In 1998, a book was

published that was

surprisingly ahead of

its times. It was called

India 2020 and

proposed that India

could soon be one of

the top five economies

of the world. The

nation had set off a

series of nuclear tests

and was facing

worldwide sanctions. A

new government had

taken charge, and the

economy was facing a

tough time. It was not

the best of times to

predict that India had it

in her to get on the

fast track to

development. The

vision presented in the

book would go on to

inspire, directly or

indirectly, many

sectors of the economy

to work for and achieve

high growth. The book

has since sold

hundreds of thousands

of copies. In A

Manifesto for Change,

its author A.P.J. Abdul

Kalam, writing with co-

author V. Ponraj, offers

a sequel. As focused

then as now on his

dream of a developed

India by 2020, the

eleventh President of

India examines what

we need to get right to

accomplish that essential goal: harnessing the stupendous energy of our youth to contribute to growth, a united Parliament that makes full use of its time for constructive debate and rises above petty party politics to achieve the larger national vision, and a plan of action that looks at development from the grassroots to giant strides in infrastructure and bridging the urban-rural disparity. It is time to leave behind the politics of antagonism and disruption behind, he suggests. As reward: a developed India as befits this beautiful land.

The world fell in love with Rachel Khoo through her cookbook and television show *The Little Paris Kitchen*, and immediately began to covet her Parisian lifestyle, fashion sense, and delicious recipes. In *My Little French Kitchen*, Rachel leaves Paris and travels to the mountains, villages, and shores of France, sampling regional specialties and translating them into more than 100 recipes. With more than 100 photographs, as well as dozens of Rachel's own hand-drawn illustrations, this is the perfect gift for young

foodies and Francophiles as well as fans of The Little Paris Kitchen hungry for more fresh takes on French classics.

A Psalm of Life

Chronicle Books
Who were the Harappans? How are they related to present-day Indians? Was there never an "Aryan Invasion"? The Sarasvati Civilization: A New Paradigm in Ancient Indian History brings together evidence from satellite imagery, geology, hydrodynamics, archaeology, epigraphy, textual hermeneutics, and DNA research to place together ancient Indian history in the light of new discoveries and facts which were simply not available to colonial historians of the 19th century and

have been overlooked thereafter. At the heart of the ancient Indian Civilization was the mighty Sarasvati river which was in full flow 5000-6000 years ago. 60-80 % of the so-called Indus Valley Civilisation sites which have been discovered are not on the banks of the Indus but on the course of the Sarasvati. The drying-out of the river is the most significant factor in the history and migrations of the ancient Indians. With new evidence, the time has come for a significant paradigm shift in Indology. This book breaks new ground to lay the foundation for an authentic Indian history.

A Survival Guide for the Ghetto, Part 1

HarperCollins

Is it really possible to invent a machine that does the job of a writer? What is it about the landlady's house that makes it so hard for her guests to leave? Does Sir Basil Turton value most his wife or one of his priceless sculptures? These compelling tales are a perfect introduction to the adult writing of a storytelling genius.

On Rishad Saam

Mehta's journeys — and as a travel writer and all-round road-trip junkie, he's been on many — there's a particular thing he noticed. There's not a highway, road or dirt track in India where you can't find a cup of

chai whenever you want it. And with those cuppas come encounters and incidents that make travelling in India a fascinating adventure. In this riveting book, which includes stories of honey- and saffron-infused tea shared with a shepherd in Kashmir, and a strong brew that revives the author after almost getting lynched by an irate mob in Kerala, Rishad takes you across the length and breadth of India, from Manali to Munnar, from the Rann of Kutch to Khajuraho, with a wonderful combination of wit, sensitivity and insight.

Jack Semple and E.D. Applewhite are back, in this middle-grade sequel to Stephanie S. Tolan's Newbery Honor Book *Surviving the Applewhites*. Teenager E.D., the not so artistic, not at all eccentric member of the unconventional Applewhite clan, can't believe the plan her father has hatched to save the family from financial disaster. He's decided to transform their rural North Carolina farm into a summer camp for

creative children. Soon the farm is packed with temperamental artists, out-of-control campers, and an even more out-of-control goat. It's all a little too much for structure-loving E.D., even before threatening notes begin appearing in the family mailbox. Together with Jake Semple--the boy who survived his first year in the Applewhites' home school—she's determined to save the camp and the family from disaster. Like Carl Hiassan's *Chomp*, *Applewhites at Wit's End* combines outrageous humor and the frustrations and joys of being part of a family.

Sartha Random House
This schoolroom drama that inspired the classic Sydney Poitier film is “a microcosm of

the racial issues . . . A dramatic picture of discrimination” (Kirkus Reviews). With opportunities for black men limited in post-World War II London, Rick Braithwaite, a former Royal Air Force pilot and Cambridge-educated engineer, accepts a teaching position that puts him in charge of a class of angry, unmotivated, bigoted white teenagers whom the system has mostly abandoned. When his efforts to reach these troubled students are met with threats, suspicion, and derision, Braithwaite takes a radical new approach. He will treat his students as people poised to enter the adult world. He will teach them to respect themselves and to call

him “Sir.” He will open up vistas before them that they never knew existed. And over the course of a remarkable year, he will touch the lives of his students in extraordinary ways, even as they in turn, unexpectedly and profoundly, touch his. Based on actual events in the author’s life, *To Sir, With Love* is a powerfully moving story that celebrates courage, commitment, and vision, and is the inspiration for the classic film starring Sidney Poitier.

A Drama in Three Acts
Jugari Cross

Likened to a 48 Laws of Power for young Black men, this book presents Black biographies, history, and current events in a language that the Hip-Hop generation will understand and relate to. Each story or essay is framed within the context of a life lesson, each one being of vital importance to the survival, redemption, and ultimate success of

our dying Black generation. Both the positive and negative sides of the Black experience are explored in detail, from the lives of infamous drug dealers and pimps to the exploits of Black revolutionaries and activists. In addition, several *How To* sections outline simple strategies for self-development. Packed with useful information, from the best way to handle confrontations with police, to the continuing relevance of the 1919 race riots, this book has been compared to an urban *Encyclopedia Africana*. Others have called it a *Blueprint for Black Power* for a generation struggling with materialism and short attention spans. This book is guaranteed to

change the world by changing the way millions of people think and live. In *How to Hustle and Win*, author Supreme Understanding tells, in often graphic detail, stories like that of the infamous Philadelphia Black Mafia, Harlem's heroin kingpin Frank Lucas, and former gang leader Stanley "Tookie" Williams. In between and throughout these tales, he weaves life lessons and guidance, turning sordid stories of crime and urban despair into an educational experience. Whereas Robert Greene's bestselling *48 Laws of Power* used iconic figures from classical history to illustrate the guidelines for personal success, *How to Hustle and Win* is filled with the exploits of rappers,

gangsters, radicals, and revolutionaries. This is a new kind of Black history book, and its intent is the motivation and achievement of a new kind of reader. Although today's literary market has seen an influx of self-help books attending to a variety of issues, few books have attempted to address the concerns of young Black men, struggling to find direction. It is this group that author Supreme Understanding names as one of most troubled demographics in American society today. On the book's website, the author comments: "Unfortunately, few authors actively target this audience, and those who do are either not speaking

their language, or not interested in pushing for change. This is why *How to Hustle and Win* was written. This book will change the minds of millions of young men of color, and by doing this, it will ultimately change the world." Revolutionary aspirations aside, *How to Hustle and Win's* groundbreaking concept results in a truly appealing work. Its essays are delivered in short bursts, none of them over four pages long, making it ideal for struggling readers and those with shorter attention spans. At the same time, the book is filled with a wealth of information that would enlighten educated readers equally. In fact, the author juxtaposes his own personal tales of early delinquency and

misdirection with his later years of professional success, including obtaining a doctorate in education at the age of 26.

Across the Winding River Galahad Books Jugari Cross is a suspense thriller woven around the everyday incidents that occur with an ordinary farming couple's life. The story set within 24 hours is not just a typical suspense thriller with a trace of history and a literary quest, but enormously stimulates the reader to analyze the broader spectrum of philosophy, literature, and the principles of global economies established around us. I hope the reader community will appreciate how this suspense thriller gives the glimpses of nature,

ecology, social reforms, literature, global/local economies, and many more social dimensions.
