Highlighting neo-Victorian biofiction's crucial role in reimagining and augmenting the historical archive, this volume explores the complex ethical consequences of a creative movement of historiographic revisionism, combining biography and fiction in a dialectic tension of empathy and voyeuristic spectacle.

We assess the ongoing reform efforts in Japan in terms of inclusive growth. We use prefectural level panel data to regress a measure of inclusive growth, which incorporates both average income growth and income inequality, on macroeconomic and policy variables. Our analysis suggests that achieving the Bank of Japan's 2 percent inflation target has a positive effect on average income growth, but an adverse effect on income equality. The package of structural reforms planned under Abenomics is found to be effective in increasing both average income growth and income equality. The main policy implication of our analysis is that full implementation of structural reforms— especially labor market reforms—is necessary to both foster growth and increase equality.

This volume seeks to explain the political economy of the Abe government and the so-called 'Abenomics' economic policies. The Abe government represents a major turning point in postwar Japanese political economy. In 2019, Abe became the longest serving Prime Minister in Japanese history. Abe's government stood out not only for its longevity, but also for its policies. Abe came to power promising to reinvigorate Japan's economy under the banner of Abenomics. He pursued a host of structural reforms and industrial promotions to increase Japan's potential growth rate. Abe also achieved important legislative victories in security policy. However, the government also faced significant controversies. The book will hold appeal to scholars and students specializing in the study of Japanese politics, comparative political economy, the politics of contemporary advanced democracies, macroeconomic policy, labor market reforms, corporate governance, gender equality, agricultural reforms, energy and climate change, and East Asian security.

Three voices. Three acts of defiance. One mass injustice. The story of camp as you've never seen it before. Japanese Americans complied when evicted from their homes in World War II -- but many refused to submit to imprisonment in American concentration camps without a fight. In this groundbreaking graphic novel, meet JIM AKUTSU, the inspiration for John Okada's No-No Boy, who refuses to be drafted from the camp at Minidoka when classified as a non-citizen, an enemy alien; HIROSHI KASHIWAGI, who resists government pressure to sign a loyalty oath at Tule Lake, but yields to family pressure to renounce his U.S. citizenship; and MITSUYE ENDO, a reluctant recruit to a lawsuit contesting her imprisonment, who refuses a chance to leave the camp at Topaz so that her case could reach the U.S. Supreme Court. Based upon painstaking research, *We Hereby Refuse* presents an original vision of America's past with disturbing links to the American present.

In 1945, Germany and Japan lay prostrate after total war and resounding defeat. By 1960, they had the second and fifth largest economies in the world respectively. This global leadership has been maintained ever since. How did these 'economic miracles' come to pass, and why were these two nations particularly adept at achieving them? Ray Stokes is the first to unpack these questions from comparative and international perspectives, emphasising both the individuals and companies behind this exceptional performance and the broader global political and economic contexts. He highlights the potent mixtures in both countries of judicious state action, effective industrial organisation, benign labour relations, and technological innovation, which they adapted constantly - sometimes painfully - to take full advantage of rapidly growing post-war international trade and globalisation. Together, they explain the spectacular resurgence of Deutschland AG and Japan Incorporated to global economic and technological leadership, which they have sustained to the present.

Whatever this place was, it separated me from my friends. The best way to describe my dilemma was to imagine standing on a ledge. There was a grizzly bear in front of me and an abyss behind. There was no denying the situation. All my buddies were behind the bear shouting incoherently, and they couldn't do anything to help. I had to decide whether to take on the bear or believe the strange voice in my head that said, 'Go ahead. Jump. It'll be all right.' So that's what I did: jump! Whether it made me unpopular or not, I would take the risk and see where I landed. Do you feel like an outsider? Does it seem like everything you do is wrong? Sometimes it's like trouble is lurking in every corner, and it's so hard to not make a mistake. In *Where Are You Going*, Larry faces his own troubles. His band of friends, the Midnight Bike Marauders, keeps disobeying the rules. Susie, the neighborhood's know-it-all tattletale, keeps making Larry lose his temper. And the rival baseball team may steal the big win of the summer. Through all of this, Larry begins to learn more about God and the Bible. Will Larry overcome his problems? Can he learn who will always be there to help him? Larry Bachman weaves the everyday trials of peer pressure, choice, and accountability into Bible-based applications that will help kids with their decision making. From the lessons he learned from his parents and grandmother, Larry is able to show kids that they are not alone in their situations; and there is no experience that God cannot handle.

A nuanced psychological portrait of Abraham Lincoln that finds his legendary political strengths rooted in his most personal struggles. Giving shape to the deep depression that pervaded Lincoln's adult life, Joshua Wolf Shenk's *Lincoln's Melancholy* reveals how this illness influenced both the President's character and his leadership. Mired in personal suffering as a young man, Lincoln forged a hard path toward mental health. Shenk draws on seven years of research from historical record, interviews with Lincoln scholars, and contemporary research on depression to understand the nature of Lincoln's unhappiness. In the process, Shenk discovers that the President's coping strategies—among them, a rich sense of humor and a tendency toward quiet reflection—ultimately helped him to lead the nation through its greatest turmoil. A *New York Times* Book Review Editors' Choice **SELECTED AS A BEST BOOK OF THE YEAR**: *Washington Post* Book World, *Atlanta Journal-Constitution*, *St. Louis Post-Dispatch*, *Pittsburgh Post-Gazette* As Featured on the History Channel documentary *Lincoln* "Fresh, fascinating, provocative."—Sanford D. Horwitt, *San Francisco Chronicle* "Some extremely beautiful prose and fine political rhetoric and leaves one feeling close to Lincoln, a considerable accomplishment."—Andrew Solomon, *New York Magazine* "A profoundly human and psychologically important examination of the melancholy that so pervaded Lincoln's life."—Kay Redfield Jamison, Ph.D., author of *An Unquiet Mind*

This book examines the major security and related issues between the United States, Japan and North Korea (officially, the Democratic People's Republic of Korea - DPRK). Although focusing mainly on current issues, this book also provides sufficient historical background to enable readers to appreciate the many nuances that have been ignored by policymakers, analysts and the media. Where appropriate, the book examines the security interests of other nations in Northeast Asia, specifically South Korea, China and Russia. The central purpose of the book is to objectively analyze the policymaking processes of Washington, Tokyo and Pyongyang with respect to the DPRK's nuclear weapons and other important security issues, and ultimately to provide practical ways to improve the security environment in Northeast Asia. Ongoing security-related issues include nuclear missile testing by the DPRK; its removal from the U.S. list of states sponsoring terrorism, and the abduction of Japanese nationals by North Korean agents that occurred during the 1970s and 1980s. Unlike other books, which typically take the position that North Korea is a rogue state run by an irrational, belligerent and autocratic leader, this book reveals the fundamentals of Pyongyang's security concerns in the region. This book will be of great interest to students of North East Asian politics, Asian security studies, US foreign policy and Security Studies/IR in general.

Visions of Precarity in Japanese Popular Culture and Literature Arihant Publications India limited
Recent natural as well as man-made cataclysmic events have dramatically changed the status quo of contemporary Japanese society, and following the Asia-Pacific war's never-ending 'postwar' period, Japan has been dramatically forced into a zeitgeist of saigo or 'post-disaster.' This radically new worldview has significantly altered the socio-political as well as literary perception of one of the world's potential superpowers, and in this book the contributors closely examine how Japan's new paradigm of precarious existence is expressed through a variety of pop-cultural as well as literary media. Addressing the transition from post-war to post-disaster literature, this book examines the rise of precarity consciousness in Japanese socio-cultural discourse. The chapters investigate the extent to which we can talk about the emergence of a new literary paradigm of precarity in the world of Japanese popular culture. Through careful examination of a variety of contemporary texts ranging from literature, manga, anime, television drama and film this study offers an interpretation of the many dissonant voices in Japanese society. The contributors also outline the related social issues in Japanese society and culture, providing a comprehensive overview of the global trends that link Japan with the rest of the world. *Visions of Precarity in Japanese Popular Culture and Literature* will be of great interest to students and scholars of contemporary Japan, Japanese culture and society, popular culture and social and cultural history.
