not everyone is happy, some industrial executives realize data has been falsified. To protect her scheme, Anna frames one of the execs for murder. Her plans are complicated when she falls in love with Dr. Pete Heyward, the son of the man she framed for murder. Pete is a US Marine amputee who sees past her malevolent deeds and tries to rejuvenate the morality of her youth. After a series of genetically modified carbon trapping life forms is unleashed upon the Earth, Anna must confront the evils she helped unleash, and prevent an even bigger disaster from unfolding that would destroy most life on Earth. This is a high-tech ecological thriller that takes the reader from the Maldives, to the French Riviera, and the heartland of Texas. It introduces cutting edge technologies and concepts, used for the first time in a novel, that reveal striking implications for society.
