The Muslim Brotherhood in the West remains a mysterious entity. In *The Closed Circle*, Lorenzo Vidino offers an unprecedented inside view into how one of the world's most influential Islamist groups operates. He marshals unique interviews with prominent former members and associates from Europe, the United Kingdom, and North America, shedding light on why and how people join and leave Western outfits of the Muslim Brotherhood. Drawing on these striking personal accounts, Vidino weaves together the experiences of individuals who participated in and later renounced Brotherhood groups. Their perspectives provide a wealth of new information about the Brotherhood's secretive inner workings and the networks that connecting the small yet highly organized cluster of Brotherhood-influenced groups. *The Closed Circle* examines the tactics the Brotherhood uses to recruit and retain participants as well as how and why individuals make the difficult decision to leave. Through the stories of diverse former members, Vidino paints a portrait of a highly structured, tight-knit movement. His unprecedented access and understanding of the group's activities and motivations has significant policy implications concerning Western Brotherhood organizations and also illuminates the underlying mechanisms found in a range of extremist groups.

"Go back to your country! You do not belong here in the United States because you're a terrorist!" Harsh statements like these have been echoed towards Julde (Jul-DAY), a former United States Army brat, but these statements transpired after Julde began wearing the hijab in 2014. Just like many other American families, Julde's family suffered the aftermaths of the 9/11 attack, especially because her dad joined a continual war for six-months out of every year. Many people do not view Muslims as equally threatened by the 9/11 attacks provided that the "War on Terror" is illustrated as a war against the entire Muslim faith; however, this is not true because during the late 1990s Julde joined other Muslim military families on base to pray, eat Iftar dinner, and attend Jumma services. The women in Julde's family openly wore their hijab, but, soon, they slowly detach from wearing their hijab,

to later become untraditional Muslim women. And it appeared at that moment, being Muslim at heart was good enough. Julde acquired some of her basic knowledge of Islam through military spouses who taught her to read in Arabic, explained various narratives of the Quran, and offered her valuable words of advice. Fitting in as a child was difficult being that Julde evidently did not celebrate Christmas, Kwanza, Easter, nor other prevalent holidays at school. After classmates questioned Julde's participation in holiday celebrations, they grasp an unexpected discovery that she is Muslim. This often led Julde to feel lonely as a U.S. Army Brat; as if Military brats do not have enough obstacles to face like continually changing their neighborhood, public schools and friends every few years. Now as an adult, Julde Ball wears her hijab to complete her Islamic faith and she undergoes a difference in how people treat her. Despite being cursed out, pushed, kicked, or ignored, Julde maintains wearing her hijab. The United States is Julde's country and as well as many other American Muslims who look like her. Julde wishes that her story can bring about future change for American Muslims.

"A welcome expansion of the fragile territory known as common ground." —The New York Times When Reza Aslan's bestseller *Zealot* came out in 2013, there was criticism that he hadn't addressed his Muslim faith while writing the origin story of Christianity. In fact, Ross Douthat of The New York Times wrote that "if Aslan had actually written in defense of the Islamic view of Jesus, that would have been something provocative and new." Mustafa Akyol's *The Islamic Jesus* is that book. The Islamic Jesus reveals startling new truths about Islam in the context of the first Muslims and the early origins of Christianity. Muslims and the first Christians—the Jewish followers of Jesus—saw Jesus as not divine but rather as a prophet and human Messiah and that salvation comes from faith and good works, not merely as faith, as Christians would later emphasize. What Akyol seeks to reveal are how these core beliefs of Jewish Christianity, which got lost in history as a heresy, emerged in a new religion born in 7th Arabia: Islam. Akyol exposes this extraordinary historical connection

between Judaism, Jewish Christianity and Islam—a major mystery unexplored by academia. From Jesus' Jewish followers to the Nazarenes and Ebionites to the Qu'ran's stories of Mary and Jesus, The Islamic Jesus will reveal links between religions that seem so contrary today. It will also call on Muslims to discover their own Jesus, at a time when they are troubled by their own Pharisees and Zealots.

Providing the most comprehensive and balanced coverage of the domestic, regional, and international politics of the Middle East, as well as detailed examinations of all of the countries in the region, this new edition of Ellen Lust's *The Middle East* has been fully revised to take into account the watershed events that have taken place since the 2011 "Arab Spring" uprisings. The new edition also adds coverage of religion, society, and politics in the region in a new chapter that examines the role of both Islam and Judaism, and every country profile chapter now also includes more explicit coverage of religion.

The true story of one man's journey to Islamic fundamentalism and back Raised in a devout but quiet Muslim community in London, at sixteen Ed Husain was presented with an intriguing political interpretation of Islam known as fundamentalism. Lured by these ideas, he committed his life to them. Five years later, he rejected extremism and tried to return to a normal life. But soon he realized that Islamic fundamentalists pose a threat that most people-Muslim and non-Muslim alike simply don't understand. Based on first-hand experiences and written with pervasive clarity, *The Islamist* delivers a rare inside glimpse of the devious methods used to recruit new members, and offers profound insight into the appeal fundamentalism has for young Muslims in the Western world.

This is the first book in the English language to deal with the spiritual significance of Islamic art including not only the plastic arts, but also literature and music. Rather than only dealing with the history of the various arts of Islam or their description, the author relates the form, content, symbolic language, meaning, and presence of these arts to the very sources of the Islamic revelation. Relying upon his extensive knowledge of the Islamic religion in both its exoteric and esoteric dimensions as well as the various Islamic sciences, the author relates Islamic art to the inner dimensions of the Islamic revelation and the spirituality which has issued from it. He brings out the spiritual significance of the Islamic arts ranging from architecture to music as seen, heard, and experienced by one living within the universe of the Islamic tradition. In this work the reader is made to understand the meaning of Islamic art for those living within the civilization which created it.

Following the terrorist attacks on London and Madrid, radical Islam is presumed to be an increasingly potent force in Europe. Yet beneath the media hysteria, very little is actually known about it. What radical movements are there? How do they operate? What is driving them? Who are their recruits? What is their relationship, if any, to Al Qaeda? Alison Pargeter has spent three years interviewing radical Islamists throughout Europe to find answers to these questions. She examines how radical ideology travels from East to West, and how the two contexts shape each other. She finds that contrary to what some analysts have

claimed, the European Muslim community has not become radicalised en masse. What has happened is that in a globalised world, Middle Eastern power struggles are now being played out in the mosques of Birmingham, Paris and Milan. This is a must-read book for anyone who wants to know the real story of the jihad which has apparently arrived in our back yard.

Throughout the Arab world, Islamist political movements are joining the electoral process. This change alarms some observers and excites other. In recent years, electoral opportunities have opened, and Islamist movements have seized them. But those opportunities, while real, have also been sharply circumscribed. Elections may be freer, but they are not fair. The opposition can run but it generally cannot win. Semiauthoritarian conditions prevail in much of the Arab world, even in the wake of the Arab Spring. How do Islamist movements change when they plunge into freer but unfair elections? How do their organizations (such as the Muslim Brotherhood) and structures evolve? What happens to their core ideological principles? And how might their increased involvement affect the political system? In *When Victory Is Not an Option*, Nathan J. Brown addresses these questions by focusing on Islamist movements in Egypt, Jordan, Kuwait, and Palestine. He shows that uncertain benefits lead to uncertain changes. Islamists do adapt their organizations and their ideologies do bend-some. But leaders almost always preserve a line of retreat in case the political opening fizzles or fails to deliver what they wish. The result is a cat-and-mouse game between dominant regimes and wily movements. There are possibilities for more significant changes, but to date they remain only possibilities.

Based on substantial fieldwork and thorough knowledge of written sources, Xavier Bougarel offers an innovative analysis of the post-Ottoman and post-Communist history of Bosnian Muslims. *Islam and Nationhood in Bosnia-Herzegovina* explores little-known aspects of the war in Bosnia and Herzegovina, unravels the paradoxes of Bosniak national identity, and retraces the transformations of Bosnian Islam from the end of the Ottoman period to today. It offers fresh perspectives on the wars and post-war periods of the Yugoslav space, the forming of national identities and the strength of imperial legacies in Eastern Europe, and Islam's presence in Europe. The question of how Islam is tied

to national identity still divides Bosnian Muslims. Islam and Nationhood in Bosnia-Herzegovina places the history of ties between Islam and politics in Bosnia and Herzegovina in the larger global context of Bosnian Muslims relations both with the umma (the global Muslim community) and Europe from the late 19th century to the present and is a vital contribution to research on Islam in the West.

Bernard Lewis's work has covered all periods, and most countries, of the Islamic Middle East. This festschrift, written by some of his numerous colleagues, friends, and former students, includes some of the most distinguished orientalist, historians, and social scientists of our time and is a fitting tribute to Professor Lewis's scholarship. The contributions range, geographically, from "On Chinese Rhubarb" to "The Jewish Courtier Class in Late Eighteenth-Century Morocco" and, topically, from "The Concept of Authority in Islamic Thought" to "A Forgotten Ottoman Romance" and "Safety in Numbers: Reflections on the Middle Eastern Balance of Power". Taken together, the fifty-two essays constitute a variegated collection of studies on a many-sided and important civilisation. The collections are assembled under three major headings: The Classical and Medieval Islamic World; Ottoman Studies and The Modern Middle East.

Sayyid Qutb is widely considered the guiding intellectual of radical Islam, with a direct line connecting him to Osama bin Laden. But Qutb has too often been treated maliciously or reductively-"the Philosopher of Islamic Terror," as Paul Berman famously put it in the New York Times Magazine. James Toth offers an even-handed account of Sayyid Qutb and shows him to be a much more complex figure than the many one-dimensional portraits would have us believe. Qutb first gained notice as a novelist, literary critic, and poet but then turned to religious and political criticism aimed at the Egyptian government and Muslims he deemed insufficiently pious. After a two-year sojourn in the U.S., he returned to Egypt even more radicalized and joined the Muslim Brotherhood, eventually taking charge of its propaganda operation. When Brotherhood members were accused of assassinating Egyptian President Gamal Abdel Nasser, the group

was outlawed and Qutb imprisoned. He was executed in 1966, becoming the first martyr to the Islamist cause. Using an analytical approach that investigates without passing judgment, Toth traces the life and thought of Qutb, giving attention not only to his well-known Signposts on the Road, but also to his less-studied works like Social Justice in Islam and his 30-volume Qur'anic commentary, In the Shade of the Qur'an. Toth's aim is to give Qutb's ideas a fair hearing, to measure their impact, and to treat him like other intellectuals who inspire revolutions, however unpopular they may be. In offering a more nuanced account of Qutb, one that moves beyond the cartoonish depictions of him as the evil genius lurking behind today's terrorists, Sayyid Qutb deepens our understanding of a central figure of radical Islam and, indeed, our understanding of radical Islam itself.

In this timely and important work, John Esposito and John Voll explore the development of contemporary Islamic movements and thought through the biographies of nine major activist intellectuals who represent a wide range of Muslim societies. Many Muslims have combined revivalist activism with intellectual efforts, but only a few have achieved significant international visibility and influence. By examining the lives and work of nine such internationally recognized figures, Esposito and Voll provide a new understanding of the intellectual foundations of contemporary Islamic awareness and politics. Included are profiles of: Ismail Ragi al-Faruqi (U.S./Palestine), Khurshid Ahmad (India/Pakistan), Maryam Jameelah (U.S./Pakistan), Hasan Hanafi (Sudan), Rashid Ghannoushi (Tunisia), Hasan al-Turabi (Sudan), Abdolkarim Soroush (Iran), Anwar Ibrahim (Malaysia), and Abdurrahman Wahid (Indonesia). These thinkers contributed to some of the most significant intellectual and activist developments in the Muslim world during the 1980s and 1990s--the period during which Islamic movements became a major force in Muslim societies and international affairs. They helped to organize and lead the movements of Islamic renewal and provided the conceptual foundations for the programs those movements advocate. Together, they represent a distinctive phase in the evolution of Islamic thinking: the ongoing effort to create an effective synthesis of modernity and Islamic tradition. Their work supplies the core of the Islamic resurgence of the 1990s and the foundation for what it can become in the

twenty-first century.

In April of 2002, a mosque in Cambridge, MA run by the Islamic Society of Boston (ISB) posted an appeal on its website: "Chechen refugee family needs temporary place to live until they complete their permanent refugee status in the US. Husband has good business knowledge, auto-mechanic experience and construction." Contrary to the Islamic Society of Boston's claims, taken entirely at face value by most media, that the Tsarnaev brothers only briefly and occasionally attended its Cambridge mosque over the year or so before they bombed the Boston Marathon, the Tsarnaevs were already involved with the ISB in April of 2002 - the month that they arrived in the United States. The family, which was not religious when it arrived in America, began regularly praying at the ISB mosque and turned increasingly fundamentalist. This fits an alarming pattern: Since 9/11, fourteen leaders and members of the ISB have either been imprisoned, killed by law enforcement, or declared fugitives for their involvement in Islamic terrorism. The stories of the Tsarnaev brothers have been told in countless places. The story of the mosque that they attended during their increasing radicalization - and the organization that runs it - has not been told in any meaningful way yet. Terror in the Cradle of Liberty documents the rise of Islamist networks within New England's historically-moderate and century-old Muslim community since the 1960s. It contains a detailed and personal account of the efforts by Massachusetts activists since 2002 to expose and counter the influence of Islamist networks in New England - even as Jewish, political, and law enforcement leaders in the Bay State have decided to embrace these networks as interfaith and community allies.

During the two World Wars that marked the 20th century, hundreds of thousands of non-European combatants fought in the ranks of various European armies. The majority of these soldiers were Muslims from North Africa, Sub-Saharan Africa, Central Asia, or the Indian Subcontinent. How are these combatants considered in existing historiography? Over the past few decades, research on war has experienced a wide-reaching renewal, with increased emphasis on the social and cultural dimensions of war, and a desire to reconstruct the experience and viewpoint of the

combatants themselves. This volume reintroduces the question of religious belonging and practice into the study of Muslim combatants in European armies in the 20th century, focusing on the combatants' viewpoint alongside that of the administrations and military hierarchy.
