The Rise and Fall of an Empire, 753 B.C.-A.D. 476 Amberley Pub Plc

Who were the first Britons, and what sort of world did they occupy? In A History of Ancient Britain, much-loved historian Neil Oliver turns a spotlight on the very beginnings of the story of Britain; on the first people to occupy these islands and their battle for survival. There has been human habitation in Britain, regularly interrupted by Ice Ages, for the best part of a million years. The last retreat of the glaciers 12,000 years ago brought a new and warmer age and with it, one of the greatest tsunamis recorded on Earth which struck the north-east of Britain, devastating the population and flooding the low-lying plains of what is now the North Sea. The resulting island became, in time, home to a diverse range of cultures and peoples who have left behind them some of the most extraordinary and enigmatic monuments in the world. Through what is revealed by the artefacts of the past, Neil Oliver weaves the epic story - half a million years of human history up to the departure of the Roman Empire in the Fifth Century AD. It was a period which accounts for more than ninety-nine per cent of humankind's presence on these islands. It is the real story of Britain and of her people.

The Roman Republic Harvard University Press

A visual history of ancient Rome includes hundreds of images, maps and battle plans, sharing expert insights into the empire's rise and fall while providing coverage of its campaigns, generals and leaders.

Ancient Rome: The Rise and Fall of an Empire Weidenfeld & Nicolson

The rise of the Roman Empire laid the foundations for the development of much of Europe. This book is a chronological account of the formation, battles and campaigns of the Roman state, from the foundation and growth of the city under the Seven Kings, to the epic Republican struggle with Carthage, and the expansion throughout the Mediterranean.

Rivers and the Power of Ancient Rome Yale University Press

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE KANSAS CITY STAR From Anthony Everitt, the bestselling author of acclaimed biographies of Cicero, Augustus, and Hadrian, comes a riveting, magisterial account of Rome and its remarkable ascent from an obscure agrarian backwater to the greatest empire the world has ever known. Emerging as a market town from a cluster of hill villages in the eighth and seventh centuries B.C., Rome grew to become the ancient world's preeminent power. Everitt fashions the story of Rome's rise to glory into an erudite page-turner filled with lasting lessons for our time. He chronicles the clash between patricians and plebeians

that defined the politics of the Republic. He shows how Rome's shrewd strategy of offering citizenship to her defeated subjects was instrumental in expanding the reach of her burgeoning empire. And he outlines the corrosion of constitutional norms that accompanied Rome's imperial expansion, as old habits of political compromise gave way, leading to violence and civil war. In the end, unimaginable wealth and power corrupted the traditional virtues of the Republic, and Rome was left triumphant everywhere except within its own borders. Everitt paints indelible portraits of the great Romans—and non-Romans—who left their mark on the world out of which the mighty empire grew: Cincinnatus, Rome's George Washington, the very model of the patrician warrior/aristocrat; the brilliant general Scipio Africanus, who turned back a challenge from the Carthaginian legend Hannibal; and Alexander the Great, the invincible Macedonian conqueror who became a role model for generations of would-be Roman rulers. Here also are the intellectual and philosophical leaders whose observations on the art of government and "the good life" have inspired every Western power from antiquity to the present: Cato the Elder, the famously incorruptible statesman who spoke out against the decadence of his times, and Cicero, the consummate orator whose championing of republican institutions put him on a collision course with Julius Caesar and whose writings on justice and liberty continue to inform our political discourse today. Rome's decline and fall have long fascinated historians, but the story of how the empire was won is every bit as compelling. With *The Rise of Rome*, one of our most revered chroniclers of the ancient world tells that tale in a way that will galvanize, inform, and enlighten modern readers. Praise for *The Rise of Rome* "Fascinating history and a great read."—Chicago Sun-Times "An engrossing history of a relentlessly pugnacious city's 500-year rise to empire."—Kirkus Reviews "Rome's history abounds with remarkable figures. . . . Everitt writes for the informed and the uninformed general reader alike, in a brisk, conversational style, with a modern attitude of skepticism and realism."—The Dallas Morning News "[A] lively and readable account . . . Roman history has an uncanny ability to resonate with contemporary events."—Maclean's "Elegant, swift and faultless as an introduction to his subject."—The Spectator "[An] engaging work that will captivate and inform from beginning to end."—Booklist

Historical Atlas of Ancient Rome Penguin Books

The events and personalities of ancient Rome spring to life in this history, from its founding in 753 B.C. to the death of the philosopher-emperor Marcus Aurelius in A.D. 180. Paul A. Zoch presents, in contemporary language, the history of Rome and the stories of its protagonists?such as Romulus and Remus, Horatius, and Nero-which are so often omitted from more specialized studies. With an eye detail, Zoch guides his readers through the military campaigns and political developments that shaped Rome's rise from a small Italian city to the greatest imperial power the world had ever known. We witness the long struggle against the enemy city of Carthage. We follow Caesar as he campaigns in Britain, and we observe the ebb and flow of Rome's fortunes in the Hellenistic East. Writing with the belief that such stories contain moral lessons that are relevant today, Zoch presents a narrative that is both entertaining and informative. An afterword takes the history to the fall of the Roman Empire in the West in A.D. 476.

Empire of Ancient Rome UNC Press Books

Spanning a thousand years, and following the shifting fortunes of two families through the ages, this is the epic saga of Rome, the city and its people. Weaving history, legend, and new archaeological discoveries into a spellbinding narrative, critically acclaimed novelist Steven Saylor gives new life to the drama of the city's first thousand years — from the founding of the city by the ill-fated twins Romulus and Remus, through Rome's astonishing ascent to become the capitol of the most powerful empire in history. Roma recounts the tragedy of the hero-traitor Coriolanus, the capture of the city by the Gauls, the invasion of Hannibal, the bitter political struggles of the patricians and plebeians, and the ultimate death of Rome's republic with the triumph, and assassination, of Julius Caesar. Witnessing this history, and sometimes playing key roles, are the descendants of two of Rome's first families, the Potitius and Pinarious clans: One is the confidant of Romulus. One is born a slave and tempts a Vestal virgin to break her vows. One becomes a mass murderer. And one becomes the heir of Julius Caesar. Linking the generations is a mysterious talisman as ancient as the city itself. Epic in every sense of the word, Roma is a panoramic historical saga and Saylor's finest achievement to date.

A History of Ancient Britain Spellmount, Limited Publishers

*Includes pictures *Includes ancient accounts *Includes online resources and a bibliography for further reading "Rome was a poem pressed into service as a city." In that short line, Anatole Broyard, a 20th century American writer, compactly captures the timeless and enchanting beauty that resides within the Eternal City of Rome. This tourist destination is often one of the highest ranked on bucket lists, for how could one not want to experience its marvelous ruins, mirror-like rivers, and spectacular stretches of aqueducts firsthand? As one sips on fine Italian wine on a terrace overlooking the grand remnants of the Colosseum, one can practically hear the roars of the battling gladiators and the raucous applause of the spectators. And as one strolls through the coarse, yet quaint cobblestone streets, one can almost hear the galloping horses and screeching wheels of chariots in the distance, and even feel the brush of the breeze as they charge past. It is difficult not to fall in love with a city so effortlessly nostalgic it verges on utopian. The ambitious and fearless emperors that built the legendary Roman Empire from scratch, the broad-shouldered and bronzed gladiators with their iconic plume helmets and glinting swords, and elaborate parties attended by toga-wearing Romans fueled by alcohol, violence, orgies, and other godless acts all paint a picture of Roman life. Indeed, many people are well-versed with these unique scenes of Roman history, but few are familiar with the equally riveting years preceding the dawn of the Roman Republic, and even less people are acquainted with the fabled Seven Hills sitting east of the Tiber River - the core geographical components of Rome, and the very foundations that the Eternal City was built on. The study of Roman history is usually divided into three distinct phases: the time of the Kings, the Roman Republic, and the Roman Empire. Roman tradition dated the foundation of Rome to 753 BCE, and this first period of its history ended with the overthrow of King Tarquinius Superbus in 510 BCE. There is very little remaining historical evidence pertaining to this period, so much of what is known is at best legend, possibly based on varying degrees of historical fact. Archaeology has uncovered some details that do tie in with the myths and stories from the era, but by and large it is a period about which little is definitively known. The period of the Roman Republic, generally dated from 509-27 BCE, is an entirely different matter. There is significant documentation that enables historians to analyze how Rome cemented its position within the Italian peninsula before pushing ever outward to create the new provinces that formed the core of the vast Roman Empire in the third phase that came to dominate all of Europe for so long. The period of the Republic saw those with the emerging powers having to grapple with new political situations, the administration of a diverse domain while contending with political disorder at home, commercial and financial expansion, and complex issues of land distribution, the role of the military, new ideas in religion, and the emergence of new class systems. These years were certainly vibrant and laid the foundations of such characteristics as Roman discipline and the ability to adapt, as well as witnessing the formation of its political structure. The unique farmer-soldier society evolved to the extent that a few Roman citizens were able to dominate their world and time. It was not a tranquil era, but it was one in which those interested in new ideas and philosophies could thrive, and in which the conflicts between the aspirations of the great Roman philosophers and the pragmatically minded senior political and military figures drove the formation of the Roman state and provided the bedrock for its success.

Ancient Rome Random House

#1 Best Seller - Learn the Epic Story of the Roman Empire!Are you fascinated by Ancient Rome? Would you like to know more about Caesar, Augustus, and Constantine? Is it time to dig in and really get to know this culture that shaped the world for millennia?When you purchase *Rome: Rise and Fall of the Roman Empire*, your knowledge will expand every day! The Rise and Fall of the Roman Kingdom Amberley Pub Plc

Author and historian Tom Holland returns to his roots in Roman history and the audience he cultivated with *Rubicon*—his masterful, witty, brilliantly researched popular history of the fall of the

Roman republic—with *Dynasty*, a luridly fascinating history of the reign of the first five Roman emperors. *Dynasty* continues *Rubicon's* story, opening where that book ended: with the murder of Julius Caesar. This is the period of the first and perhaps greatest Roman Emperors and it's a colorful story of rule and ruination, running from the rise of Augustus through to the death of Nero. Holland's expansive history also has distinct shades of I Claudius, with five wonderfully vivid (and in three cases, thoroughly depraved) Emperors—Augustus, Tiberius, Caligula, Claudius, and Nero—featured, along with numerous fascinating secondary characters. Intrigue, murder, naked ambition and treachery, greed, gluttony, lust, incest, pageantry, decadence—the tale of these five Caesars continues to cast a mesmerizing spell across the millennia.

From the Iron Age to the Punic Wars Createspace Independent Publishing Platform

This year 2014 marks the 100 years centenary of the First World War, one of the most destructive and world changing conflicts in the history of mankind. The Rise of the Roman Empire Scholastic Inc.

The rise and fall of the Roman World is one of the most fascinating stories in history. This book traces the historical, cultural and political development of the small Iron Age tribe on the banks of the River Tiber who developed into the rulers of an empire that dominated the Western world. While her legionaries brought Roman rule to the far corners of Europe and the Middle East, her poets, architects, politicians and philosophers were creating a cultural legacy that still survives today. In this ambitious and lavishly illustrated book, the history of this remarkable people has been traced, allowing readers a clear and concise insight into the Roman World. Use the well-researched text, superb maps, specially commissioned artwork, and copious photographs the Atlas of Ancient Rome to follow the origins, rise, decline, and fall of the greatest empire the world has ever known.

Ancient Rome & the Rise & Fall Lorenz Books

The biographies collected in this volume bring together Plutarch's Lives of those great men who established the city of Rome and consolidated its supremacy, and his Comparisons with their notable Greek counterparts. Here he pairs Romulus, mythical founder of Rome, with Theseus, who brought Athens to power, and compares the admirable Numa and Lycurgus for bringing order to their communities, while Titus Flaminus and Philopoemen are portrayed as champions of freedom. As well as providing an illuminating picture of the first century AD, Plutarch depicts complex and nuanced heroes who display the essential virtues of Greek civilization - courage, patriotism, justice, intelligence and reason - that contributed to the rise of Rome. These new and revised translations by W. Jeffrey Tatum and Ian Scott-Kilvert capture Plutarch's elegant prose and narrative flair. This edition also includes a general introduction, individual introductions to each of the Lives and Comparisons, further reading and notes. *The Rise of Rome* is the penultimate title in Penguin Classics' complete revised Plutarch in six volumes. Other titles include *Rome In Crisis*, *On Sparta*, *Fall of the Roman Republic*, *The Age of Alexander* and *The Rise and Fall of Athens* (forthcoming 2014).

Are We Rome? Daniel Turner

"A must for anyone interested in the Roman Empire and its impact on world history." —Tony Robinson star of *Blackadder* and *Time Team*. Guy de la Bédoyère is a historian, archaeologist, and Roman expert, he is well known for his numerous books and appearances on TV, especially Channel 4's *Time Team*.

Ancient Rome the Rise A Running Press

Beginning in the eighth century B.C., Ancient Rome grew from a small town on central Italy's Tiber River into an empire that at its peak encompassed most of continental Europe, Britain, much of

western Asia, northern Africa and the Mediterranean islands. Among the many legacies of Roman dominance are the widespread use of the Romance languages (Italian, French, Spanish, Portuguese and Romanian) derived from Latin, the modern Western alphabet and calendar and the emergence of Christianity as a major world religion. After 450 years as a republic, Rome became an empire in the wake of Julius Caesar's rise and fall in the first century B.C. The long and triumphant reign of its first emperor, Augustus, began a golden age of peace and prosperity; by contrast, the empire's decline and fall by the fifth century A.D. was one of the most dramatic implosions in the history of human civilization. As legend has it, Rome was founded by Romulus and Remus, twin sons of Mars, the god of war. Left to drown in a basket on the Tiber by a king of nearby Alba Longa and rescued by a she-wolf, the twins lived to defeat that king and found their own city on the river's banks in 753 B.C. After killing his brother, Romulus became the first king of Rome, which is named for him. A line of Sabine, Latin and Etruscan (earlier Italian civilizations) kings followed in a non-hereditary succession. Rome's era as a monarchy ended in 509 B.C. with the overthrow of its seventh king, Lucius Tarquinius Superbus, whom ancient historians portrayed as cruel and tyrannical, compared to his benevolent predecessors. A popular uprising was said to have arisen over the rape of a virtuous noblewoman, Lucretia, by the king's son. Whatever the cause, Rome turned from a monarchy into a republic, a world derived from *res publica*, or

"property of the people." Scroll to the top of the page and click buy now to learn more about this exciting period of history
