A half century ago gay men and lesbians were all but invisible in the media and, in turn, popular culture. With the lesbian and gay liberation movement came a profoundly new sense of homosexual community and empowerment and the emergence of gay people onto the media's stage. And yet even as the mass media have been shifting the terms of our public conversation toward a greater acknowledgment of diversity, does the emerging "visibility" of gay men and women do justice to the complexity and variety of their experience? Or is gay identity manipulated and contrived by media that are unwilling—and perhaps unable—to fully comprehend and honor it? While positive representations of gays and lesbians are a cautious step in the right direction, media expert Larry Gross argues that the entertainment and news media betray a lingering inability to break free from proscribed limitations in order to embrace the complex reality of gay identity. While noting major advances, like the opening of the Oscar Wilde Memorial Bookstore—the first gay bookstore in the country—or the rise of *The Advocate* from small newsletter to influential national paper, Gross takes the measure of somewhat more ambiguous milestones, like the first lesbian kiss on television or the first gay character in a newspaper comic strip.

*Up from Invisibility* Verso

This is a history, a diary, a dossier of a radical's working life and circumstances among some of the most momentous years of the century. Its pages echo with the crash of rubble, of the old regimes of the Soviet Union and Eastern Europe, of the illusions of the post-Cold War West, of physical landscapes in upheaval. Cockburn's own reflections, both personal and political, are interspersed with letters from Claud Cockburn, Graham Greene, friends and irate readers. There are discussions with Noam Chomsky, dippings into criticism, Colette, transvestism, sexual manners, hate mail.

FINALIST in the 2018 Kindle Book Award 'A delicious book full of the unexpected. Highly emotive contents.' - Writing Magazine The second collection of poetry from award-winning author Jean Gill retains the passion and spiky humour for which she is known, but this has matured into a unique, assured view of our world. Her most lyrical poems reveal a sensuality that lingers in the imagination. 'I would not give my eyes to tune pianos but for one brightened night to read the raised points of your skin with blind man's fingers I might.' Other poems share political insights with timeless, incisive humour. 'Just like that cheated child, who eats his 'chosen' veg I'm bribed, cajoled, bombasted by each politician's pledge. This greener, better future which they say they offer me, has horizons built of money on the dead dreams of the free. Unless I stand for my beliefs myself, election means that I'm doomed to cast my vote for processed peas or processed beans.' Divided into two parts, this new edition includes the stories behind the poetry, some personal and some on the craft of writing poetry; always surprising. 'The humour frequently has the effect of pointing up the stark reality with which she writes. She employs a variety of styles to make the collection even more interesting. -Ted Griffin, Pause Magazine

One of The Economist's 2011 Books of the Year A Boston Globe Best Nonfiction Book of 2011 Well before the 1960s, a sexual revolution was under way in America, led by expatriated European thinkers who saw a vast country ripe for liberation. In *Adventures in the Orgasmatron*, Christopher Turner tells the revolution's story—an illuminating, thrilling, often bizarre story of sex and science, ecstasy and repression. Central to the narrative is the orgone box—a tall, slender construction of wood, metal, and steel wool. A person who sat in the box, it was thought, could elevate his or her "orgastic potential." The box was the invention of Wilhelm Reich, an outrider psychoanalyst who faced a federal ban on the orgone box, an FBI investigation, a fraught encounter with Einstein, and bouts of paranoia. In Turner's vivid account, Reich's efforts anticipated those of Alfred Kinsey, Herbert Marcuse, and other prominent thinkers—efforts that brought about a transformation of Western views of sexuality in ways even the thinkers themselves could not have imagined.

But since every guy hitting the bar on Saturday night isn't a seasoned warrior, this book has done the heavy lifting. By dissecting Sun Tzu's original text, extracting his core wisdom, and applying it to picking up women, this book teaches you how to win the battle of the sexes. A woman might not be an enemy to conquer--but she is a prize to win over.

American silent film comedies were dominated by sight gags, stunts and comic violence. With the advent of sound, comedies in the 1930s were a riot of runaway heiresses and fast-talking screwballs. It was more than a technological pivot--the first feature-length sound film, *The Jazz Singer* (1927), changed Hollywood. Lost in the discussion of that transition is the overlap between the two genres. Charlie Chaplin, Buster Keaton and Harold Lloyd kept slapstick alive well into the sound era. Screwball directors like Leo McCarey, Frank Capra and Ernst Lubitsch got their starts in silent comedy. From Chaplin's tramp to the witty repartee of *His Girl Friday* (1940), this book

chronicles the rise of silent comedy and its evolution into screwball--two flavors of the same genre--through the works of Mack Sennett, Roscoe Arbuckle, Harry Langdon and others.
