DALTON SANAI

A Concise History of the Russian Revolution Princeton University Press

Chronicles the history of two Russian brigades that fought for France in World War I

Its Legacies in Perspective Penguin

An exciting series that covers selected topics from the Higher Level options in the IB History syllabus. This coursebook covers Higher Level option 5, Topic 5, Imperial Russia, Revolutions and the Emergence of the Soviet State 1853-1924. The text is divided

into clear sections following the IB syllabus structure and content specifications. It offers a sound historical account along with detailed explanations and analysis, and an emphasis on historical debate to prepare students for the in-depth, extended essay required in the Paper 3 examination. It also provides plenty of exam practice including student answers with examiner's comments, simplified mark schemes and practical advice on approaching the Paper 3 examination.

A Novel Peter Lang GmbH, Internationaler Verlag Der Wissenschaften

'It is my considered judgement that, had it had not been for the Russian Revolution, there would very likely have been no National Socialism; probably no Second World War and no

decolonization; and certainly no Cold War, which once dominated our lives. I will attempt here to distill the essence of my books *THE RUSSIAN REVOLUTION* and *RUSSIA UNDER THE BOLSHEVIK REGIME* by raising the three central questions addressed in those volumes: Why did tsarism fall? Why did the Bolsheviks gain power? Why did Stalin succeed Lenin? Richard Pipes, from *THREE WHYS OF THE RUSSIAN REVOLUTION*. Arguably the most important event of the twentieth century, the Russian Revolution changed forever the course of modern history. Due to the Soviet clampdown on archives regarding the Revolution, many aspects of the event have been shrouded in mystery for over seventy years. However, since the collapse of Communism the archival depositories have been thrown open to interested parties. 'One of America's great histories'. *WASHINGTON POST BOOK WORLD*. 'Pipes is not a mere communicator of facts but a philosopher examining the deeper, broader trends beneath the surface of history.' *SAN FRANCISCO CHRONICLE*.

A People's Tragedy Emereo Publishing

Marx held that the progression of society from capitalism to communism was 'historically inevitable'. In Russia in 1917, it seemed that Marx's theory was being born out in reality. But was the Russian Revolution really inevitable? This collection of fourteen contributions from the world's leading Russian scholars attempts to answer the question by looking back at the key turning points of the revolution. From the Russo-Japanese conflict of 1904-5 through to the appropriation of church property in 1922, and focusing especially on the incredible chain of events in 1917 leading to the October Revolution itself, *Historically Inevitable?* is a forensic account of Russia's road to

revolution. Each contribution gives not only a fast-paced, incisive narrative account of an individual aspect of Revolution but also, for the first time, an intriguing counter-factual analysis of what might have gone differently. Featuring Richard Pipes on the Kornilov affair, Orlando Figes on the October Revolution, Dominic Lieven on foreign intervention and Martin Sixsmith on the attempted assassination of Lenin in 1918, *Historically Inevitable?* explains how each of these moments, more through blind luck than any historical inevitability, led to the creation of the world's first communist state. Tony Brenton's afterword to the volume draws parallels between the Revolution and the ultimate collapse of the Soviet Union in 1991, and places the events of 1917 in the context of more recent events in Russia and the Crimea.

Featuring contributions from: Donald Crawford - Sean McMeekin - Dominic Lieven - Orlando Figes - Richard Sakwa - Douglas Smith - Martin Sixsmith - Simon Dixon - Boris Kolonitsky - Richard Pipes - Edvard Radzinsky - Catriona Kelly - Erik Landis - Evan Mawdsley

The Russian Revolution, 1917 Random House

Author of the only full-length eyewitness account of the 1917 Revolution, Sukhanov was a key figure in the first revolutionary Government. His seven-volume book, first published in 1922, was suppressed under Stalin. This reissue of the abridged version is, as the editor's preface points out, one of the few things written about this most dramatic and momentous event, which actually has the smell of life, and gives us a feeling for the personalities, the emotions, and the play of ideas of the whole revolutionary period." Originally published in 1984. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the

distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Russian Revolution Penguin UK

This Very Short Introduction provides an analytical narrative of the main events and developments in Soviet Russia between 1917 and 1936. It examines the impact of the revolution on society as a whole—on different classes, ethnic groups, the army, men and women, youth. Its central concern is to understand how one structure of domination was replaced by another. The book registers the primacy of politics, but situates political developments firmly in the context of massive economic, social, and cultural change. Since the fall of Communism there has been much reflection on the significance of the Russian Revolution. The book rejects the currently influential, liberal interpretation of the revolution in favour of one that sees it as rooted in the contradictions of a backward society which sought modernization and enlightenment and ended in political tyranny. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Jews Were the Key Men in Bolshevism Diamond Pocket

Books Pvt Ltd

A study of Lenin and the Russian Revolution. It is designed to fulfil the AS and A Level specifications in place from September 2000. The AS section deals with narrative and explanation of the topic. There are extra notes, biography boxes and definitions in the margin, and summary boxes to help students assimilate the information. The A2 section reflects the different demands of the higher level examination by concentrating on analysis and historians' interpretations of the material covered in the AS section. There are practice questions and hints and tips on what makes a good answer.

Russia 1917-1939 Spark Notes

Unrivalled in scope and brimming with human drama, A People's Tragedy is the most vivid, moving and comprehensive history of the Russian Revolution available today. 'A modern masterpiece' Andrew Marr 'The most moving account of the Russian Revolution since Doctor Zhivago' Independent Opening with a panorama of Russian society, from the cloistered world of the Tsar to the brutal life of the peasants, A People's Tragedy follows workers, soldiers, intellectuals and villagers as their world is consumed by revolution and then degenerates into violence and dictatorship. Drawing on vast original research, Figes conveys above all the shocking experience of the revolution for those who lived it, while providing the clearest and most cogent account of how and why it unfolded. Illustrated with over 100 photographs and now including a new introduction that reflects on the revolution's centennial legacy, A People's Tragedy is a masterful and definitive record of one of the most important events in modern history.

The Story of the Russian Revolution Cambridge University Press
 This popular, concise and highly readable study discusses the key themes and debates about the Russian Revolution. Robert Service's lively analysis examines: • state and society under the Romanovs from 1900 • the February and October Revolutions of 1917 • the final years of the Romanov dynasty and the start of the Soviet order • comparisons with political, social and economic trends elsewhere in the world • the extent to which the later development of the USSR was conditioned by the October Revolution. Clear and incisive, the fourth edition has been thoroughly revised and updated in the light of the latest research and features a new scene-setting Introduction and maps. Service's text remains the essential starting point for anyone studying this tumultuous period in the history of Russia and the world in the twentieth century.

Turning Points of the Russian Revolution Basic Books

Marx held that the progression of society from capitalism to communism was 'historically inevitable'. In Russia in 1917, it seemed that Marx's theory was being born out in reality. But was the Russian Revolution really inevitable? This collection of fourteen contributions from the world's leading Russian scholars attempts to answer the question by looking back at the key turning points of the revolution. From the Russo-Japanese conflict of 1904-5 through to the appropriation of church property in 1922, and focusing especially on the incredible chain of events in 1917 leading to the October Revolution itself, *Historically Inevitable?* is a forensic account of Russia's road to revolution. Each contribution gives not only a fast-paced, incisive narrative account of an individual aspect of Revolution but also, for the first

time, an intriguing counter-factual analysis of what might have gone differently. Featuring Richard Pipes on the Kornilov affair, Orlando Figes on the October Revolution, Dominic Lieven on foreign intervention and Martin Sixsmith on the attempted assassination of Lenin in 1918, *Historically Inevitable?* explains how each of these moments, more through blind luck than any historical inevitability, led to the creation of the world's first communist state. Lenin and the Russian Revolution Macmillan International Higher Education

Richard Pipes's authoritative history of the "violent and disruptive acts" that created the first modern totalitarian regime portrays the crisis at the heart of the tsarist empire. Drawing on archival materials newly released in Russia, he chronicles the upheaval that began as a conservative revolt but was soon captured by messianic intellectuals intent not merely on reforming Russia but on remaking the world. He provides fresh accounts of the revolution's personalities and policies, crises, and cruelties, from the murder of the royal family through civil war, famine, and state terror. Brilliantly and persuasively, Pipes shows us why the resulting system owes less to the theories of Marx than it did to the character of Lenin and Russia's long authoritarian tradition.

What ensues is a path-clearing work that is indispensable to any understanding of the events of the century.

The Russian Revolution Hundred Years of the Russian Revolution Its Legacies in Perspective

A controversial retelling of the events in the early part of the Russian Revolution and of Lenin's part in shaping the course of the future.

The October Revolution Cambridge University Press

The Russian Revolution Hundred Years of the Russian Revolution Its Legacies in Perspective Springer Nature

History for the IB Diploma: Imperial Russia, Revolutions and the Emergence of the Soviet State 1853-1924 Heinemann

"The author analyzes modern Russian history from a new perspective. Due to the ideological heritage of the XIX and XX century, the social settings of the sociopolitical history of the USSR (1917-1945) have not been fully identified. Detailed examination of ideological and political concepts shows that the revolution of 1917 became not a middle class, proletarian movement, but rather a plebeian one. The misjudgment by the new power enabled growth but caused tremendous losses of human lives and material damages. Socialization of economy and strict centralization led to a new social structure and established terror as an instrument for social reorganization. WWII revealed the necessity of a correction of these developments, but the events of the Cold War circumvented any further considerations"-

With precision and sensitivity, the human story of what the Russian revolution meant to ordinary people is told through the

experiences, thoughts, and feelings of the people as expressed in their own words.

The Tragic Odyssey of the Russian Expeditionary Force in France During World War I Palgrave Macmillan

From an award-winning scholar comes this definitive, single-volume history that illuminates the tensions and transformations of the Russian Revolution. In *The Russian Revolution*, acclaimed historian Sean McMeekin traces the events which ended Romanov rule, ushered the Bolsheviks into power, and introduced Communism to the world. Between 1917 and 1922, Russia underwent a complete and irreversible transformation. Taking advantage of the collapse of the Tsarist regime in the middle of World War I, the Bolsheviks staged a hostile takeover of the Russian Imperial Army, promoting mutinies and mass desertions of men in order to fulfill Lenin's program of turning the "imperialist war" into civil war. By the time the Bolsheviks had snuffed out the last resistance five years later, over 20 million people had died, and the Russian economy had collapsed so completely that Communism had to be temporarily abandoned. Still, Bolshevik rule was secure, owing to the new regime's monopoly on force, enabled by illicit arms deals signed with capitalist neighbors such as Germany and Sweden who sought to benefit-politically and economically-from the revolutionary chaos in Russia. Drawing on scores of previously untapped files from Russian archives and a range of other repositories in Europe, Turkey, and the United States, McMeekin delivers exciting, groundbreaking research about this turbulent era. The first comprehensive history of these momentous events in two decades, *The Russian Revolution* combines cutting-edge

scholarship and a fast-paced narrative to shed new light on one of the most significant turning points of the twentieth century.

Explaining The Russian Revolution Profile Books

About the series GCSE Modern World History for Edexcel is designed to meet the needs of the 2009 Edexcel Modern World History specification. Written by senior examiners, the series has been developed to enable students to achieve the highest possible grades through: - outlining key lines of enquiry - full coverage of the content requirements of the specification - model answers, exam-style questions and exam tips to aid exam preparation - dedicated support with assessment - a variety of activities to motivate all students. It has a skills-centred, source-based approach, making it ideal for students studying the course.

A Gentleman in Moscow Walter de Gruyter GmbH & Co KG Answers to the ten questions every student of the Russian Revolution needs. Precise, in depth and easy to understand, this ebook delivers the essential answers to your phone or tablet. Perfect for study, exam revision and essay excellence.

Judge N. W. Rogers Answers Straus of Kuhn, Loeb & Co., on Jacob Schiff's Part in Russian Revolution : Supports Father Coughlin's Charges Berg Publishers

The most powerful force in the world economy today is the redefinition of the relationship between state and marketplace - a process that goes by the name of privatization though this term

is inadequate to express its far-reaching changes. We are moving from an era in which governments sought to seize and control the 'commanding heights' of the economy to an era in which the idea of free markets is capturing the commanding heights of world economic thinking. Basic views of how society ought to be organized are undergoing rapid change, trillions of dollars are changing hands and so is fundamental political power. Great new wealth is being created - as are huge opportunities and huge risks. Taking a worldwide perspective, including Britain, where the process began with Mrs Thatcher, Europe and the former USSR, China, Latin America and the US, THE COMMANDING HEIGHTS shows how a revolution in ideas is transforming the world economy - why it is happening, how it can go wrong and what it will mean for the global economy going into the twenty-first century.

History for the IB Diploma Paper 3 Imperial Russia, Revolution and the Establishment of the Soviet Union (1855-1924) Anchor Foundation

This short and updated introduction by one of Europe's leading specialists in Russian and Soviet history presents a broad survey combined with a penetrating analysis of the key issues of the Russian Revolution, such as the nature of pre-Revolutionary society and politics, the many links between war and revolution (e.g., the effects of the war on the Bolshevik theory of revolution), the possibilities open to the Provisional Government, political alternatives to Bolshevism, and the place of the Revolution in contemporary intellectual debate in the West. The particular originality of this volume lies in the fact that the author also examines the way in which these issues were viewed both at

the time and later. He looks at contemporary (1917) assumptions, at the validity of questions traditionally asked about the Revolution, and concerns himself with the degree of hindsight and ideological basis contained both in the questions themselves

and in the answers usually given to them. The author's knowledge of works in Russian as well as in German, English and French add to the indispensability of this book.
