This is an OCR endorsed resource
Stretch and challenge your students'
knowledge and understanding of
Chemistry, build their mathematical and
practical skills, and provide plenty of
assessment guidance with this OCR Year
1 Student Book. - Build understanding
with a summary of prior knowledge and
diagnostic questions at the start of each
chapter to help bring students up to
speed - Support practical assessment
with Practical Skill summaries that help
develop your students' knowledge and
skills - Test understanding and provide
plenty of practice to assess progression,
with Test Yourself Questions and
multiple choice questions - Provide
mathematical support with examples of
method integrated throughout and a
dedicated 'Maths in Chemistry' chapter -
Develop understanding with free online
access to Test yourself Answers, an
Extended Glossary, Learning Outcomes
and Topic Summaries OCR A Level
Chemistry Student Book 1 includes AS
Level

*Condensed Revision Notes - Designed to
Facilitate Memorisation* Coordination
Group Publication

Written by experienced author Mike
Smith, this Student Guide for Chemistry:
- Helps you identify what you need to
know with a concise summary of the
topics examined in the AS and A-level
specifications - Consolidates
understanding with tips and knowledge
check questions - Provides opportunities
to improve exam technique with sample

answers to exam-style questions -
Develops independent learning and
research skills - Provides the content for
generating individual revision notes
*OCR A-level Chemistry Student Guide:
Practical Chemistry* Oxford University
Press - Children

New 2017 Cambridge A Level Maths and
Further Maths resources to help students
with learning and revision. Written for
the OCR AS/A Level Mathematics
specifications for first teaching from
2017, this print Student Book covers the
content for AS and the first year of A
Level. It balances accessible exposition
with a wealth of worked examples,
exercises and opportunities to test and
consolidate learning, providing a clear
and structured pathway for progressing
through the course. It is underpinned by
a strong pedagogical approach, with an
emphasis on skills development and the
synoptic nature of the course. Includes
answers to aid independent study.

Advancing Biology for OCR Philip
Allan

Letts AS Chemistry Success gives
complete study support throughout the
year. This Study Guide matches the
curriculum content and provides in-
depth course coverage plus invaluable
advice on how to get the best results in
the AS exam. *Provides frequent
progress checks and exam practice
questions to consolidate learning
*Contains invaluable advice and practice
questions for the exam *Includes
examiner's tips and reveals how to
achieve higher marks

**A-level Chemistry Condensed

Please note this title is suitable for any
student studying: Exam Board: AQA
Level: A Level Subject: Biology First

teaching: September 2015 First exams: June 2017 Fully revised and updated for the new linear qualification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course whilst delivering the maths, practical and synoptic skills needed to succeed in the new A Levels and beyond. The book uses clear straightforward explanations to develop true subject knowledge and allow students to link ideas together while developing essential exam skills.

Condensed Revision Notes - Designed to Facilitate Memorisation Hodder Education

Student Unit Guides are perfect for revision. Each guide is written by an examiner and explains the unit requirements. This guide offers advice on preparing for the OCR(B) (Salters) Units F333 Chemistry in Practice and F336 Individual Investigation assessments. The Practical Chemistry section deals with experimental results and practical techniques. It explains how to obtain and record results and how to process them.

A2-Level Chemistry OCR B Complete Revision & Practice

Condensed Revision Notes Designed to Facilitate Memorisation Letts and Lonsdale

NEW COLORED EDITION! These concise revision notes (flashcards) contain all the necessary exam knowledge in a short, easy to memorize form. Each page covers the key facts, such as definitions, of a single topic, without the distraction of unnecessary information. Created with great care, they include important information specific to exam questions. *Chemical Storylines*. Philip Allan Exam Board: AQA, Edexcel, CCEA, OCR, WJEC Eduqas Level: A-level Subject: Chemistry First teaching: September 2015 First exams: Summer 2017 Master the skills you need to set yourself apart and hit the highest grades; this year-round course companion develops the higher-order thinking skills that top-achieving students possess, providing step-by-step guidance, examples and tips for getting an A grade. Written by experienced author and teacher Sarah Longshaw, Aiming for an A in A-level Chemistry: - Helps you develop the 'A grade skills' of analysis, evaluation, creation and application - Takes you step by step through specific skills you need to master in A-level Chemistry, including scientific reading, quantitative and

practical skills, so you can apply these skills and approach each exam question as an A/A* candidate - Clearly shows how to move up the grades with sample responses annotated to highlight the key features of A/A* answers - Helps you practise to achieve the levels expected of top-performing students, using in-class or homework activities and further reading tasks that stretch towards university-level study - Perfects exam technique through practical tips and examples of common pitfalls to avoid - Cultivates effective revision habits for success, with tips and strategies for producing and using revision resources - Supports all exam boards, outlining the Assessment Objectives for reaching the higher levels under the AQA, Edexcel, OCR, WJEC/Eduqas and CCEA specifications.

OCR A Level Year 2 Chemistry A Student Guide: Module 6 Createspace

Independent Publishing Platform

Written by the University of York project team for Salters Advanced Chemistry, this Student Book supports and extends students through the new linear course while delivering the breadth, depth, and skills needed to succeed in the new A Levels and beyond. It develops true subject knowledge while also developing essential exam skills. The fourth edition combines the Chemical Storyline and Chemical Ideas into a single, integrated volume for the first time, providing ideal support for the new specification.

OCR AS/A Level Year 1 Chemistry A Student Guide: Modules 1 and 2

Heinemann

Student Unit Guides are perfect for revision. The Practical Chemistry section deals with experimental results and practical techniques, explaining how to obtain and record results and how to process them. The Practical Units section

describes the skills required for choosing and planning your investigation and the skills required. The Appendix contains some useful theory and the Answers section provides answers to the questions that are set throughout the guide.

As Chemistry Ocr B Revision Guide

Coordination Group Publication

Ensure your students get to grips with the core practicals and develop the skills needed to succeed with an in-depth

assessment-driven approach that builds and reinforces understanding; clear summaries of practical work with sample

questions and answers help to improve exam technique in order to achieve

higher grades. Written by experienced teacher Nora Henry, this Student Guide for practical Chemistry:

- Help students easily identify what they need to know with a concise summary of required

practical work examined in the A-level specifications. - Consolidate

understanding of practical work, methodology, mathematical and other

skills out of the laboratory with exam tips and knowledge check questions,

with answers in the back of the book. - Provide plenty of opportunities for

students to improve exam technique with sample answers, examiners tips and

exam-style questions. - Offer support beyond the Student books with coverage

of methodologies and generic practical skills not focused on in the textbooks.

A Level Salters Advanced Chemistry for OCR B: Year 1 and AS Philip Allan

Tired of writing your own revision notes?

Unsure what to put in and what to leave out? Use professional ones! These

condensed revision notes (flashcards) are designed to facilitate memorization.

They have been created by a very experienced, professional Chemistry

tutor. Dr C. Boes has successfully taught

over sixty A-level students in the last ten years. Many of these have achieved excellent grades in their exams and went on to study medicine. These notes contain all the necessary exam knowledge in a short, easy to memorize form. Each page covers the key facts, such as definitions or equations, of a single topic, without the distraction of unnecessary information. Knowing them by heart makes it easy to get top grades. Tried, tested and proven by past tuition students, they are an effective and successful tool to ace your exams. They have been adapted to the new OCR B Chemistry A-level Year 2 syllabus (from Sept 15). This book is organized in chapters according to the syllabus and allows natural progression in sync with your school work. Created with great care, it includes important information specific to exam questions. This small book will save you hours of painstaking note writing. It is less messy than loose paper sheets and easy to carry around. Memorize on the bus or while you wait. Try it now! Supplement this black and white edition with the coloured Kindle eBook.

A Level Salters Advanced Chemistry for OCR B As Chemistry Ocr B Revision Guide

Student Unit Guides are perfect for revision. Each guide is written by an examiner and explains the unit requirements, summarises the relevant unit content and includes a series of specimen questions and answers. There are three sections to each guide:

Introduction - includes advice on how to use the guide, an explanation of the skills being tested by the assessment objectives, an outline of the unit or module and, depending on the unit, suggestions for how to revise effectively and prepare for the examination questions. Content Guidance - provides an examiner's overview of the module's key terms and concepts and identifies opportunities to exhibit the skills required by the unit. It is designed to help students to structure their revision and make them aware of the concepts they need to understand the exam and how they might analyse and evaluate topics. Question and Answers - sample questions and with graded answers which have been carefully written to reflect the style of the unit. All responses are accompanied by commentaries which highlight their respective strengths and weaknesses, giving students an insight into the mind of the examiner.
