CARNEY ESERALDA

Good Muslim, Bad Muslim Searching for Solace

"Discusses the fundamental assumptions regarding the foundations of Pakistani nationalism as well as our current understanding of the roots of its postcolonial identity crisis"--

What the Nation Doesn't Know (Revised & Enlarged) Oxford University Press, USA

'This book has remarkable potential for infusing Asian themes into academic curriculums...a topic of great interest and importance.' Dr. Abdul Jabbar, "Choice, Education About Asia" 'Jaffrelot and his distinguished team make clear that Musharraf's attitude to the Islamist agenda is fraught with ambiguity and irony.' "International Affairs " " A History of Pakistan and its Origins" is a comprehensive, detailed and fully up-to-date study of one of the most diverse, volatile and strategically significant countries in the world today. Born in turmoil barely half a century ago, Pakistan seems to be in an interminable pursuit of its own identity and at the same time finds itself a pivotal player in world politics. Its short existence has witnessed much: four coups d'etat; the rise of Islam as a power; tensions between ethnic, religious and separatist movements; the Kashmir conflict and the near-constant war footing with India. Written by an internationally renowned team of scholars, A History of Pakistan and its Origins covers historical, social, economic, political and religious aspects of this fascinating country and includes an up-to-date and in-depth analysis of recent events. It will appeal to experts, students and general readers alike.

The Journey from Indian Nationalism to Muslim Statehood Hurst Publishers

Nearly seven million Muslims live in the United States today, and their relations with non-Muslims are strained. Many Americans associate Islam with figures such as Osama bin Laden, and they worry about "homegrown terrorists." To shed light on this increasingly important religious group and counter mutual distrust, renowned scholar Akbar Ahmed conducted the most comprehensive study to date of the American Muslim community. *Journey into America* explores and documents how Muslims are fitting into U.S. society, placing their experience within the larger context of American identity. This eye-opening book also offers a fresh and insightful perspective on American history and society. Following up on his critically acclaimed *Journey into Islam: The Crisis of Globalization* (Brookings, 2007), Ahmed and his team of young researchers traveled for a year through more than seventyfive cities across the United States—from New York City to Salt Lake City; from Las Vegas to Miami; from the large Muslim enclave in Dearborn, Michigan, to small, predominantly white towns like Arab, Alabama. They visited homes, schools, and over one hundred mosques to discover what Muslims are thinking and how they are living every day in America. In this unprecedented exploration of American Muslim communities, Ahmed asked challenging questions: Can we expect an increase in homegrown terrorism? How do American Muslims of Arab descent differ from those of other origins (for example, Somalia or South Asia)? Why are so many white women converting to Islam? How can a Muslim become accepted fully as an "American," and what does that mean? He also delves into the potentially sticky area of relations with other religions. For example, is there truly a deep divide between Muslims and Jews in America? And how well do Muslims get along with other religious groups, such as Mormons in Utah? *Journey into America* is equal parts anthropological research, listening tour, and travelogue. Whereas Ahmed's previous book took the reader into homes, schools, and mosques in the Muslim world, his new quest takes us into the heart of America and its Muslim communities. It is absolutely essential

reading for anyone trying to make sense of America today.

First published in 1994. Routledge is an imprint of Taylor & Francis, an informa company.

[The Ahmadis and the Politics of Religious Exclusion in Pakistan](#) Cambridge University Press

Saleena Karim's *Secular Jinnah & Pakistan: What the Nation Doesn't Know* is a unique study of M.A. Jinnah, founder of Pakistan, and his ideological convictions. Seven years after it was originally published, the book has been thoroughly revised and new material has been added, including updates in light of recent scholarship; commentary on how the ideological divide has affected the education curriculum; discussion of Bengal in the ideological context, with a full review of the controversy over the Delhi Resolution of 1946; details of how Chief Justice Munir and Governor-General Ghulam Mohammed justified the first dictatorship of Pakistan; notes on Scheduled Caste leader J.N. Mandal's political support of the Muslim League; assessment of resistance to socialist economic reforms by landlords backed by religious leaders; accounts of provincial politics; evidence from early Muslim sources that support the progressive thinking of Pakistan's founders; extensive reviews of works only touched upon in the previous edition; appraisal of Jinnah's powers as a person as well as a statesman; and more. Popularly known for having revealed that a false quote ascribed to Pakistan's founder is still being used as part of the standard argument for a 'secular Jinnah', the book's most important contribution is its argument that while scholarship recognises three ideological categories in Pakistan - religious, secular, and synthesist - Jinnah belongs to a fourth, and this has yet to be explored.

A Simple And Absorbing Narrative Of The Life And Times Of Shaista Suhrawardy Ikramullah. The Account Covers The Days Of The British Raj And Its Aftermath.

The Idea of Pakistan OUP India

In recent years Pakistan has emerged as a strategic player on the world stage—both as a potential rogue state armed with nuclear weapons and as an American ally in the war against terrorism. But our understanding of this country is superficial. To probe beyond the headlines, Stephen Cohen, author of the prize-winning *India: Emerging Power*, offers a panoramic portrait of this complex country—from its origins as a homeland for Indian Muslims to a military-dominated state that has experienced uneven economic growth, political chaos, sectarian violence, and several nuclear crises with its much larger neighbor, India. Pakistan's future is uncertain. Can it fulfill its promise of joining the community of nations as a moderate Islamic state, at peace with its neighbors, or could it dissolve completely into a failed state, spewing out terrorists and nuclear weapons in several directions? The Idea of Pakistan will be an essential tool for understanding this critically important country.

[Reimagining Pakistan](#) Routledge

This book is the first systematic assessment of current trends and patterns of militancy in Shii communities in the Middle East and South Asia - specifically in Iran, Iraq, but also in Lebanon, Saudi Arabia, Pakistan, Afghanistan, Kuwait, and Bahrain More than thirty years after the Islamic Revolution in Iran, there are signs of a growing assertiveness on the part of Shii actors, at times erupting into political violence. The book addresses two key questions: What trends emerge in the types of militancy Shii actors employ both inside and outside of the Shii heartland? And what are the main drivers of militancy in the Shii community? The editor concludes that although at present Shii assertiveness does not take on a predominantly militant form, a 'subculture of violence' does exist among most Shii communities examined here, and suggests five key drivers of political violence among Shiis: the impact of Iran; nationalism and anti-imperialism; Shii self-protection and communal advancement; mahdism; and organizational dynamics. This book will be of great interest to students and researchers of terrorism studies and political violence, war and conflict studies, and IR/Security Studies in general.

[Jinnah Reinterpreted](#) Conran Octopus

Every generation needs to reinterpret its great men of the past. Akbar Ahmed, by revealing Jinnah's human face alongside his heroic achievement, both makes this statesman accessible to the current age and renders his greatness even clearer than before. Four men shaped the end of British rule in India: Nehru, Gandhi, Mountbatten and Jinnah. We know a great deal about the first three, but Mohammed Ali Jinnah, the founder of Pakistan, has mostly either been ignored or, in the case of Richard Attenborough's hugely successful film about Gandhi, portrayed as a cold megalomaniac, bent on the bloody partition of India. Akbar Ahmed's major study redresses the balance. Drawing on history, semiotics and cultural anthropology as well as more conventional biographical techniques, Akbar S. Ahmad presents a rounded picture of the man and shows his relevance as contemporary Islam debates alternative forms of political leadership in a world dominated (at least in the Western media) by figures like Colonel Gadaffi and Saddam Hussein.

[His Successes, Failures and Role in History](#) Orient Blackswan

In 1916-17 Mohammed Ali Jinnah persuaded the warring Hindu and Muslim politicians to sign a pact for an agreed future constitution of a united India. For this he was hailed as Ambassador of Hindu-Muslim Unity. Thirty years later, he brought about Partition. What was responsible for this change?

Personal ambition? British intrigues or Hindu obduracy? This book questions many of the myths that have grown around India's struggle for independence and highlights many factors that have been deliberately suppressed by historians on both sides of the border.

[Religious Minorities in Pakistan](#) Yale University Press

The first book to explore the modern history of Islam in South Asia The first modern state to be founded in the name of Islam, Pakistan was the largest Muslim country in the world at the time of its establishment in 1947. Today it is the second-most populous, after Indonesia. Islam in Pakistan is the first comprehensive book to explore Islam's evolution in this region over the past century and a half, from the British colonial era to the present day. Muhammad Qasim Zaman presents a rich historical account of this major Muslim nation, insights into the rise and gradual decline of Islamic modernist thought in the South Asian region, and an understanding of how Islam has fared in the contemporary world. Much attention has been given to Pakistan's role in sustaining the Afghan struggle against the Soviet occupation in the 1980s, in the growth of the Taliban in the 1990s, and in the War on Terror after 9/11. But as Zaman shows, the nation's significance in matters relating to Islam has much deeper roots. Since the late nineteenth

century, South Asia has witnessed important initiatives toward rethinking core Islamic texts and traditions in the interest of their compatibility with the imperatives of modern life. Traditionalist scholars and their institutions, too, have had a prominent presence in the region, as have Islamism and Sufism. Pakistan did not merely inherit these and other aspects of Islam. Rather, it has been and remains a site of intense contestation over Islam's public place, meaning, and interpretation. Examining how facets of Islam have been pivotal in Pakistani history, Islam in Pakistan offers sweeping perspectives on what constitutes an Islamic state.

[Resistance and Control in Pakistan](#) Harmony

Self and Sovereignty surveys the role of individual Muslim men and women within India and Pakistan from 1850 through to decolonisation and the partition period. Commencing in colonial times, this book explores and interprets the historical processes through which the perception of the Muslim individual and the community of Islam has been reconfigured over time. Self and Sovereignty examines the relationship between Islam and nationalism and the individual, regional, class and cultural differences that have shaped the discourse and politics of Muslim identity. As well as fascinating discussion of political and religious movements, culture and art, this book includes analysis of: * press, poetry and politics in late nineteenth century India * the politics of language and identity - Hindi, Urdu and Punjabi * Muslim identity, cultural difference and nationalism * the Punjab and the politics of Union and Disunion * the creation of Pakistan Covering a period of immense upheaval and sometimes devastating violence, this work is an important and enlightening insight into the history of Muslims in South Asia.

[Jinnah](#) Routledge

The popularity of the Muslim League and its idea of Pakistan has been measured in terms of its success in achieving the goal of a sovereign state in the Muslim majority regions of North West and North East India. It led to an oversight of Muslim leaders and organizations which were opposed to this demand, predicating their opposition to the League on its understanding of the history and ideological content of the Muslim nation. This volume takes stock of multiple narratives about Muslim identity formation in the context of debates about partition, historicizes those narratives, and reads them in the light of the larger political milieu of the period. Focusing on the critiques of the Muslim League, its concept of the Muslim nation, and the political settlement demanded on its behalf, it studies how the movement for Pakistan inspired a contentious, influential conversation on the definition of the Muslim nation.

Fatima Jinnah Carnegie Endowment

How can people in the West make sense of contemporary unrest in the Muslim world? Is Islamic fundamentalism to be understood purely in religious terms? In *Resistance and Control in Pakistan*, one of the world's leading authorities on Islam, Akbar S. Ahmed, illuminates what is happening in the Muslim world today and assesses the underlying causes. He does this by telling the dramatic story of the revolt of the Mullah of Waziristan in northwest Pakistan and by placing it within the context of other movements occurring elsewhere in the Islamic world. He also examines the social structure and operative principles in Muslim society and scrutinizes the influence of religion in a society that is undergoing modernization. Till now, there has been little available literature on this topic. This book, written by an eminent scholar with an international reputation fills this gap, giving students of politics, sociology and Asian studies a revealing examination of the Muslim world today.

[Jinnah, Pakistan and Islamic Identity](#) Routledge

"Muslim Zion" argues that Pakistan has never been a nation-state, grounded in the historic connections of lands and peoples. Just as Israel is the only Jewish state, Pakistan is the only Muslim state to make religion the sole basis of its nationality. Faisal Devji offers a penetrating critique of founding a state on nothing but the idea of belonging.

[Instability And Resilience](#) Cambridge University Press

This book examines the cultural responses of Muslims to the transformations, contradictions and challenges confronting contemporary Islam as it moves towards the twenty-first century. The diffusion of populations, the globalization of culture and the forces of postmodernity have shaken the world like never before. These developments have generated a debate among Muslims which, as the contributors to this volume show, will have far-reaching consequences not just for the Muslim world, but for relations between Islam and the West more generally.

'Ayesha Jalal's book is an important scholarly account of ... the partition of India in 1947.' American Historical Review

Making Sense of Pakistan Brookings Institution Press

Among U.S. allies in the war against terrorism, Pakistan cannot be easily characterized as either friend or foe. Nuclear-armed Pakistan is an important center of radical Islamic ideas and groups. Since 9/11, the selective cooperation of president General Pervez Musharraf in sharing intelligence with the United States and apprehending al Qaeda members has led to the assumption that Pakistan might be ready to give up its longstanding ties with radical Islam. But Pakistan's status as an Islamic ideological state is closely linked with the Pakistani elite's worldview and the praetorian ambitions of its military. This book analyzes the origins of the relationships between Islamist groups and Pakistan's military, and explores the nation's quest for

identity and security. Tracing how the military has sought U.S. support by making itself useful for concerns of the moment—while continuing to

strengthen the mosque-military alliance within Pakistan—Haqqani offers an alternative view of political developments since the country's independence in 1947.
