**A Magazine Dedicated to Old-time Music** Oak Publications

The inspiration for the Play It Loud exhibition at the Metropolitan Museum of Art "Every guitar player will want to read this book twice. And even the casual music fan will find a thrilling narrative that weaves together cultural history, musical history, race, politics, business case studies, advertising, and technological discovery." —Daniel Levitin, Wall Street Journal For generations the electric guitar has been an international symbol of freedom, danger, rebellion, and hedonism. In *Play It Loud*, veteran music journalists Brad Tolinski and Alan di Perna bring the history of this iconic instrument to roaring life. It's a story of inventors and iconoclasts, of scam artists, prodigies, and mythologizers as varied and original as the instruments they spawned. *Play It Loud* uses twelve landmark guitars—each of them artistic milestones in their own right—to illustrate the conflict and passion the instruments have inspired. It introduces Leo Fender, a man who couldn't play a note but whose innovations helped transform the guitar into the explosive sound machine it is today. Some of the most significant social movements of the twentieth century are indebted to the guitar: It was an essential element in the fight for racial equality in the entertainment industry; a mirror to the rise of the teenager as social force; a linchpin of punk's sound and ethos. And today the guitar has come full circle, with contemporary titans such as Jack White of The White Stripes, Annie Clark (aka St. Vincent), and Dan Auerbach of The Black Keys bringing some of the earliest electric guitar forms back to the limelight. Featuring interviews with Les Paul, Keith Richards, Carlos Santana, Eddie Van Halen, Steve Vai, and dozens more players and creators, *Play It Loud* is the story of how a band of innovators transformed an idea into a revolution.

Named one of the world's great blues-rock guitarists by Rolling Stone, Mike Bloomfield (1943–1981) remains beloved by fans nearly forty years after his untimely death. Taking readers backstage, onstage, and into the recording studio with this legendary virtuoso, David Dann tells the riveting stories behind Bloomfield's work in the seminal Paul Butterfield Blues Band and the mesmerizing Electric Flag, as well as the Super Session album with Al Kooper and Stephen Stills, Bob Dylan's Highway 61 Revisited, and soundtrack work with Peter Fonda and Jack Nicholson. In vivid chapters drawn from meticulous research, including more than seventy interviews with the musician's friends, relatives, and band members, music historian David Dann brings to life Bloomfield's worlds, from his comfortable upbringing in a Jewish family on Chicago's North Shore to the gritty taverns and raucous nightclubs where this self-taught guitarist helped transform the sound of contemporary blues and rock music. With scenes that are as electrifying as Bloomfield's music, this is the story of a life lived at full volume.

Returning for its second year but reimagined in a new impulse format, with a new title, new cover, new mission, and new sensibility, here is *The Socialite Who Killed a Nazi with Her Bare Hands*, a pithier, quirkier collection of the 164 best page-turning obituaries from *The New York Times*. Written by top journalists, each story is a gem of a bio, a full life in miniature. There's the famous: Steve Jobs, including the story of how he was reunited with a sister he never knew, the novelist Mona Simpson. And the almost famous: Ruth Stone, a poet who worked in relative obscurity until she won the National Book Award at the age of 87. The behind-the-scenes, like Arch West, inventor of the Dorito, who pulled America's snacks out of the 1950s doldrums and created a \$5-billion-a-year product, and the out-there, like self-styled anarchist and maverick artist (and real estate mogul and museum director) Bob Cassilly, who died at the controls of his bulldozer while building Cementland in St. Louis. And because of the chronological organization of the book, the stories, one next to the other, make for an addictive-as-salted-peanuts book: Mark O. Hatfield, the celebrated antiwar Republican senator from Oregon, next to Nancy Wake of the title, the impoverished New Zealander who grew up to become a high-society hostess and heroine of the French Resistance, the socialite who did, indeed, kill a Nazi with her bare hands.

Expanded for the occasion of ZZ Top's 50th anniversary, Billy F Gibbons: *Rock + Roll Gearhead* throws wide Gibbons' garage and studio doors for an exclusive look at his exquisite collection of cars and guitars. Love cars, guitars, and ZZ Top? This visually stunning tour through this Grade-A Texas gearhead's weird, wild life, vintage and way-out custom guitars, and influential hot rods and custom cars is mandatory education. From the near-mythical '59 Les Paul sunburst known as "Pearly Gates" and the "Furry One" of MTV renown to cars like the Eliminator, CadZilla, and Kopperhed, they're all here—more than 60 guitars and 15 astounding vehicles, all expounded upon by BFG himself and shown in commissioned color and artistic black-and-white photography. Cars and guitars that have made their way to light since the book's first publication in 2005 are included: *Cars: Mexican Blackbird 1958 Thunderbird Quintana '50 Ford Custom El Camino Grocery-Getter custom Whiskey Runner '34 Ford Coupe '51 Willys Wagon Guitars: Party Peelers John Bolin Customs Neiman Marcus BFG SG Nacho Telecaster John Bolin "Think Buck" T-style Mexican Blackbird solidbody Mojo Maker Tone Bender Zemaitis custom Marconi Lab Guitar 1929 Dixie Ukelele 1939 Rickenbacker Frying Pan ...and more!* While BFG's cars 'n' guitars are the stuff of legend, no less intriguing are the tales behind his incredible music career. From teenage Houston garage rocker to the Rock and Roll Hall of Fame, the whole story is between these covers, told in the Good Reverend Willie G's own words and illustrated with photos and memorabilia from his personal archive. As with many rockers, Billy F Gibbons' jones for hot rods and customs is the stuff of legend. But beyond this bona fide bluesman's mastery of the six-string and unrepentant love for internal combustion is a noted collector whose own designs have manifested themselves in hundreds of mind-bending cars and guitars. This is the definitive and official record of that genius.
