Unearthly Disclosure is a
story of alien bases, alien
contacts and abductions,
genetic mutants, animal
mutilations, and

government paranoia.
Here, Timothy Good, one
of the world's most
respected authorities on
the alien phenomenon,
reveals for the first time
sensational information
provided to him by high-
level military and
scientific sources, who
confirm that aliens have
established subterranean
and submarine bases on
Earth and that extra-

terrestrial contact has
been made with a select
group in the US military
and scientific intelligence
community. Among
numerous revelations in
this book are those
involving the alien
creature photographed by
Filiberto Caponi in Italy.
The author spent several
years investigating this
controversial case and
commissioned an Expert

Witness checked by the Law Society to analyse Caponi's astonishing photographs. Published for the first time, this unique story forms the central section of *Unearthly Disclosure*.

Trevor J. Hawkeswood is a scientist who has experienced hundreds of paranormal events in his lifetime. In *Light and Dark*, he recounts some of these incredible interactions. He believes that reality occurs on two separate but interwoven planes of existence—the

Earth plane and the multiple levels of the spiritual planes, including the lower levels, from where the dark souls of humans who have died reach out to us. He has experienced more than one hundred sightings of the shadow people, or “black ghosts.” He credits guardian angels with saving him from harm or certain death on a number of occasions. Hawkeswood also shares accounts of his numerous sightings of strange aerial phenomena he believes were caused by UFOs. He

has personally experienced clairaudience—voices from beyond—and precognition, or the ability to see the future. His detailed account of a unique out-of-body experience (OOBE) challenges what is known about this remarkable ability. His OOBE was unlike anything that has ever been described by others who have experienced it—and he shares it all in *Light and Dark*. But it hasn't all been safe or pleasant. At eighteen, he survived a

terrifying encounter with a demon gargoyle who tried to steal his soul energy after paralyzing him. A comprehensive handbook for the paranormal enthusiast, Hawkeswood's work also provides a glossary and reference list of English-language UFO books. In *Light and Dark*, he shares a lifetime of experiences, ideas, and theories about this fascinating field of study.

Seit Jahrhunderten gibt es aus allen Kontinenten

Berichte über Beobachtungen leuchtender Kugeln über dem Boden und kurzlebigen feurigen Kugeln während eines Gewitters. Bis heute kann die Wissenschaft nicht erklären, woher diese Feuerzeichen ihre Energie beziehen und was sie zusammenhält. Mit der gut begründeten Theorie, dass unsere Welt außer Raum und Zeit noch zwei weitere imaginäre Dimensionen besitzt, lassen sich diese möglichen Energieeinbrüche aus

höheren Dimensionen in den Raum zumindest qualitativ deuten. In einer sechsdimensionalen Welt werden auch so seltene Erscheinungen wie das spontane Auftreten von Lichtern über »heiligen Orten« und um physikalische Medien sowie Feuer in Wohnungen und die Brandabdrücke von Händen auf Holzwänden, Tüchern und in Büchern (eingebrennte Hände) verständlich. Anhand vieler Fallbeispiele werden die Eigenschaften der plötzlich im Raum

(und speziell in einem Mini-Labor) auftretenden Energien und deren Steuerungen aus den Trans-Dimensionen vorgestellt und im theoretischen Modell einer sechsdimensionalen Welt erklärt.

A welcome source of analysis and commentary

for those prepared to go deeper—and darker—than even most alternative media permit, this collection from one of the most popular conspiracy theory arguments on the internet will assist readers in clarifying their own arguments and recognizing disinformation. Tackling many of the most difficult subjects that define our time—including 9/11, the JonBenet Ramsey case, and "High Weirdness"—these studies, containing the best of the Rigorous

Intuition blog as well as original content, make connections that both describe the current, alarming predicament and suggest a strategy for taking back the world. Following the maxim "What you don't know can't hurt them," this assortment of essays and tools, including the updated and expanded "Coincidence Theorists' Guide to 9/11," guides the intellectually curious down further avenues of study and scrutiny and helps readers feel empowered rather than

Elvis Presley, Marilyn Monroe, and space aliens like the Transformers share a surprising connection along with James Bond, Indiana Jones, and Rocky Balboa. These beloved icons played active roles in movie and television projects set in the state of Nevada. Long time state film commissioner and movie reviewer Holabird explores the blending of icons and Nevada, along with her personal

experiences of watching movies, talking with famous people, and showing off a diverse range of stunning and iconic locations like Las Vegas, Reno, Lake Tahoe, and Area 51. Holabird shows how Nevada's flash, flair, and fostering of the forbidden provided magic for singers, sexpots, and strange creatures from other worlds. She also gives readers an insider's look into moviemaking in Nevada by drawing on her extensive experience as a film commissioner. This is

a unique take on film history and culture, and Holabird explores eighteen film genres populated by one-of-a-kind characters with ties to Nevada. Along with being a film history of the state of Nevada written by a consummate insider, the book is a fun mixture of research, personal experiences, and analysis about how Nevada became the location of choice for a broad spectrum of well-known films and characters.

The first, comprehensive military history of armed confrontations between humans and extraterrestrials •

Includes documentation of incidents from World War I, World War II, the Korean War, the Vietnam War, the Gulf War, and the ongoing hostilities in the Middle East • Reveals the U.S. Navy's defeat in Antarctica by ETs, the shoot-down of "flying saucers" at Roswell, alien

sabotage of nuclear weapons, in-flight abductions of USAF and Soviet officers, and photographic evidence of the Battle of Los Angeles

- Explains the link between the development of atomic bombs and ballistic missiles and the increase in extraterrestrial intervention in the 20th century Although close encounters with alien space craft are reported as far back as the reign of Pharaoh Thutmosis III in Egypt, it wasn't until the 20th century that UFO sightings and

extraterrestrial encounters were truly documented, due to advances in technology and record-keeping as well as the vast increase in incidents, particularly with military forces. Revealing his extensive research and the verifiable evidence he's discovered, Frank Joseph presents a comprehensive military history of armed confrontations between humans and extraterrestrials in the 20th and 21st centuries. He explains how, with the development of atomic

bombs and ballistic missiles, the frequency of extraterrestrial intervention in human affairs increased dramatically. He documents incidents both famous and little known, including the explosive demolition of U.S. munitions factories in 1916 by unearthly aerial vehicles, the Red Baron's dogfight with a UFO during World War I, "foo fighter" sightings and battles with Allied and Axis combatants during World War II, and eye-witness reports from

encounters during the Korean War, the Vietnam War, the Gulf War in Iraq, and the ongoing hostilities in the Middle East. He examines the evidence for the shoot-down of "flying saucers" at Roswell and Aztec, New Mexico, alien sabotage of nuclear weapons systems, and in-flight abductions of USAF and Soviet officers and airplanes. He explores the photo evidence for the Battle of Los Angeles, which occurred three months after Pearl Harbor, and the details of Operation Highjump, the

U.S. Navy's defeat in Antarctica by ET forces 17 months after the atomic bomb was dropped on Nagasaki, while also uncovering evidence of secret Antarctic German bases. The author also examines recent, 21st-century examples of alien interdiction in Earthly affairs, such as the meltdown of the Fukushima Daiichi nuclear plant in Japan and the fiery abort of Elon Musk's Falcon 9 missile launch, both events accompanied by UFOs. Offering complete disclosure of the

multitude of ET events over the past century, Frank Joseph gives us the first true reference book in the field of alien military encounters.

SHOCKING.

CONTROVERSIAL.

UNPRECEDENTED. A CASE LIKE UNLIKE ANY OTHER IN THE ANNALS OF UFO INVESTIGATION, DNA RESEARCH, OR ALIEN ABDUCTION. Sydney, Australia. July 23, 1992.

Twenty-eight-year-old Peter Khoury was awoken by what appeared to be two females—both striking and unearthly—kneeling on his bed. What transpired between them was a physical assault as bizarre

and disorienting as it was unnatural. Then, as quickly as they had arrived, they vanished. Khoury had become one of a legion of alien abductees with inexplicable experiences, but this particular incident stood apart from all the others. This time, there was evidence—two strands of white-blond hair from one of the females. Khoury’s case would result in the very first forensic DNA analysis of “alien abduction” evidence and revealed an extraordinary biological

anomaly—one genetically close to human yet almost impossibly far from the human mainstream. A gripping account of one of the great mysteries of our time, *Hair of the Alien*, brings us closer than ever before to understanding our past, our origins, and our place in the universe. Light and Dark Publio Kiadó Kft. PETER A. McCUE examines intriguing reports of people experiencing uncanny events in Britain’s woods and forests, from mysterious lights and

strange animal encounters to ghostly experiences. Much of the reported witness testimony was obtained first-hand by McCue or other researchers. While he draws sceptical conclusions about some of the alleged incidents, he takes others seriously and considers possible explanations. Fully illustrated and written in McCue’s inimitable style, Britain’s Paranormal Forests will make you think again about your next walk in the woods. Operation Terror Infobase

Strange Skies Aurum The author of the controversial bestseller Brain Trust brings his scientific expertise to the chilling true story of unexplained phenomena on Utah's Skinwalker Ranch -- and challenges us with a new vision of reality. For more than fifty years, the bizarre events at a remote Utah ranch have ranged from the perplexing to the wholly

terrifying. Vanishing and mutilated cattle. Unidentified Flying Objects. The appearance of huge, otherworldly creatures. Invisible objects emitting magnetic fields with the power to spark a cattle stampede. Flying orbs of light with dazzling maneuverability and lethal consequences. For one family, life on the Skinwalker Ranch had become a life under siege by an unknown enemy or enemies. Nothing else could explain the horrors that surrounded them -- perhaps science could.

Leading a first-class team of research scientists on a disturbing odyssey into the unknown, Colm Kelleher spent hundreds of days and nights on the Skinwalker property and experienced firsthand many of its haunting mysteries. With investigative reporter George Knapp -- the only journalist allowed to witness and document the team's work -- Kelleher chronicles in superb detail the spectacular happenings the team observed personally, and the theories of modern

physics behind the phenomena. Far from the coldly detached findings one might expect, their conclusions are utterly hair-raising in their implications. Opening a door to the unseen world around us, *Hunt for the Skinwalker* is a clarion call to expand our vision far beyond what we know. **Night Siege** BalboaPress In the latter half of the 1950s a series of unusual events that started with a UFO encounter, continued with a near-death experience, and ended with unusual

transformations of consciousness started me on a journey to Tibetan Buddhism. Several decades passed before I began to suspect that the Tibetan legend of Shambhala might tie these disparate events together. This book is the result.

Hunt for the Skinwalker Autonomedia
Foreword by Jacques F. Vallee
Introduction by Burt Rutan
Commentary by Tom Clancy
A never-before-heard firsthand account of a government insider's experience on

the cutting edge of UFO exploration While still on active duty in the U.S. Army during the 1980s, Colonel John B. Alexander, Ph.D., created an interagency group to explore the controversial topic of UFOs. Participants came from the Army, Navy, Air Force, CIA, NSA, DIA, and the aerospace industry. All members held Top Secret clearance. What they discovered was not at all what was expected. UFOs covers the numerous cases they saw, and answers questions like: •

What was really in Hanger 18? • Did a UFO land at Holloman Air Force Base? • What happened at Roswell? • What is Majestic 12? • What is the Aviary? • What does the government know about UFOs? • What has happened with disclosure in other countries? • Has the U.S. reverse engineered a UFO? • Why don't presidents get access to UFO info? UFOs is at once a complete account of Alexander's findings, and a call to action. There are no conspiracy theories

here—only hard facts—but they are merely the beginning. Serious research is needed in order to understand and anticipate the workings of UFOs, and John Alexander is leading the charge. *Elvis, Marilyn, and the Space Aliens* Tor Books In the #1 New York Times bestselling tradition of *Communion*, Whitely Strieber returns with a terrifying novel of alien occupation We are not alone. Millions of people are confronting aliens that authorities say do not

exist. Meet the Three Thieves, a group of Grays assigned to duty in a small Kentucky town. They have been preparing a child for generations. Innocent Conner Callaghan will face the ultimate terror as he struggles to understand who he has been bred to be, and what he must do to save humanity. Colonel Michael Morax strives to keep the secret of the Grays from the public for reasons so sinister, yet believable, that they read like truth. And Lauren Glass, government

"empath" to the last surviving captive Gray, known only as B for Bob, has a unique ability to communicate with this captive Gray. But when B for Bob suddenly escapes the highly secure underground Air Force facility that he's been captive in for years, a frantic race begins, as the government must outmaneuver the Grays to keep the secret of their presence intact. The Grays is a mind-bending journey behind the curtain of secrecy that surrounds the subject of aliens,

written by the field's great master, Whitley Strieber. If you've never so much as thought about the subject before, this book will make you think deeply, not only about the mystery of who the Grays are, but who exactly we are. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. *Hidden Valley, Hidden Mind* Little, Brown Publisher Fact Sheet A guided tour through the complex world of the UFO/abduction

A history of the various manifestations and shifting meaning of the Twentieth Century's single great contribution to

mythology: the UFO.

The book will also explore the overlaps between UFO belief and religion and superstition. *Britain's Paranormal Forests* Random House Creative Writing for Kids 2019 is for children who
