AQA Chemistry: A Level Cambridge University Press

Please note this title is suitable for any student studying: Exam Board: OCR Level: A Level Year 1 and AS Subject: Physics First teaching: September 2015 First exams: June 2016 Written by curriculum and specification experts, this Student Book supports and extends students throughout their course whilst delivering the breadth, depth, and skills needed to succeed at A Level and beyond.

A-level Physics Oxford University Press - Children

A student resource that supports readers through the transition from GCSE to Further Education. It integrates 'How Science Works' throughout to help students understand the underlying principles of science. It includes worked examples and exam-style questions that demonstrate how to approach complex questions.

Modules 5 and 6 (2nd Year) Revision Notes - OCR a Level Physics Oxford University Press - Children

This book has been written for modules 5 and 6 (the second year) of the OCR A Level Physics A (H556) course by University of Cambridge student Joe Harris. It groups information into detailed sets of bullet points - rather than big paragraphs - making it simple to revise and learn from, and has been written to match the specification. To download a .pdf preview, visit <https://www.joeharris.me/physics-revision-guide>
A Level Physics for OCR A Student Book Oxford University Press - Children

Our Revision Workbooks are designed to help students develop vital skills throughout the course and build their confidence in preparation for the exam, with guided questions, unguided questions, practice papers and a full set of answers.

Student book Heinemann Secondary

A new resource for the 2008 OCR specification providing supportive features and increased flexibility in teaching OCR A Level Science. The trusted choice for the 2008 OCR Specification. Physics 1 clearly explains concepts and is supported by a CD-ROM in the back of the books that provides extra information and links to a free website full of e-learning activities. The book comes with an interactive PDF CD-ROM that provides extra information for rapid advancement for pupils requiring it, without creating a heavy and intimidating book. The CD-ROM links to a free website full of e-learning activities, promoting independent and extension learning.

A2-Level Physics OCR a Revision Guide Cambridge University Press

Created for the new 2015 OCR AS and A level specifications, our new Student Books cover the topics comprehensively, developing scientific thinking in your students, providing them with a deep understanding of the subject and creating confident, independent scientists.

A Level Advancing Physics for OCR Student Book Oxford University Press - Children

Written by curriculum and specification experts, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new AS and beyond. It develops true subject knowledge while also developing essential exam skills.

Ocr a Year 1 & 2 Complete Revision & Practice with A Level Physics a for OCR Year 2 Student Book Written by curriculum and specification experts, this student book supports and extends students through the new course whilst delivering the breadth, depth, and skills needed to succeed in the new AS and beyond.

A Level Physics for OCR A: Year 1 and AS
 Fully revised and updated content matching the Cambridge International Examinations 9702 syllabus for first examination in 2016. Endorsed by Cambridge International Examinations, this digital edition comprehensively covers all the knowledge and skills students need during the A Level Physics course (9702), for first examination in 2016, in a reflowable format, adapting to any screen size or device. Written by renowned experts in Physics teaching, the text is written in an accessible style with international learners in mind. Self-assessment questions allow learners to track their progress, and exam-style questions help learners to prepare thoroughly for their examinations. Answers to all the questions from within the Coursebook are provided.

A-Level Year One and AS Physics Coordination Group Publication

New 2017 Cambridge A Level Maths and Further Maths resources to help students with learning and revision. Written for the OCR AS/A Level Mathematics specifications for first teaching from 2017, this print Student Book covers the content for AS and the

first year of A Level. It balances accessible exposition with a wealth of worked examples, exercises and opportunities to test and consolidate learning, providing a clear and structured pathway for progressing through the course. It is underpinned by a strong pedagogical approach, with an emphasis on skills

development and the synoptic nature of the course. Includes answers to aid independent study.

OCR A LEVEL PHYSICS A STUDENT BOOK 2

A2-Level Physics OCR A Complete Revision & Practice

A-Level Physics

Written by curriculum and specification experts, this student book

supports and extends students through the new linear course while delivering the breadth, depth, and skills needed to succeed in the new A Levels and beyond. Unlike other specification-specific books, this book develops true subject knowledge while developing essential exam skills.
