Lo/Fisher is praised for its readability and conversational writing style that helps students better understand difficult concepts in Accounting. Lo/Fisher presents the how and why of reporting accounting information from within an easily-understood theoretical framework.

Lo/Fisher has a clean layout that engages the reader with a clear writing style using plain English. This text is built on the current International Financial Reporting Standards (IFRS) and incorporates Accounting Standards for Private Enterprise (ASPE) where appropriate. Our philosophy is that when students understand the current standards, they will be able to analyze and interpret changes in the future. Intermediate Accounting by Donald Kieso, Jerry Weygandt, and Terry Warfield has always been, and continues to be, the gold standard. Through significant updates, the 18th Edition presents a refreshed, accessible, and modern approach with new perspectives that help connect students to the what, the why, and the how of accounting information. In the intermediate accounting course, it can be difficult for students to understand the technical details and retain and recall core course topics. To move beyond basic understanding, students work through new integrated practice right at the point of learning and high-quality assessment at varying levels, helping them to learn concepts more efficiently and create connections between topics and real-world application. Throughout the course, students also work through various hands-on activities including Critical Thinking Cases, Excel Templates, and Analytics in Action problems, all within the chapter context. These applications help students develop an accounting decision-making

mindset and improve the professional judgement and communication skills needed to be successful in the profession. With Intermediate Accounting, 18th Edition, you will be able to spark efficient and effective learning, help create the bridge to student success, and inspire and prepare students to be the accounting professionals of tomorrow.

Are you looking for an engaging, decision-focused approach to financial reporting that encourages students to develop their interpretative skills? Building on the success of the first edition, this textbook takes a 'how, why, what' approach to financial accounting, interwoven in each chapter. From chapter one, students understand how financial information is prepared and presented, why it is prepared and presented in this way, and what the resulting financial information means for users. Designed for students taking a step beyond their introductory financial accounting training, the textbook equips them with all the key tools they will require when they enter professional practice. Reflective of the latest International Financial Reporting Standards (IFRS) and International Accounting Standards (IAS), this textbook delivers concise, clear explanations of all the key issues in accounting standards that students need to know. Content maps to professional accounting body syllabi, making this the perfect choice for accounting courses which offer exemptions. Chapters are rich with 3 types of examples to enhance understanding: - Illustrative examples of real-world situations; - Worked examples demonstrating the calculation of figures required for financial statements; - Extracts from company annual reports demonstrate how the theory relates to financial reporting in practice. More engaging, more balanced, and more applied than other offerings, this is exactly the textbook your financial reporting students need! An extensive Online Resource Centre accompanies the textbook and includes: For students: DT Solutions to all the end-of-chapter questions in the book including walkthroughs of solutions to key questions; DT Additional graded questions including professional body questions; DT Additional interpretative case studies based on real-life companies; DT A guided

tour through a company report DT Specific study skills tips for accounting students For lecturers: DT Customisable PowerPoint slides DT Solutions to all the additional online questions DT Outline solutions to the interpretative case studies DT Group discussion questions

With a distinctly Canadian agenda, Beechy/Conrod/Farrell/McLeod-Dick Intermediate Accounting, Volumes 1&2, develops both the technical skills and the professional judgement needed for students to succeed in this course. Highly regarded by instructors across Canada for its wealth and variety of cases, the new 7th Edition now includes a greater range and abundance of end-of-chapter technical exercises and assignments designed to build students confidence, provide

opportunity to practice accounting concepts, and complement the cases. *Managerial Accounting (16th Edition)* South-Western Pub

This textbook, originally by D. Annand and H. Dauderis, was intended for a first course in introductory financial accounting. It focuses on core introductory financial accounting topics that match prerequisite requirements for students advancing to Intermediate Financial Accounting. A corporate approach is utilized versus beginning with a sole proprietorship emphasis and then converting to a corporate approach; this consistency throughout the book reduces confusion for the introductory student. This most recent revision by D. Marchand converted the text from IFRS to reflect the Generally Accepted Accounting Principles of the United States (U.S. GAAP).
