Cuckoo In the Depths of  
the Woods - Beginner Tots

Piano Sheet Music The Carnival of the Animals THERE IS NO better way to introduce children to classical music than with Prokofiev's musical fairy tale of the little boy who, with the help of a bird, outsmarted the big, bad wolf. A new retelling by Janet Schulman follows the basic story, but with a kinder ending for both the big, bad wolf and the argumentative duck. Peter Malone's paintings have the luminous quality of old Russian masters.

Why did the Greeks of the archaic and early Classical period join in choruses that sang and danced on public and private occasions? This book

offers a wide-ranging exploration of representations of chorality in the poetry, art and material remains of early Greece in order to demonstrate the centrality of the activity in the social, religious and technological practices of individuals and communities. Moving from a consideration of choral archetypes, among them cauldrons, columns, Gorgons, ships and halcyons, the discussion then turns to an investigation of how participation in choral song and dance shaped communal experience and interacted with a variety of disparate spheres that include weaving, cataloguing, temple architecture and inscribing. The study ends with a treatment of the role of choral activity in generating epiphanies and allowing viewers and participants access to realms that typically lie beyond their perception.

Carnival of the animals

Simon & Schuster

Created by Khatia Esartia and Dr. Ray Wong, 'Fluffy and Tempo visit Carnegie Hall' is an art book for children. The book follows Fluffy and her sidekick Tempo in their musical adventures inside Carnegie Hall. This children's book accompanies the colorful and humorous musical suite of Camille Saint-Saëns' "Carnival of the Animals." The book includes one 'color me in' page for children to color while listening to the score (available on streaming services.)

There are 14 movements, each representing a different animal or animals playing classical instruments.

The "Wee Maestros Series" introduces musical classics to young audiences through vibrant pictures and whimsical verse. "Carnival of the Animals" was inspired by the French composer Camille Saint-Saëns' chamber piece, "Carnaval des animaux". Inside, readers will find all the characters heard in the music including the Royal

Lion, the Elephant, the Aquarium, the Aviary, the Swan and more. The book can be enjoyed on its own or in conjunction with Saint-Saëns' music for an even more imaginative experience.

Carnival of the Animals

Knopf Books for Young Readers

There are more than 6000 species belonging to twenty-seven orders in the Class Mammalia.

Comparative studies of this diverse and

magnificent array of

extant species provide valuable opportunities to

formulate and test hypotheses concerning

the evolution of

reproduction. This is the first book to explore, in

depth and breadth, the complex interrelationships

that exist between patterns of mating

behaviour and the

evolution of mammalian

reproductive anatomy and

physiology. It focuses upon the role that copulatory and post-copulatory sexual selection have played during the evolution of the monotremes, marsupials and placental mammals, and examines the effects of sperm competition and cryptic female choice upon coevolution of the genitalia in the two sexes. In addition, due weight is also given to discussions of the modes of life of mammals, and to the roles played by natural selection and phylogeny in determining their reproductive traits.

This dynamic and joyous exploration of difference helps young children learn to respond in a kind and equal way to everyone regardless of shape, size, age, physical and mental ability, gender, race, beliefs, language, culture, national identity, background, and so on. With topics ranging from clothes, hair, music and food to homes, festivals and families, there is plenty for children to talk about as they find out about diversity and see how differences relate to them.
