Medical Semiology Guide of the Renal System World Scientific

Medical Semiology of the Digestive System, Part II provides a comprehensive understanding of medical semiology in the digestive system. Highly illustrated with many original images from the author's daily medical practice, the book highlights all signs of diseases and important semiological maneuvers in the field. Each chapter incorporates a specific questionnaire with important questions that should be asked to patients in different situations to obtain valuable information that helps identify rare and unusual diseases. This unique feature of the book aims to facilitate the learning process among medical students, while also acting as a quick reference guide for clinicians in practice. Contains comprehensive coverage of medical semiology for proper patient diagnosis Presents original, real-world clinical cases that are gleaned from 15 years of the author's medical practice Includes visual and diagnostic aides in the form of original images that present rare, special situation and difficult to find diseases
Proceedings of the 3rd Annual International Conference on Material, Machines and Methods for Sustainable Development (MMMS2022) Springer Nature

This is an open access book. Education is an effort to educate people, through education the quality of human life becomes better, and it is captured

and realized by all Muhammadiyah universities in Indonesia, especially from the Faculty of Teacher Training and Education Science. The problem that occurs is the need for a lot of innovation related to the implementation of learning in the classroom so that the learning process becomes more enjoyable. Thus, students will be more eager to learn and their academic achievement will be better, which of course has implications for the quality of education which is also better. Therefore, the Association of Muhammadiyah Higher Education Teaching Institutions (ALPTK-PTM) in collaboration with Universitas Muhammadiyah Sorong (UNAMIN) dan Universitas Pendidikan Muhammadiyah Sorong (UNIMUDA) as the local committee initiated the holding of The 7th Progressive and Fun Education International Conference (The 7th Profunedu) which was held on 8-9 September 2022. The conference invited eight invited speakers from international speakers and Indonesian speakers. In addition, the conference was also attended by 115 participants and presenters with 107 papers listed. The 7th Profunedu this time collaborated with the Atlantis Press in the paper publication process. From 107 papers listed, 30 papers were selected to be published by Atlantis Press as publishing partners in this conference.
[International Conference on Gender Research](#) Faculty of Mathematics and Natural Sciences Universitas Pattimura Ambon
 This book contains the proceedings of the First International Conference on Humanities, Education, Language and Culture (ICHELAC 2021). Where held on 30th - 31st July 2021 in Ruteng, Flores, Indonesia. This conference was organized by Faculty of Teacher Training and Educational Sciences of the Universitas Katolik Indonesia Santu Paulus Ruteng. The papers in this conference were collected in a proceedings book entitled: Proceedings of the First International Conference on Humanities, Education, Language and Culture (ICHELAC 2021). The presentation of such a multi-discipline

conference provides a lot of exciting insights and new understanding on recent issues in terms of Humanities, Education, Language, and Culture. Referring to the argument, this conference would serve as a valuable reference for future relevant research activities. The committee acknowledges that the successful of this conference are closely intertwined by the contributions from various stakeholders. As being such, we would like to express our heartfelt appreciation to the keynote speakers, invited speakers, paper presenters, and participants for their enthusiastic support in joining the First International Conference on Humanities, Education, Language, and Culture. We are convinced that the contents of the study from various papers are not only encouraged productive discussion among presenters and participants but also motivate further research in the relevant subject. We appreciate for your enthusiasm to attend our conference and share your knowledge and experience. Your input was important in ensuring the success of our conference. Finally, we hope that this conference serves as a forum for learning in building togetherness and academic networks. Therefore, we expect to see you all at the next ICHELAC.

National Institutes of Health Annual Report of International Activities European Alliance for Innovation

This is an open access book. The global economy is by definition the movement of resources (goods, services and capital) across national borders. The more open relations between countries will affect changes in the regional and global regions, this condition is characterized by the level of domestic economic resilience. Currently, technology with its dynamics requires every country to move to follow, citing at the G20 the role of multilateral trading system to strengthen the achievement SDGs, digital trade sustainable, global value chains (GVCs) and sustainable and inclusive industrialization via industry 4.0. Based on the statement above, it shows that modernization and sustainable 4.0 equivalent industrialization are the demands of multi-sectors including the agricultural sector. For Indonesia, agriculture plays a strategic role in the national economy, with the challenges of sustainable agriculture, the role of agriculture is shown in addition to being a provider of food, industrial raw materials, feed and bioenergy, a source of labor absorption, a source of state foreign exchange as well as environmental preservation with an environmentally friendly farming program approach. Sustainable agriculture practices are ideal, but the dimensions of the scope of sustainable agriculture interests and the substance of their meaning are definitely different. Through the international agricultural seminar or The 3rd International Conference Agriculture (ICA) with the theme Modernization And Industrialization To Support Sustainable Agriculture Facing Global Economy which will be held on September 21, 2022 is one of the efforts in equalizing understanding and collecting sustainable farming innovations that are in line with the sustainable development goals and have become the country's commitment in order to implement the Sustainable Development Goals (SDGs) in the face of the global economy.

Proceedings of International Conference on Smart Computing and Cyber Security Academic Press

Welcome Message from the Chairman of ICBS 2018 On behalf of the organizing committee, it is a great pleasure to welcome all the participants and keynote speakers to the 4th International Conference Basic Science (ICBS) 2018 at the Pattimura University Ambon, Indonesia with theme "The Development of Science and Technology in Improving Natural and Cultural Resources". This theme aims to discuss the role of science and technology in increasing the use of natural resources and cultural development in the Maluku islands. This international forum also provides a platform where national and international academia or researchers, policy makers, and other stakeholders to translate technology, exchange ideas, and help stimulate multidisciplinary international collaborations in a convergent-manner for shaping a worldwide sustainable development. It is worth noting that, the 4th ICBS event genuinely highlights the important of convergence of basic science research to address world's sustainability challenges. The conference was attended by invited speakers from Hochschule Nordhausen University Germany; Kumamoto University, Japan; Indonesian Parrot Project; Institut Teknologi Sepuluh Nopember, Indonesia. There are 250 participants, with poster participants 19 articles, oral presentations 51 articles and 185 non-presenter participants. This proceedings only contain 15 articles because the others has been selected to publish in international journal. We would like to acknowledge the terrific support of proceedings editorial team and reviewers in managing this proceedings book. We also would like to thank all participants who present their academic works in the 4th ICBS 2018, and especially to our distinguished invited speakers for their collaboration and contribution for the success of the 4th ICBS 2018. Sincerely, Diana Julaidy Patty, S.Si., M.Sc Chairman of the committee Welcome Message from the Dean of the Faculty of Mathematics and Natural Sciences Assalamu'alaikum Warahmatullahi Wabarakatuh. Salam Sejahtera bagi kita semua. Om Swastiastu. Namu Buddhaya. On behalf of the Dean of Faculty of Mathematics and Natural Sciences, Universitas Pattimura, I would like to extend my warmest welcome to all delegates from all over the world. Welcome to Ambon-the city of music -in Indonesia. Ambon, surrounds by a hundred islands has many tourist destinations, highlands, mountains, and some natural beaches. We are very pleased to welcome you in the proceedings book of the 4th International Conference Basic Sciences 2018. This proceedings is one of the continuations for the conference. Based on these papers, hopefully, more collaborations can be initiated or should be followed up between us. I would like to express my gratitude to all of the participants, keynote and invited speakers as well. Many thanks go to the reviewers and the editorial team for their big effort in supporting this book. My appreciation to the steering and organizing committees for realizing this book. Thank you Wassalamu 'alaikum wr wb. Prof. Dr. Pieter Kakisina, S.Pd., M.Si Dean Faculty of Mathematics and Natural Sciences

Proceedings of the Sixth International Conference on Difference Equations Augsburg, Germany 2001 #N/A

This volume contains the papers presented at the title conference. Speakers from 13 different countries were represented at the meeting. A broad range of topics in theoretical and applied wave propagation is covered.

Proceedings of the 3rd International Conference on Agriculture (ICA 2022) John Wiley & Sons

These proceedings represent the work of contributors to the 17th International Conference on Intellectual Capital, Knowledge Management & Organisational Learning (ICICKM 2020), hosted by ACI and the University of Toronto, Canada on 15-16 October 2020. The Conference Chairs are Dr. Anthony Wensley, from the University of Toronto and Dr. Max Evans, from McGill University. The Programme Chair is Dr. Ilja Frissen from McGill University.

Object-Oriented Information Systems World Scientific

This Proceedings presents the short papers, posters and abstracts of full papers accepted to the 3rd International Conference on Decision Support System Technology, ICDSST 2017, held in Namur, Belgium, during May 29th to 31st, 2017. This event had a main theme Data, Information and

Knowledge Visualisation in Decision Making. This event is organized by the Euro Working Group on Decision Support Systems (EWG-DSS) in collaboration with the University of Namur Belgium, the EFFaTA Research Team of the University of Namur and the Université libre de Bruxelles, Belgium.

The Proceedings of the International Conference on Electrical Systems & Automation Springer

The proceedings of the 4th International Conference on Frontiers in Intelligent Computing: Theory and Applications 2015 (FICTA 2015) serves as the knowledge centre not only for scientists and researchers in the field of intelligent computing but also for students of post-graduate level in various engineering disciplines. The book covers a comprehensive overview of the theory, methods, applications and tools of Intelligent Computing. Researchers are now working in interdisciplinary areas and the proceedings of FICTA 2015 plays a major role to accumulate those significant works in one arena. The chapters included in the proceedings inculcates both theoretical as well as practical aspects of different areas like Nature Inspired Algorithms, Fuzzy Systems, Data Mining, Signal Processing, Image processing, Text Processing, Wireless Sensor Networks, Network Security and Cellular Automata.

Nominations of Herbert Holmes Tate, Jr., and E. Gail de Planque Springer Nature

In the last forty years, nonlinear analysis has been broadly and rapidly developed. Lectures presented in the International Conference on Variational Methods at the Chern Institute of Mathematics in Tianjin of May 2009 reflect this development from different angles. This volume contains articles based on lectures in the following areas of nonlinear analysis: critical point theory, Hamiltonian dynamics, partial differential equations and systems, KAM theory, bifurcation theory, symplectic geometry, geometrical analysis, and celestial mechanics. Combinations of topological, analytical (especially variational), geometrical, and algebraic methods in these researches play important roles. In this proceedings, introductory materials on new theories and surveys on traditional topics are also given. Further perspectives and open problems on hopeful research topics in related areas are described and proposed. Researchers, graduate and postgraduate students from a wide range of areas in mathematics and physics will find contents in this proceedings are helpful. Contents: On 2-Tori Having a Pole (V Bangert) Turing Patterns and Standing Waves in Fitzhugh-Nagumo Type Systems (C-N Chen & S-Y Kung) Remarks on Mean Value Properties (Y Y Li & L Nguyen) Brake Orbits in Bounded Convex Symmetric Domains (C Liu & D Zhang) Recent Progress on Closed Geodesics in Some Compact Simply Connected Manifolds (Y Long) Topological Bifurcation Theory: Old and New (J Mawhin) Exponential Growth Rate of Paths and Its Connection with Dynamics (Z Xia & P Zhang) Rabinowitz's Theorems Revisited (W Zou) and other papers Readership: Graduates student and young scholars interested in variational methods. Keywords: Variational Methods; Periodical Solutions; Homoclinics and Heteroclinics of Hamiltonian Systems; Closed Geodesic Flows; Critical Point Theory; Harmonic Maps

24th International Conference on the Physics of Semiconductors Springer Nature

The 16th ICSMGE responds to the needs of the engineering and construction community, promoting dialog and exchange between academia and practice in various aspects of soil mechanics and geotechnical engineering. This is reflected in the central theme of the conference 'Geotechnology in Harmony with the Global Environment'. The proceedings of the conference are of great interest for geo-engineers and researchers in soil mechanics and geotechnical engineering. Volume 1 contains 5 plenary session lectures, the Terzaghi Oration, Heritage Lecture, and 3 papers presented in the major project session. Volumes 2, 3, and 4 contain papers with the following topics: Soil mechanics in general; Infrastructure and mobility; Environmental issues of geotechnical engineering; Enhancing natural disaster reduction systems; Professional practice and education. Volume 5 contains the report of practitioner/academic forum, 20 general reports, a summary of the sessions and workshops held during the conference.

Proceedings of Second International Conference on Intelligent System Birkhäuser

PRICM-8 features the most prominent and largest-scale interactions in advanced materials and processing in the Pacific Rim region. The conference is unique in its intrinsic nature and architecture which crosses many traditional discipline and cultural boundaries. This is a comprehensive collection of papers from the 15 symposia presented at this event.

International Conference on Martensitic Transformations (ICOMAT) 2008 Springer Nature

Medical Semiology Guide of the Digestive System provides a comprehensive understanding of medical semiology in the digestive system. Highly illustrated with many original images from the author's daily medical practice, the book highlights all signs of diseases and important semiological maneuvers in the field. Each chapter incorporates a specific questionnaire with important questions that should be asked to patients in different situations to obtain valuable information that helps identify rare and unusual diseases. This unique feature of the book aims to facilitate the learning process among medical students, while also acting as a quick reference guide for clinicians in practice. Contains comprehensive coverage of medical semiology for proper patient diagnosis Presents original, real-world clinical cases that are gleaned from 15 years of the author's medical practice Contains visual and diagnostic aides in the form of original images that present rare, special situation and difficult to find diseases

The ultimate interactive public speaking guide from tech speakers Poornima Vijayashanker and Karen Catlin that prepares and encourages techies to discover their expertise, confidently share it, and successfully level up in their careers. Techies around the world can now jump start and grow their speaking careers with the book, Present! A Techie's Guide to Public Speaking, written by tech leaders, Poornima Vijayashanker and Karen Catlin. The book serves as a resource for technology professionals who want or need to develop the skills to communicate their expertise effectively, whether in a meeting at work or delivering an engaging talk at a conference. Poornima, who is the founder of Femgineer and the founding engineer of Mint.com, collaborated with former Adobe vice president and founder of Karen Catlin Consulting, Karen Catlin, to compile and share their lessons, tips, and techniques learned from their own experiences as professional tech speakers. "Karen and I wanted to write this book so that our fellow techies would have a comprehensive resource to help them with their own public speaking endeavors. So many folks in the tech industry have amazing ideas and experience, but they often feel stuck on how to present them effectively. Also, our hope is that more women will be inspired by our stories and encouraged to get out there and share their own valuable expertise through public speaking in order to boost representation of women tech speakers," Poornima said. Present! covers public speaking from A to Z. Through stories, examples, and interactive exercises, Poornima and Karen dive into topics including, overcoming stage fright, exploring personal speaking style, creating the right talk for the right audience, polishing presence and

delivery, and nailing any type of talk, whether it's a lightning or long-form talk or being part of a panel. Karen said, "Even though Poornima and I are professional speakers, we felt it was important to share our own feelings of nerves and uncertainty, and bumps we've had along the way - and sometimes continue to experience. It was important for us to communicate that no one is perfect and it really is okay when talks don't always go according to plan. Our hope is that by being open, we'll be able to give others the confidence and the techniques to handle situations when they arise, deliver an amazing presentation, and most importantly, have FUN!"

Proceedings of the 8th Pacific Rim International Conference on Advanced Materials and Processing (PRICM-8) World Scientific

The proceedings of this important conference consist of plenary and invited papers published in hard copy and CD-ROM versions. The contributed oral and poster presentations are included in the CD-ROM version only.

Computational Physics: Proceedings Of The Cp90 International Conference Academic Press

The book provides a comprehensive overview of the authors' works which include significant discoveries and pioneering contributions on Materials Process Engineering, Materials Physics and Chemistry, Emerging Areas of Materials Science, and so on. AMSE2016 is an influential international conference for its strong organization team, dependable reputation and a wide range of sponsors from all over the world. Contents: Nano Science and Technology Advances in Polymer Science and Technology Material Based Engineering Design and Control Material Characterization Materials Modeling and Simulation Materials Engineering and Performance Materials Science and Engineering Readership: Scientists from materials process engineering,

material physics and chemistry.

Medical Semiology of the Digestive System Part II Createspace Independent Publishing Platform

The conference on Object Oriented Information Systems (OOIS) is now an established international conference where innovative ideas, research, applications, and experiences in the design, development, and use of object oriented information systems, from both the academic and industrial environments, are represented. The ninth OOIS conference was held at the University of Geneva, September 2-5, 2003. The main theme was the Evolution of Object Oriented Information Systems. The papers presented ideas and issues related to the evolution, adaptability, restructuring, and flexibility of OOIS. In the context of the conference, two workshops and four tutorials were organized providing a discussion forum for new ideas and including in depth presentations on important "hot" subjects. The three invited speakers of the ninth OOIS conference provided an alternative view on OOIS and their evolution. Prof. John Mylopoulos (University of Toronto and VLDB president) gave the opening presentation entitled "Agent Oriented IS Development", Dr. Richard Soley (OMG President and CEO) gave the closing presentation entitled "Model Driven Architecture: The Evolution of Object-Oriented Systems?" and Prof. Lina Al-Jadir (American University of Beirut) gave the theme presentation entitled "Once Upon a Time a DTD Evolved into Another DTD...".

Wolf Prize in Agriculture European Alliance for Innovation

This book presents high-quality research papers presented at the Second International Conference on Smart Computing and Cyber Security: Strategic Foresight, Security Challenges and Innovation (SMARTCYBER 2021) held during June 16-17, 2021, in the Department of Smart Computing, Kyungdong University, Global Campus, South Korea. The book includes selected works from academics and industrial experts in the field of computer science, information technology, and electronics and telecommunication. The content addresses challenges of cyber security.

Publications Combined - Over 100 Studies In Nanotechnology With Medical, Military And Industrial Applications 2008-2017 Springer

The invited talks include applications from the fields of solid state physics, plasma physics, hydrodynamics, high-energy physics, thermodynamics, atomic and molecular physics, chemistry, statistical physics, earth sciences, neural networks, meteorology, astrophysics, and presentations on cellular automata and quantum Monte Carlo methods. The emphasis is on methods of software development and engineering, graphic tools, and storage of physical data.
