Addresses the areas highlighted as poor in the Chief Examiner's feedback of candidate performance Assists students in decoding questions found in the City and Guilds 2394 and 2395 exams Uses realistic exam questions as examples and rather than simply providing the answers, explains how the student should go about answering a question of that type. Full coverage of technical terms is included, as is the structure of exam questions and their interpretation. By running through examples of real exam questions in a step-by-step fashion, this book explains how to decode the questions and examine the answer choices in order to get to the correct answers. This book is ideal for all electricians, regardless of their experience, who need a testing qualification in order to take the next step in their career.

Urbanization will become one of the defining trends of Asia's transformation in the coming decades. Investments in urban areas have a strong potential to contribute to inclusive growth, reduce urban poverty, and strengthen social resilience. The Guidance Note on Poverty and Social Dimensions in Urban Projects aims to assist Asian Development Bank (ADB) staff, including practitioners and specialists working on their behalf, to effectively address the poverty and social dimensions of ADB's urban operations. It provides practical guidance in strengthening the link between urban investments and poverty reduction by making better use of poverty and social analysis as a resource for successful projects. The guide complements the Handbook on Poverty and Social Analysis (2012) which provides general guidance on incorporating poverty and social dimensions in ADB operations.

"This note provides general guidance on the use of the Precautionary and Liquidity Line (PLL). After an overview of the instrument, explaining its specific nature, the operational issues are grouped into five areas: • an outline of the process and specific steps that need to be followed if a member expresses interest in an arrangement; • guidance on access, phasing, and purchases; • guidance on determining qualification of a member and appropriate ex-post conditionality; and • a guide to the semi-annual review process. The note is an aid to the implementation of the policy and its underlying principles. If there is any instance in which a provision of the guidance note or its implementation conflicts with Board policy, Board policy prevails. It will be revised as needed, for example following relevant policy reviews."
