The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm..

Is-26 Guide to Points of Distribution Woodyard Publications
Points of Distribution . Points of Distribution are centralized locations where the public picks up life sustaining commodities following a disaster or emergency . Commodities usually include shelf stable food and water What are Points of Distribution or PODs? During a disaster, one method of issuing supplies may not be enough. A Local Emergency Management Agency (LEMA) could use other distribution systems or use all of them at once. All three complement each other and provide expanded distribution coverage. For this Guide, we will focus on Points of Distribution or PODs. PODs can accommodate vehicle traffic (drive-thru), pedestrian traffic (walk thru), and mass transit traffic (bus or rail). Each person or vehicle receives a set amount of supplies. The recommended amount is for each person/vehicle to receive enough for a household of three. The amount of supplies provided will differ depending on the type of transportation used. For instance, more supplies are provided to someone in a car than to a pedestrian who must hand carry items."

The Founding Fathers of the United States of America created the first free people in modern times. They wrote a new kind of Constitution which is now the oldest in existence. They built a new kind of commonwealth designed as a model for the whole human race. They believed it was thoroughly possible to create a new kind of civilization; giving freedom, equality, and justice to all. The Founders created a new cultural climate that gave wings to the human spirit. They built a free-enterprise culture to encourage industry and prosperity. They gave humanity the needed ingredients for a gigantic 5,000-year leap in which more progress has been made in the past 200 years than all of prior

recorded human history. All of this came about because of 28 basic principles the Founders discovered, upon which all free nations must be built in order to succeed.
