No one lays open the heart and soul quite like New York Times bestselling author Mia Sheridan in this heart-wrenching love story about destiny, second chances, and the healing power of love set in the beautiful countryside in France. Named on of the "Best Romance Books of 2018" by BookBub! The moment she met Callen Hayes, eleven-year-old Jessica Creswell knew he was a broken prince. Her prince. They became each other's refuge, a safe and magical place far from their troubled lives. Until the day Callen kissed her -- Jessica's first real, dreamy kiss -- and then disappeared from her life without a word. Years later, everyone knows who Callen Hayes is. Famous composer. Infamous bad boy. What no one knows is that Callen's music is now locked deep inside, trapped behind his own inner demons. It's only when he withdraws to France to drink his way through the darkness that Callen stumbles into the one person who makes the music return. Jessica. His Jessie. And she still tastes of fresh, sweet innocence . .

. even as she sets his blood on fire. But they don't belong in each other's worlds anymore. There are too many mistakes. Too many secrets. Too many lies. All they have is that instinctive longing, that need-- and something that looks dangerously like love. Thirteen-year-old Christina lives on Burning Fog Isle, off the coast of Maine—a beautiful place with only three hundred year-round residents. This year, she'll have to leave the island's little white schoolhouse to start school on the mainland. But on the mainland, no one is quite the same as they were at home. Benji and Michael seem less friendly. Anya is acting so strangely it seems she's slowly losing her mind. And while Christina doesn't know what's going on, she can't shake the feeling that the Shevvingtons are somehow behind it. No one else sees their eerie behavior—not her teachers, not her parents, not even her fellow island kids—making Christina wonder if she's the one going crazy . . . Aos dezanove anos, o inglês Cromwell Dean é uma estrela em ascensão no mundo da música eletrônica. Mas quanto mais fama ganha, menos sente e menos quer sentir. Até que ela entra na sua vida. Bonnie Farraday não se deixa intimidar pela fachada atrás da qual ele se esconde. Consegue, até, ver bastante bem para

além dela... e o que vê é a escuridão vazia do seu interior. Quando Cromwell decide ir estudar música para os Estados Unidos, não imagina voltar a encontrá-la. E certamente não espera que ela fique na sua cabeça como uma música em modo de repetição. Bonnie vive para a música, e não suporta ver alguém tão especial como Cromwell desperdiçar o seu talento. Ele está a esconder-se do passado, e ela sabe disso. E por muito que se tente afastar, há sempre algo que a chama de volta. Ambos conhecem a dor e a tristeza. Ambos se escondem atrás das máscaras que criaram. Mas quando a mais negra das sombras cai sobre Bonnie, cabe a Cromwell ser a sua luz. Terá de a ajudar a encontrar a música perdida. Terá de a manter forte com uma sinfonia que só ele pode compor. Uma sinfonia de esperança. Uma sinfonia de amor. Uma sinfonia só deles.

Una sinfonia sulle note della speranza. Una sinfonia sulle note dell'amore. Una sinfonia sulle note di loro due. A soli diciannove anni Cromwell Dean è l'astro nascente della musica dance. I locali di tutto il mondo cercano di accaparrarselo per una

serata e per migliaia di fan lui è una sorta di divinità alla consolle. Ma la verità è che nessuno lo conosce veramente, nessuno vede tutti i colori che si nascondono nel suo cuore. Tranne una ragazza che, sotto il grigio cielo inglese, riconosce il prodigio della musica classica che Cromwell era stato e scorge le mura che lui ha eretto per difendersi dall'oscurità che lo inghiottisce. Quando Cromwell si trasferisce nella Carolina del Sud per studiare musica, non si aspetta certo di rivedere la ragazza con il vestito viola. Né tantomeno che lei s'insinui nella sua testa come una melodia che continua a ripetersi senza fine. Bonnie Farraday vive per la musica e permette a ogni nota di penetrare nel suo cuore e nella sua anima. Per lei è incomprensibile che qualcuno con un talento simile a quello di Cromwell non riesca a fare lo stesso. Così Bonnie cerca di tenersi lontana da lui, ma è inutile perché qualcosa in Cromwell la attrae, eppure è chiaro che lui scappa con tutte le sue forze dal suo misterioso passato. Quando un'ombra, però, si allunga sui colori di Bonnie, sarà Cromwell a dover diventare la sua luce. Dovrà aiutarla a ritrovare la melodia perduta del suo fragile

cuore. Dovrà far sì che lei sia forte, grazie a una sinfonia che solo lui può comporre.

As music educators continue to explore various ways of learning and teaching popular music, recognizing and understanding a blend of traditional and non-traditional pedagogies that engage teachers and learners in authentic practices is of vital importance. To meet this emerging need, Action-based Approaches in Popular Music Education delves into the practices and philosophies of 26 experienced music educators who understand both the how and the why of popular music education. This edited collection represents the variety, the diversity, and the multiplicity of ideas and approaches to the teaching and learning of popular music. It's these actionable approaches, practices, applications, lessons, and ideas that will enable music educators to understand how to better incorporate popular music into their teaching. This book is not an antidote to the lack of uniformity in popular music education - it is a celebration of it.

Stargazing Alfred Music

In 1995 two Swiss astronomers discovered a planet circling a star other than our Sun.

This changed our perception of the Universe forever, proving that Earth and the other celestial bodies in our Solar System are not alone in outer space. Now, after a decade of exploration, more than 860 planets have been discovered, many of which are completely unlike anything else we know. Some are blacker than coal; some are bathed in molten lava; others are perpetually scoured by hurricane-force winds; some have not one sun but two that rise in the morning, and others are perpetually drowned in global oceans. But as well as strange, inhabitable lands, there is familiarity too. Some of these alien worlds are strikingly similar to planets in our Solar System. Astronomers now know of planets just like Jupiter, Neptune, Mars and Mercury orbiting stars similar to our Sun, both nearby and deep into space. Authoritatively written and fully up to date on this fast-moving area of science, The Search for the Earth's Twin will take you on a journey through the cosmos via frozen wastelands, slow-moving globes and fiery volcanic bodies, to planets that can - and just might - sustain complex life. The prospect of discovering the Earth's twin is now tantalisingly close.

The Grace of Waiting Lago

In this sublime reminiscence of the pleasures of solitude, the wonders of the sea, and the odd courses life takes, Peter Hill writes, "In 1973 I worked as a lighthouse keeper on three islands off the

west coast of Scotland. Before taking the job I didn't really think through what a lighthouse keeper actually did. I was attracted by the romantic notion of sitting on a rock, writing haikus and dashing off the occasional watercolor. The light itself didn't seem important: it might have been some weird coastal decoration, like candles on a Christmas tree, intended to bring cheer to those living in the more remote parts of the country." Hill learned quickly, though, of the centuries-old mechanics of the lighthouse, of the life-and-death necessity of its luminescence to seafarers, and of the great and unlikely friendships formed out of routine. With his head filled with Hendrix, Kerouac, and the war in Vietnam, Hill shared cups of tea and close quarters with salty lighthouse keepers of an entirely different generation. The stories they told and idiosyncrasies they exhibited came to define a summer Hill has memorialized with great wit and a disarmingly affectionate style.
