You probably haven't ever noticed them. But they've noticed you. They notice everything. That's their job. Sitting quietly in a nondescript car outside a bank making note of the tellers' work habits, the positions of the security guards. Lagging a few car lengths behind the Brinks truck on its daily rounds.

Surreptitiously jiggling the handle of an unmarked service door at the racetrack. They're thieves. Heisters, to be precise. They're

pros, and Parker is far and away the best of them. If you're planning a job, you want him in. Tough, smart, hardworking, and relentlessly focused on his trade, he is the heister's heister, the robber's robber, the heavy's heavy. You don't want to cross him, and you don't want to get in his way, because he'll stop at nothing to get what he's after. Parker, the ruthless antihero of Richard Stark's eponymous mystery novels, is one of the most unforgettable characters in hardboiled noir. Lauded by critics for his taut realism, unapologetic amorality, and razor-sharp prose-style—and adored by fans who turn each intoxicating page with increasing urgency—Stark is a master of crime writing, his books as influential as any in the genre. The University of Chicago Press has embarked on a project to return the early volumes of this series to print for a new generation of readers to discover—and become addicted to. In *The Hunter*, the first volume in the series, Parker roars into New York City, seeking revenge on the woman who betrayed him and on the man who took his money, stealing and scamming his way to redemption. “Westlake knows precisely how to grab a reader, draw him or her into the story, and then slowly tighten his grip until escape is impossible.”—Washington Post Book World “Elmore Leonard wouldn't write what he does if Stark hadn't been there before. And Quentin Tarantino wouldn't write what he does without Leonard. . . . Old master that he is, Stark does all of them one better.”—Los Angeles Times “Donald Westlake's Parker novels are among the small number of books I read over and over. Forget all that crap you've been telling yourself about War and Peace and Proust—these are the books you'll want on that desert island.”—Lawrence Block

Teenaged Christine Wainwright's parents regard her and her musical ambitions as inconveniences. Christine's earnest, vain elder brother David is the star of the family: an up-and-coming novelist who has married into the richest family in State City, Iowa. The middle child, Melissa, is struggling with her teaching career and a choice between two men: steady, pragmatic Leander Washington and worshipful Connor Lowe. When Christine disappears, suspicion falls on the Wainwrights' scheming neighbor, Andy Palinkas, who loathes Christine's parents. The

unfolding mystery exposes the truth behind the Wainwrights' respectable facade: a convoluted saga of unwanted children, disastrous marriages, romantic double-crosses, and domestic plots and counter-plots. Joseph Dobrian's new novel, *Ambitions* (Rex Imperator, 426 pps., trade paperback, \$17.95, ISBN 978-0-9835572-3-4) is a stark, elegantly written family drama set in a Midwestern university town. It's a story of aspiration, adoration, and betrayal that explores some of the ugliest realities of human interactions. At the same time, it conveys a message of hope to readers who strive to realize their own ambitions.

REVIEW BY JEFF-CHARIS CARLSON, in the IOWA CITY PRESS-CITIZEN: Like "Anna Karenina," Joseph Dobrian's new novel, "Ambitions," should be required reading in premarital counseling or pre-parenting classes. Like Leo Tolstoy 140 years before him, Dobrian understands intimately the profound truth within the axiom: "Happy families are all alike; every unhappy family is unhappy in its own way." And like the thousand-page Russian masterpiece, Dobrian's 440-page "Ambitions" provides a veritable catalog of various unhappy marriages and parent-child relationships. Unlike Tolstoy's Konstantin Levin, however, Dobrian's authorial stand-in character, Andy Palinkas, isn't working his way through one of the family relationships in question. Instead, as the middle-aged owner of a men's clothing store, he remains an unmarried, well-dressed man who, disappointedly, tends to give off the wrong vibe to the women he finds attractive. Yet Andy's bachelor-status also leaves him free to observe, gossip about and learn from the failings of his coupled and kidded customers, colleagues and fellow citizens. And his mentoring relationship with his neighbors' teenage

daughter - whose life he saved when she was a child - provides him with a good deal of behind-the-scenes dirt on the main characters. Throw in Andy's many business contacts and his frequent appearances at various School of Music concerts, and the character soon has all the information he needs to narrate a compelling story, seven years after the fact, from a third-person, limited-omniscient (and highly snarky) perspective. Dobrian's own sepia-tinged narrative style often makes the 2000s setting of the novel feel more like a half-century earlier. And despite the novel's dramatic opening with the disappearance of that teen-age neighbor, "Ambitions" is much more a multi-generational character study than a plot-driven mystery. Set against the backdrop of a thinly fictionalized version of Iowa City - State City, a UNESCO-designated "City of Music" - Dobrian's already on-target psychological insights hit even closer to home. Although there are many times in which both Andy and Dobrian seem to be having almost too much fun at others' expense, Dobrian generally is empathetic with his characters whose mundane lives are drowning in their own ordinariness. As with Dobrian's Writers' Group columns and his earlier essay collection, "Seldom Right But Never in Doubt," there are a few times when you feel like throwing the book across the room - mainly in frustration at the blitheness in which the characters go about ruining their lives. But the novel proves to be surprisingly addictive. (I found it so hard to put down that I made it through 300 pages in the first night and had to go to work bleary-eyed the next day.)"

Fear and Loathing in Las Vegas Other Press, LLC (Book). This up-to-date book comprehensively covers all aspects of speech and music sound reinforcement. It is roughly divided

Section 2 deals with the fundamental classes of hardware that the modern engineer will use, such as loudspeaker systems and components, microphones, mixers, amplifiers and signal processors. Special attention is given to digital techniques for system control and to audio signal analysis. Section 3 deals with the basics of system design, from concept to final realization. It covers topics such as basic system type and speech intelligibility, site survey, user needs analysis and project management. Section 4 discusses individual design areas, such as sports facilities, large-scale tour sound systems, high-level music playback, systems for the theater, religious facilities, and other meeting spaces. The book is written in an accessible style, but does not lack for ample amounts of technical information. It is truly a book for the 21st century!

Groomed for a place at a Big Name School since their obsessed, status-conscious helicopter parents passed out cigars at the Stockstill General Hospital Neonatal Unit, the privileged students of Pembrocton College Preparatory are ratcheting up the stakes in the race to get into the nation's most prestigious colleges. The PCP juniors are gloating, jubilant at the rumor that the valedictorian presumptive has received a B on her report card, a grade that will relegate her to in-state hell. Her heir apparent, a three-generation Yale legacy, is the sole mourner at the demise of her future—if only because her thoughtless academic lapse is going to derail his plans to attend MIT. Across town, in the graffiti-covered halls of Stockstill High School, the students slink to class, praying that they arrive without a knife wound—and dream of ivy-covered walls. And with the help of a take-no-prisoners principal and an enterprising parent, the students at SHS dare to encroach shamelessly on territory normally reserved for their wealthy private school rivals. Join the fray as a memorable cast of characters engages in the latest rage in extracurricular activities: college admissions as a blood sport. Laugh out loud funny, *The Applicants* lampoons the heights we scale—and the depths to which we sink—to get into the “right” college. ?

Say Not What If Hal Leonard Corporation

"Say Not What If" is a nearly 10,000 word story written as a long rhyming poem. It is about a man on death row, and has as its

theme the concept that time is our most valuable commodity. As someone once said, "waste anything but time, because we really are promised no tomorrows." This theme is explored through the life of a man who sacrifices his marriage and everything else for his career. He realizes much too late the terrible consequences of this decision, and then desperately tries to regain those lost years by making a much worse choice. The resolution of this latter choice involves an additional examination of the concepts of accountability and responsibility, redemption, and the morality of the death penalty. The story has a better than average rating of 4/5 stars on Goodreads and Amazon. There are currently fifty-six ratings and forty-one written reviews on Goodreads at <http://www.goodreads.com/book/show/12788920-say-not-what-if>. Another thirteen ratings and reviews are on Amazon. Reviewers have described the story as "exceptional," "amazing," "incredibly special," "borderline genius," "a lyrical masterpiece," "gripping and compelling," "thought provoking," and a "beautifully written piece of literature." Many enjoyed the story so much that they intend to share it with their family and friends. I have never seen a story written in this format. It has characters and dialogue just like a regular story, and is extremely easy to read and understand, regardless of whether you have a GED or a PHD. You should therefore not be concerned that the format makes the story hard to understand. Many reviewers had the same initial concern, but then pleasantly discovered that the story is very easy to follow. But you can further allay any such fears by reading the first few pages of the story on my website, www.ascensionenterprise.com. This story will tear at your soul. As many of the reviewers said, it only requires an hour or so to

read, but will keep you thinking about its message long after you are finished. Time is quintessentially important and valuable. Who knows how much time anyone has? Would you trade ten or even five years of your life for a million dollars?The story can be

purchased from many booksellers, including Amazon and Barnes & Noble. It can also be purchased for only 0.99 as an ebook for Kindle. Best wishes and good luck in all your reading endeavors.
