Building a Windows Home Theatre PC is We Got Served's definitive guide to planning, building, installing and using a Windows-based home theatre PC. If you're serious about streaming and managing your music and movies collection, then a Home Theatre PC (HTPC) puts you firmly in control. Sure, you can stream media on Connected TVs, Blu-ray players and other receivers but you have limited opportunities to customise and tailor those offerings to your needs, your family's needs and the needs of your home. Depending on your choice, you get these services, miss out on those services and are reliant on a benevolent manufacturer to continue adding new apps and maintaining existing apps. But a HTPC with a small footprint - powerful and silent hardware running slick, easy to manage media center software is not a dream. It's available for you today. Right now. You can build the hardware you want, install the services you prefer and play the media you love. In this 513 page guide, we walk you step by through creating a first-class, small and mighty HTPC - you'll plan the specifications, components and form factor you need, select the hardware and learn how to assemble a barebones kit (such as our reference build, an Intel NUC HTPC) or build a PC from scratch. From there, we deep dive into maximising performance of your HTPC through tweaking motherboard settings and installing Intel's Rapid Start and Smart Connect management applications. We'll install the latest release of Windows and configure the operating system for HTPC use, tailoring settings to support DTS and Dolby Digital audio,

then enhancing video support for Blu-ray disc. With support for Blu-ray on board, you'll be guided through advanced topics like region unlocking and DVD/Blu-ray ripping to a choice of formats, including MKV, BDMV and ISO for streaming in your favourite media center software. We install USB and Network TV Tuners for configuring Live and Recorded TV and use DVBLink to integrate our channels and EPG into a variety of popular media applications. If you think we're done, then hold on! The guide takes a detailed look at configuring a universal remote control (the Logitech Harmony Hub) for use with our HTPC and look at various ways to download and manage music, video and TV metadata for our media collection. You'll learn the basics of popular file downloaders SABnzbd and uTorrent and we wrap up with a comprehensive review of leading media center packages Plex Media Server and XBMC. Building a Windows Home Theatre PC is packed with tips, tricks and tutorials to help you build a kick-ass home theatre PC that will last you for years to come! Chapters Chapter 1: Consider the Environment Chapter 2: Selecting Your HTPC Hardware Chapter 3: Assemble a Barebones HTPC Chapter 4: Build Your HTPC From Scratch Chapter 5: Configure Your UEFI Motherboard Chapter 6: Maximise Responsiveness With Intel Rapid Start and Smart Connect Chapter 7: Install Windows 8.1 Chapter 8: Configure Windows Audio for DTS and Dolby Digital Surround Sound Support Chapter 9: Enhancing Windows Video and Blu-ray Support Chapter 10: Rip Your DVDs and Blu-rays for Viewing Any Time Chapter 11: View Live and Recorded TV on Your HTPC Chapter 12: Configure a Logitech Harmony Remote to Control Your HTPC Chapter 13: Manage Your Music Metadata Chapter 14: Automatically Collate and Manage Movie & TV Metadata Chapter 15: Flex Your Media Muscles With Plex Chapter 16: Download Files on Your HTPC With SABnzbd Chapter 17: Install a BitTorrent Client Chapter 18: Using XBMC Step by Step

A Bubble in Time Information Today, Inc.

"Presidential biographer Jean Edward Smith offers a ... biography of George W. Bush, showing how he ignored his advisors to make key decisions himself--most [famously] in invading Iraq--and how these decisions were often driven by the President's deep religious faith"--Amazon.com. *Weapons Acquisition System Reform Through Enhancing Technical Knowledge and Oversight Act of 2009* HSRC Press New York Times bestseller M. C. Beaton's cranky, crafty Agatha Raisin—now the star of a hit T.V. show—is back on the case again. When private detective Agatha Raisin comes across a severed leg in a roadside hedge, it looks like she is about to become involved in a particularly gruesome murder. Looks, however, can be deceiving, as Agatha discovers when she is employed to investigate a case of industrial espionage at a factory where nothing is quite what it seems. The factory mystery soon turns to murder and a bad-tempered donkey turns Agatha into a national celebrity, before bringing her ridicule and shame. To add to her woes, Agatha finds herself grappling with growing feelings for her friend and occasional lover, Sir Charles Fraith. Then, as a possible solution to the factory murder unfolds, her own life is thrown into deadly peril. Will Agatha get her man at last? Or will the killer get her first?

Breakthroughs in Research and Practice Berrett-Koehler Publishers

In the modern hyperconnected society, consumers are able to access news from a variety of channels, including social media, television, mobile devices, the internet, and more. From sensationalist headlines designed to attract click-throughs to accusations of bias assigned to specific news sources, it is more important now than ever that the media industry maintains best practices and adheres to ethical reporting. By properly informing citizens of critical national concerns, the media can help to transform society and promote active participation. *Journalism and Ethics: Breakthroughs in Research and Practice* examines the impacts of journalism on society and the media's responsibility to accurately inform citizens of government and non-government activities in an ethical manner. It also provides emerging research on multimedia journalism across various platforms and formats using digital technologies. Highlighting a range of pertinent topics such as investigative journalism, freedom of expression, and media regulation, this publication is an ideal reference source for media professionals, public relations officers, reporters, news writers, scholars, academicians, researchers, and upper-level students interested in journalism and journalistic ethics.

The Washington Post Index Potomac Books, Inc.

The first ever in-depth study of Kate Bush's life and career, *Under The Ivy* features over 70 unique and revealing new interviews with those who have viewed from up close both the public artist and the private woman: old school friends, early band mates, long-term studio collaborators, former managers, producers, musicians, video directors, dance instructors and record company executives. It undertakes a full analysis of Bush's art. Every crucial aspect of her music is discussed from her ground-breaking series of albums to her solo live tour, her pre-teen poetry and scores of unreleased songs. Combining a wealth of new research with rigorous critical scrutiny, *Under the Ivy* offers a string of fresh insights and perspectives on her unusual upbringing in South London, the blossoming of her talent, her enduring influences and unique working methods, her rejection of live performance, her pioneering use of the studio, her key relationships and her gradual retreat into a semi-mythical privacy.

A Comprehensive Compilation of Decisions, Reports, Public Notices, and Other Documents of the Federal Communications Commission of the United States Omnibus Press & Schirmer Trade Books

Publisher description

Under the Ivy Margaret K. McElderry Books

Greatness Redefined for the 21st Century Today's business climate is defined by speed, social technologies, and people's expectations of "values" besides value. As a result, leaders have to create an outstanding culture for all, no matter who they are or what they do for the organization. This groundbreaking book, from the creators of the gold-standard Fortune 100 Best Companies to Work For list, shows how it's done. Through inspiring stories and compelling research, the authors demonstrate that great places to work for all benefit the individuals working there and contribute to a better global society—even as they outperform in the stock market and grow revenue three times faster than less-inclusive rivals. This is a call to lead so that organizations develop every ounce of human potential.

Programming for TV, Radio & The Internet Cengage Learning

Although, language is certainly individualized, most people conform to linguistic norms because of their surroundings. Over time, particular words and phrases are popularized by the media, social trends, or world events; and with emergence of internet technologies, the communication between all types of people is much easier. *Communication and Language Analysis in the Public Sphere* explores the influence of the World Wide Web on the relationships between ordinary citizens and the ability to communicate with politicians, celebrities, and the media. As some words may gain popularity worldwide, and others may begin to define a specific discipline. This book is essential for linguistics researchers, scholars, and professionals interested in determining these patterns and how they affect groups and individuals.

Hearing Before the Committee on Energy and Commerce, One Hundred Seventh Congress, First Session, February 14, 2001 Routledge

That market forces drive the news is not news. Whether a story appears in print, on television, or on the Internet depends on who is interested, its value to advertisers, the costs of assembling the details, and competitors' products. But in *All the News That's Fit to Sell*, economist James Hamilton shows just how this happens. Furthermore, many complaints about journalism--media bias, soft news, and pundits as celebrities--arise from the impact of this economic logic on news judgments. This is the first book to develop an economic theory of news, analyze evidence across a wide range of media markets on how incentives affect news content, and offer policy conclusions. Media bias, for instance, was long a staple of the news. Hamilton's analysis of newspapers from 1870 to 1900 reveals how nonpartisan reporting became the norm. A hundred years later, some partisan elements reemerged as, for example, evening news broadcasts tried to retain young female viewers with stories aimed at their (Democratic) political interests. Examination of story selection on the network evening news programs from 1969 to 1998 shows how cable competition, deregulation, and ownership changes encouraged a shift from hard news about politics toward more soft news about entertainers. Hamilton concludes by calling for lower costs of access to government information, a greater role for nonprofits in funding journalism, the development of norms that stress hard news reporting, and the defining of digital and Internet property rights to encourage the flow of news. Ultimately, this book shows that by more fully understanding the economics behind the news, we will be better positioned to ensure that the news serves the public good.

The Boston Globe Index Simon and Schuster

George H. W. Bush ranks among America's most distinguished men of the twentieth century. A war hero, businessman, politician, and the forty-first president of the United States, Bush has spent most of his life dedicated to public service. Curt Smith worked with Bush for more than twenty years, including during his presidency, when Smith wrote more speeches for Bush than anyone else. Smith's exploration of Bush's service includes in-depth narratives on the invasion of Panama, the first Gulf War, the fall of the Berlin Wall, and the collapse of the Soviet Union and the Iron Curtain. He also chronicles the contrasting presidential elections of 1988 and 1992, examining the successes and failures of each. Smith profiles the people germane to Bush's life and career: his wife, Barbara; mentors such as Ronald Reagan; and political allies such as Margaret Thatcher, and many more. *George H. W. Bush: Character at the Core* shows how Bush's courtesy and belief in work, religion, and American exceptionalism helped the patrician connect with Middle America and take his place among the most revered statesmen of his time.

America During the Interwar Years, 1989-2001 IGI Global

This is the inside story of how Jeb Bush persuaded the Fox network to call the presidential election for his brother George W. Bush on Election Night 2000. It was one phone call to Fox — the details of which are revealed in this book for the first time — that propelled George W. Bush into leading position for 43rd president of the United States. Even though the erroneous statement had to be retracted within two hours, the damage done by this false call to Al Gore's chances of winning the election were incalculable. David Moore, at the time senior editor for the Gallup Poll, makes the plausible and alarming case that, had Fox not made this miscall, the resulting political environment would have been less biased in favor of Bush, and that Al Gore could have won. On Election Night in 2000, Moore was with the exit poll "decision team" of CBS and CNN, taking notes on how election races were called, and miscalled, around the country — including the two miscalls and two rescissions in Florida. Prior to joining Gallup in 1993, Moore was founder and director of the Survey Center at the University of New Hampshire.

All the News That's Fit to Sell Princeton University Press

Douglas Kellner's *Persian Gulf TV War* attacks the myths, disinformation, and propaganda disseminated during the Gulf war. At once a work of social theory, media criticism, and political history, this book demonstrates how television served as a conduit for George Bush's war policies while silencing anti-war voices and foregoing spirited discussion of the complex issues involved. In so doing, the medium failed to assume its democratic responsibilities of adequately informing the American public and debating issues of common concern. Kellner analyzes the dominant frames through which television presented the war and focuses on the propaganda that sold the war to the public—one of the great media spectacles and public relations campaigns of the post-World War II era. In the spirit of Orwell and Marcuse, Kellner studies the language surrounding the Gulf war and the cynical politics of distortion and disinformation that shaped the mainstream media version of the war, how the Bush administration and Pentagon manipulated the media, and why a majority of the American public accepted the war as just and moral.

Policy, Strategy and Models for the Sustainable Development of Community Television in South Africa Taylor & Francis

ARIST, published annually since 1966, is a landmark publication within the information science community. It surveys the landscape of information science and technology, providing an analytical, authoritative, and accessible overview of recent trends and significant developments. The range of topics varies considerably, reflecting the dynamism of the discipline and the diversity of theoretical and applied perspectives. While ARIST continues to cover key topics associated with classical information science (e.g., bibliometrics, information retrieval), editor Blaise Cronin is selectively expanding its footprint in an effort to connect information science more tightly with cognate academic and professional communities.

Telecommunications Update Bush's War For Reelection Iraq, the White House, and the People John Wiley & Sons George H. W. Bush Character at the Core Potomac Books, Inc.

Wall Street Journal Index John Wiley & Sons

Some Secrets When Liv Dugan ducks out of work for lunch, it's just an ordinary day. When she returns, she stumbles onto a massacre. All her colleagues at Zuma Software have been shot. Only luck has left Liv unscathed, and that might be running out. . . Will Follow You Liv suspects the shootings are tied to her past--and to the package she recently received from her long-dead adoptive mother. Sensing she's being followed, Liv jumps into a stranger's car and orders him to drive. Her "hostage" complies, listening carefully as her story unwinds. Skeptical at first, he ultimately begins to believe all Liv's fears are justified. . . To Your Grave Together, Liv and her unlikely confidant try to uncover the truth about her adoptive family, her birth parents, and her troubled childhood. Because somewhere in Liv's past is a secret worth killing for, and a nightmare she can never outrun. . . There Are Sins "Do unto others. . ." Carefully, he carves the words into their flesh. The victims are all young, brunette, pretty. But she's the one he really wants. The others are just a way to ease the rage that has festered for years, until the only thing that calms him is his knife slicing through skin. . . You Never Live Detective September Rafferty--Nine to her friends--recognizes the artwork that arrives in the mail. She created it back in second grade. Now a killer's words are slashed across it in what looks like blood. He knows her. September's investigation leads to her old classmate, Jake Westerly. She wants to believe Jake is innocent. But trusting anyone could be her last mistake. . . To Regret Every slight, every slur, he remembers them all. They turned him into a monster, and now they will suffer for it. Starting with September, he'll show them that the past can never stay hidden, and the time of vengeance is at hand. . . The Guilty She senses their twisted desires before she meets them. It's as if fate is helping her stop these monsters from preying on others the way she was preyed upon. And after she has delivered brutal justice, she'll let the whole world see their guilt. Will Atone "I must pay for what I've done." The first victim--naked, bound, frozen to death--wore the note strung around his neck. Now there's another note--this one attached to Detective September Rafferty's own stepbrother. Stefan survives, but September is sure he knows more than he's saying. Someone is eliminating suspected sexual predators. And the only thing more dangerous than a madman is a killer who's ruthlessly sane.

Bush Zebra Books

The all-too-brief period of relative tranquility that extended from the end of the Cold War to the beginning of the War on Terror is the subject of William L. O'Neill's brilliant new study of recent American history. Mr. O'Neill's sharp eye for the telling incident and the apt quotation combine with an acute historical judgment to make *A Bubble in Time* a compellingly readable informal history.

George H. W. Bush Peter Reich

This chronological overview of world history since 1914 presents coverage of the Western and non-Western world and uses four themes to provide continuity. These themes are: global interrelatedness - the shift from colonies to interdependence; disequilibrium among societies - a clash that has occurred with the expansion of European and US influence; the rise of mass society - sometimes in the form of democracy, but more often mass-based dictatorship; and technology and nature - resulting in mankind's power to destroy the earth.

Facts on File World News Digest Yearbook Telecommunications Update Bush's War For Reelection Iraq, the White House, and the People Drawing from the imaginative quotes President Bush has uttered over the years, the 'George W. Bush Coloring Book' illustrates Bush's very own words in the form of a coloring book. Illustrator Karen Ocker lends her visually distinct style to on-the-record quotes such as "It's amazing I won. I was running against peace, prosperity and incumbency," and "I know the human being and fish can coexist peacefully." The coloring book includes an essay on Bush by Joley Wood. Wood has written on numerous Irish writers, including essays on James Joyce, George Bernard Shaw and William Butler Yeats, and a preface for Shaw's *Saint Joan* (Penguin).

The Legend of Buddy Bush We Got Served

Where do program ideas come from? How are concepts developed into saleable productions? Who do you talk to about getting a show produced? How do you schedule shows on the lineup? What do you do if a series is in trouble? The answers to these questions, and many more, can be found in this comprehensive, in-depth look at the roles and responsibilities of the electronic media programmer. Topics include: Network relationships with affiliates, the expanded market of syndication, sources of programming for stations and networks, research and its role in programming decisions, fundamental appeals to an audience and what qualities are tied to success, outside forces that influence programming, strategies for launching new programs or saving old ones. Includes real-life examples taken from the authors' experiences, and 250+ illustrations!
