The sign read 'Do Not Disturb', and at first Edith Talbot ignored the pitiful whimpering that came through the door. The hotel clerk assured her that the room was occupied by a sick boy under the care of a physician. Later in the night, when the cries resumed, she felt something must be done, and she made the fatal mistake of knocking on the door ... From then on things begin to happen, strange things

that at first seem like coincidence but crescendo into a series of hair-raising events. 'Continuous action, and extra good writing' Saturday Review of Literature
The Mysteries of Animal Hibernation and Sleep Harlequin

Now Georgia was back and Jason intended to discover what had really happened to their baby. If that meant being with her every minute of every day—and night—until she told him the

A powerful investigation into a grisly political murder and the authoritarian regime behind it: *Do Not Disturb* upends the narrative that Rwanda sold the world after one of the deadliest genocides of the twentieth century. We think we know the story of Africa's Great Lakes region. Following the Rwandan genocide, an idealistic group of young rebels overthrew the brutal regime in Kigali, ushering in an era of peace and stability that made Rwanda the donor darling of the West, winning comparisons with Switzerland and

Singapore. But the truth was considerably more sinister. Vividly sourcing her story with direct testimony from key participants, Wrong uses the story of the murder of Patrick Karegeya, once Rwanda's head of external intelligence and a quicksilver operator of supple charm, to paint the portrait of a modern African dictatorship created in the chilling likeness of Paul Kagame, the president who sanctioned his former friend's assassination.

Gianni Versace's unbridled enthusiasm for the baroque finds new expression in *Do Not Disturb*, his playful peek behind the closed doors of the Versace homes. Versace's Garden of Eden is found at home - be that a stuccoed Ottocento pavilion fronting the Lago di Como, a sumptuous home office in the center of the fashion capital, or an Art Deco pile in South Beach. Versace's Adam and Eve might well be Sylvester Stallone and Claudia Schiffer, modestly shielding themselves from our view with a Gorgon-headed dinner plate. His vision is translated through the lens of the world's most accomplished photographers - Richard Avedon, Irving Penn, Helmut Newton, and Massimo Listri - and

illustrated with a cornucopia of drawings and pastels by Karl Lagerfeld and Gladys Perint Palmer. Sir Roy Strong, a former Director of the Victoria & Albert Museum, London, contributes a stunning text to match the visual feast.

"Peut-on photographier le désir, photographier l'attente du plaisir ?. Personne, aussi bien que Chas Ray Krider, n'a su le faire avec une délicatesse aussi lascive. Photographier l'illusion d'être celui qu'attendent ces femmes à demi nues offertes au regard dans le désordre savant de leur lingerie, lingerie qui feint de cacher ce qui attire nos yeux, qui le dissimule pour mieux l'exhiber. À quoi peuvent donc penser ces femmes retroussées, dénudées, qui attendent notre visite en sirotant un whisky ?. De nous, à qui elles vont se livrer, elles ne savent rien ; serons-nous des rustres, des impuissants, des empotés, ou au contraire, saurons-nous éveiller dans leur chair ce plaisir dont les caprices échappent à toutes règles ?. Elles n'en savent rien... et nous non plus".

Everyone knows about the Ramsays - even those who have never watched a Ramsay

film. But who were they really? Where did they come from? Why did they make the films they did? And how? How, really, did they pull it off? In India, the Ramsay name remains synonymous with horror movies. Still, all these decades later. Don't Disturb the Dead is the story of their cinema, their methods and madnnesses, the people and the processes, arguments and agreements, about horror cinema as a business model, and more. It is also an open-minded and affectionate ode to the 'disreputable' Ramsay films, and to a family that was once a genre in itself, one whose contribution to cinema deserves to be recognized.

DO NOT DISTURB "O'Reilly Media, Inc." Photographer and musician John Cohen's final testimony: a lyrical flow of images from his 60-year career One cold sunny morning in December 2018, Gerhard Steidl drove from New York City to see John Cohen (1932-2019)--photographer, filmmaker and founding member of the New Lost City Ramblers--at his home in upstate Putnam Valley. The purpose of the visit was to collect images for Cohen's

2019 book Look up to the Moon. In Cohen's barn-cum-studio they stumbled across another group of prints from across his 60-year career. Steidl took the boxes under his arm, and the photos now appear for the first time here, in Cohen's most lyrical and personal book, as well as his last. Sequenced wholly by mood and intuition and eschewing titles and dates, the portraits, landscapes and still lifes, along with drawings, unify disparate subjects--his wife Penny, Roscoe Holcomb, fragments of the Parthenon--into a dreamlike flow. Cohen's text, recalling his intertwining dreams across decades, explores the line between dream and reality, memory and book.
