Ace, Reaper and Echo return in the heart pounding Part 2 of The Savior Series.

The fate of our world hangs in the balance as these teenagers turned superheroes fight to stop the spread of The Stranger menace and figure out The Righteous' plans for Earth before it's too late. They will all be tested like never before and for the first time in his life, The Reaper will find himself pitted against an opponent whose powers far exceed his own. -----

----- "The death of The Suspect was only the beginning... After news of his demise was made public, The Strangers rallied around their fallen leader and rose from the obscurity of anonymity to plunge the country into chaos war. To make matters worse, half the country's civilian population actually supported the Stranger movement. Their message of "taking back our country" seemed to resonate well with the growing number of ultranationalists who had no idea that they were all simply being manipulated by the shadowy terrorist known only as The Righteous. He had his mysterious hand in everything; our national politics and foreign policy-even our economy. At that point, I still knew just as little about him as I did two years ago. All I knew was that he and some of his followers were from a planet called Eden and that they had once been prisoners of the United States government. I knew nothing of the circumstances that brought them to our planet or of how they ended up in U.S. custody, but I did know that somehow they had managed to escape, and since then The Righteous had led a global shadow war against the United

States of America and its allies. From darkness he had slowly and methodically turned the world against us and with the help of The Strangers he had now managed to turn us against ourselves." -

Sequel to *The Heretic*, Book 10 in the nationally best-selling General series. FROM HERETIC TO SAVIOR Duisberg is one of thousands of planets plunged into darkness and chaos by the collapse of the galactic republic, but where other worlds have begun to rebuild a star-travelling culture, Duisberg remains in an uneasy balance between mud-brick civilization and bloodthirsty barbarism. The people of Duisberg have a goZentrum, a supercomputer from the ancient past. Zentrum has decided avoid another collapse by preventing civilization from rising from where it is. This is known as the Stasis. And because even a supercomputer and the powerful religion which it founded cannot block all progress, Zentrum has another tool:

every few centuries the barbarians sweep in from the desert, slaughtering the educated classes and cowing the peasants back into submission. These are the Blood Winds, and the Blood Winds are about to blow again. This time, however, there's a difference: Abel Dashian, son of a military officer, has received into his mind the spirit of Raj Whitehall, the most successful general in the history of the planet Bellevue and of Center, the supercomputer which enabled Raj to shatter his planet's barbarians and permit the return of civilization. What if the MOST DANGEROUS man on

Earth was also the one trying to do the MOST GOOD? The world is real. The people are normal. And then he appears! A man appears with no background, no memory, and no place to call home. But he has powers. Powers that seem resemble those we learned about in Sunday School. Could it be?! Is it possible that this man is much, much more than that? Is it possible that he is our 'SAVIOR' in the flesh? And if he is, then why doesn't he know who he is or how he got his powers? Strip away the spandex and trappings of the traditional comic superhero and ask yourself a simple question: 'How would I react if GOD suddenly appeared in front of me, but everything we had been taught about him seems out of whack?' What you would have left, beyond your own doubts, is the presence of a man who has to deal with the fact that his appearance in the world is seen as both a blessing and a curse. Some will see him as a hero, a messiah. Other will see him as an enemy because there isn't room for a person with god-like powers to disrupt the status quo of what we already believe. Some will rally behind him. Others will denounce him. But none of us will be able to ignore him.

The Reluctant Savior Rafer Alexander is the sole survivor of a plane crash over Sikkim in which his two parents and brother have been killed. After trekking down the mountainside, he is rescued by monks from a Tibetan monastery where he learns to deal with his grief through meditation. When a new friend develops cancer, Rafer takes his practice deeper, eventually discovering the ability to heal. Through trial and error, he expands his healing ability to include paranormal feats like psychokinesis (which he parlays into a fortune in Las Vegas), conflict resolution (which he uses to help win historic agreements in Jerusalem and Kashmir), and thought-transmission at the U.N. (which brings a president to his knees). In a final, concealed experiment he even attempts walking on water. In time his successes evoke a variety of responses. Some see him as a magician; others are convinced he is the Second Coming of Christ. Still others fear that he is the Antichrist warned about in the Bible. Through it all he eschews any suggestion of divinity,

remaining true to the belief that he has done nothing more than what all humans are capable of doing.

The Revolution on the Upper Ohio, 1775-1777 America Star Books

More powerful than a speeding Slug car, impervious to all forms of attack, able to leap through the air like a rocket in flight. Yes it's The Savior of Seattle... but he retired 25 years ago, officially at least. David, as he now likes to be called, still uses his ever-fading strength to stand up for the downtrodden, only now his efforts are confined to the slums he calls home. In desperate need to pay the rent, the previously reclusive hero agrees to a series of interviews with an equally desperate journalist. The unexpected popularity of the interviews pushes David back into the spotlight he has struggled to avoid, drawing the wrong kind of attention and endangering the very families David has been trying to protect. Will David decide to ride off into the sunset and live the life of celebrity he has earned, or will he continue to act as The Savior of Seattle, even if only as a shadow of his former self?

What if Jesus suddenly appeared and announced that he planned to run for President of the United States? Yes, that Jesus. And what if a well-meaning but utterly inexperienced band of disciples not only helped him mount a seat-of-the-pants campaign but also ran it well, getting millions of people to support him and in the process throwing the other two major party candidates—as well as the world's news media—into a frenzy as they scramble to discredit him? Roland Merullo's biting clever satirical novel about the state of American politics follows one man's campaign to bring

back goodness and kindness (real goodness and kindness this time) in a country that has fallen into a divisive state of fear and hatred. Merullo takes us into the heart of "a nation in grave spiritual danger" as the Son of man sets out to make everyone realize that "politics as usual" is no longer an acceptable alternative. *American Savior* is a remarkably innovative novel that challenges our perceptions and beliefs while it wags a finger at the folly of our self-righteousness. It is sure to cause controversy among those for whom politics itself has become a kind of religion.
