Parents want to share life with their kids, but it is not easy with hectic schedules and life's demands. "A Life Shared" offers vision and insight on how to have meaningful conversations through the busyness of life, questions for transformation, suggestions for action, and grace for every parent. Listen to what others are saying about "A Life Shared." "A MUST READ!" —Kathy Milans, Licensed Pastoral Counselor and Registered Play Therapist "Ellen Martin invites us to discover and develop the art of conversation with our children. I believe reading this book will change you and your family." —Stephen A. Seamands, PhD, Professor of Christian Doctrine "This is one of the most interesting, well-written books I have read in a long time." —Katie Moore, Children's Pastor "A Life Shared by Ellen Martin is a gift. I highly recommend this book." —Jeff Greenway, Lead Pastor "I believe Ellen Martin has

written a tremendously helpful tool for parents and those positioned to help them. When I need parenting advice, I call Ellen! I genuinely believe others can benefit from her wisdom and experience too!" — Sharon Bryant, Licensed Marriage Family Therapist and Registered Play Therapist "... excellent resource for parents, families, parishes, small groups, and all faith communities." — Mike Allen, M. Div., D. Min., Director of Family Life and Evangelization "I read it three times in one week!" —Martin Gornik, Anglican Pastor  
Eden and Ethan Discover the Power of Color JLML Press  
"Put away the wiggles. Put away the giggles. Listening works better when your body's calm and still." When it's time for young children to listen closely, this book sets the tone. They discover that it's important to open their eyes and ears but to close their mouths ("zip it, lock it, put it in your pocket") so good listening can begin. An award-winning author/illustrator team offers a fresh look at the times and transitions all toddlers face daily, giving young children the tools

to handle routines with confidence and cooperation. Part of the Toddler Tools series, Listening Time can be shared before (or during) the desired "time," or whenever toddlers need encouragement with routines. Includes tips for parents and caregivers.

Why does your toddler get upset when his or her routine is disrupted? Why do they follow you from room to room and refuse to play on their own? Why are daily routines such as mealtimes, bath time, and bed time such a struggle? This accessible guide demystifies the difficult behaviors of anxious toddlers, offering tried-and-tested practical

solutions to common parenting dilemmas. Each chapter begins with a real life example, clearly illustrating the behavior from the parent's and the toddler's perspective. Once the toddler's anxious behavior has been demystified and explained, new and effective parenting approaches are introduced to help parents tackle everyday difficulties and build up their child's resilience, independence, and coping mechanisms. Common difficulties with bath time, toileting, sleep, eating, transitions, social anxiety, separation anxiety, and sensory issues are solved, along with specific fears and phobias, and more extreme behaviors such as skin picking and hair pulling. A must-read for all parents of anxious toddlers, as well as for the professionals involved in supporting them.

\*COLORS-one of the first principles, to teach a child to recognize colors, can he show similar colors on other objects and repeat colors. This is the first step to develop an interest in drawing and coloring. \* SHAPES-Help your child recognize simple shapes of shapes that will help him further develop spatial thinking, as well as bright and beautiful colors for additional development and better memorization. \* HUMAN BODY-When your child begins to utter the first words or tries to repeat them, he develops

tactile sensations and perceptions through touch. At this moment, your child gets the very first impressions of the manifestation of your love, studies and remembers the dearest and close to him - this is mom and dad. Then he begins to study his own body and this section will help him learn what the body consists of and help to memorize the words by ear. In the future, it will help the child to inform parents about the places on the body that may cause concern since children are always the first steps and falls. \* THE FIVE SENSES-Teach your child the basic feelings of touch and how to recognize exceptions. \* FAMILY-is the most important thing for every person; family and friends will be very happy when your child recognizes them. \* WEATHER-the basic concepts of weather, introduce the child to the phenomenon of nature. \* FRUITS-useful and tasty fruits will help children identify differences and memorize what they like and what they have stayed. \* VEGETABLES-are an important ration baby food and will also help distinguish your favourite vegetables. \* TOYS-is a

favourite section for children in which they will show and compare with their toys or show their parents what toy they want. \* TRANSPORT-the main means of moving through the air, on land and by water. \* FARM ANIMALS-favourite animals that can be found on the farm. \* WILD ANIMALS-wild animals that live in the forest or in the mountain expanses. \* EXOTIC ANIMALS-introduce your child to African animals. \* MARINE ANIMALS-residents of aquatic fauna, will delight children. \* TOOLS-children love learning new things and this section will introduce you to father's tools. \* FURNITURE-this section will teach your child furniture that is at home. \* HOME APPLIANCES-children to get acquainted in this section with household appliances and what they serve. \* OPPOSITES-is an important topic for children and their parents so that the child learns to compare and identify opposites. \* ALPHABET-first letters in funny animals of the alphabet. \* NUMBERS-numbers and funny animals that teach you how to count your child. \* DAYS OF THE WEEK-your child learns to determine the days of the

week and when the holidays will finally be for sharing time. \* MONTHS OF THE YEAR-in this section, the child will learn how to identify months and will know when his birthday, Christmas or New Year comes. \* SEASONS-this section will help the child to understand which months belong to which season and when to wait for a beautiful blossoming spring, summertime or Christmastime. \* TIME-teach your child when it's time to wake up, at what time breakfast and walk time. A child learns to determine the time. \* SOLAR SYSTEM-mysterious and attracting, this section will take the first step of the child's interest in the starry sky. \* THE EARTH-what our planet consists of, how it changes day to night, when the seasons occur and how many days in a year are made in one revolution around the sun. \* ZODIAC SIGNS-an additional section to interest the child to the starry sky, the months of the year and the seasons.

Professional Parenting  
A groundbreaking guide to raising responsible, capable, happy kids  
Based on the latest research on brain

development and extensive clinical experience with parents, Dr. Laura Markham's approach is as simple as it is effective. Her message: Fostering emotional connection with your child creates real and lasting change. When you have that vital connection, you don't need to threaten, nag, plead, bribe—or even punish. This remarkable guide will help parents better understand their own emotions—and get them in check—so they can parent with healthy limits, empathy, and clear communication to raise a self-disciplined child. Step-by-step examples give solutions and kid-tested phrasing for parents of toddlers right through the elementary years. If you're tired of power struggles, tantrums, and searching for the right "consequence," look no further. You're about to discover the practical tools you need to transform your parenting in a positive, proven way.

What is your color of happiness? What is your color of Calm? Welcome to a Magical Journey of Discovery! During this voyage we learn of a powerful and helpful tool

lying within each and every one of us. With Eden and Ethan's help, you will be able to unlock your very own super power and teach your children how this special ability can help them become empowered and independent. This super power has the potential to help our children make wiser choices and encourage them to think for themselves when those they rely on to help are not by their sides. Eden and Ethan are twins and best friends. They share almost everything, and are sure that this will always be so. One day, when the twins are five years old, they become aware that they are separate individuals with their own set of emotions and feelings, unique to themselves. For the first time ever, the twins set off on a wondrous journey of realization, with the understanding that they do not always see the world in quite the same way, and certainly not at the same time. Eden and Ethan discover that each emotion is represented by a different color for everyone. They found that by closing their eyes and coloring over negative feelings with a color that for them represents a positive emotion, they

could actually make better decisions in their lives, and help their friends and family too. Now the twins need their parents help, and together, they all built a 'Wheel of Color' - full of names of different emotions inside the colors. For every person each feeling can be represented by a different color. The entire family decided that this new super power which they named 'rainbow power'. This most helpful, empowering tool is not only free, but it is always available in our minds at all times, just waiting to be unlocked. It can be called upon whenever needed and help almost everybody manage their emotions on their own. Visit the author's website [debigueron.com](http://debigueron.com) and sign up for her newsletter. You will receive a free 32-page activity book that can be downloaded within seconds. Your children will be kept busy for hours and will learn the colors of their own emotions whilst having fun.

Llama has a sharing drama! Build a tower. Make a moat. Nelly's dolly sails a boat. What can Llama Llama add? Maybe sharing's not so bad.

Llama Llama has new neighbors! Nelly Gnu and her mama stop by for a play date, but Llama's not so sure it's time to share all his toys. Maybe just his blocks? It could be fun to make a castle with Nelly . . . But wait--Nelly has Llama's little Fuzzy Llama! The fun turns to tears when Fuzzy Llama is ripped in two, "all because of Nelly Gnu!" Mama comes to the rescue and fixes Fuzzy, but she makes it clear: "I'll put Fuzzy on the stairs, until you're sure that you can share." Fun to read aloud and helpful to children and parents alike, Llama Llama Time to Share is for any child who needs a little encouragement in sharing.

Do you want to know why all children should listen to the Greatest Bedtime Stories for Kids? In recent years for parents, putting a child to bed and getting used to it at the right pace has become one of the most stressful moments of the day. Our children would prefer to spend hours and hours in front of a TV or in front of an electronic game rather than accepting the fact that the time has come to end the day and go to

bed. This happens because they have no good reason to associate the moment of sleep with a moment of fun. imagine what it would be like to get your child used to creating a sweet, fun and reassuring evening ritual that will accompany him to sleep. imagine what it would be like to give your child the right amount of attention, pampering and understanding while you are getting used to specific rules imagine what it would be like to see your child excited to go to bed because he knows he is going to share one of the best moments of the day with his parents. imagine what it would be like not having to wait anxiously for the moment to communicate to your children that it is time to sleep. The bedtime stories also guarantee moments of intimacy and sharing in the family. Moments that will remain forever etched in the memories of each child. It is precisely in the evening, just before going to sleep, that the children process what happened during the day and often need to be reassured. Through these tales and tales, mom and dad can be comforting and give courage to their child without facing the topic

that causes stress and at the same time providing the best tools to successfully overcome the small difficulties of everyday life. "A subtle, deceptively simple book about inclusion, hospitality, and welcoming the 'other.'" —Kirkus Reviews "A boundlessly inclusive spirit...This open-ended picture book creates a natural springboard for discussion." —Booklist "This sweet extended metaphor uses an umbrella to demonstrate how kindness and inclusion work...A lovely addition to any library collection, for classroom use or for sharing at home." —School Library Journal In the tradition of Alison McGhee's *Someday*, beloved illustrator Amy June Bates makes her authorial debut alongside her eleven-year-old daughter with this timely and timeless picture book about acceptance. By the door

there is an umbrella. It is big. It is so big that when it starts to rain there is room for everyone underneath. It doesn't matter if you are tall. Or plaid. Or hairy. It doesn't matter how many legs you have. Don't worry that there won't be enough room under the umbrella. Because there will always be room. Lush illustrations and simple, lyrical text subtly address themes of inclusion and tolerance in this sweet story that accomplished illustrator Amy June Bates cowrote with her daughter, Juniper, while walking to school together in the rain.

No one looks into the eyes of their newborn child and thinks, "I can hardly wait for the day that I start yelling at you!" Yet just as the joys of parenting

delight us, the stresses of parenting test us. This book offers the tools to relieve these stresses, while also deepening our understanding of the toddler's brain, body and emotions. Plus, with *Glance & Go Guides*, *Sample Scripts*, and *Illustrated Strategies*, it fits seamlessly into the multi-tasking, mobile, always interrupted, time-crunched life of a toddler parent, who (though highly literate) has precious little time to read. From the expertise of parent educator Dr Yvonne Gustafson, once called "the manual children should come with," this book readies parents for the day-to-day challenges of the highly active toddler years with smart, compassionate and age-appropriate parenting support for meltdowns, sleep, sharing, transitions, refusals, whining, biting, toilet training and more. It includes a *Playdate Guide*, as well as guides to manage the challenges of daily living from grocery shopping to restaurants to chores. The focus is on the toddler, but also the toddler parent, with discussions on temperament, parenting style and the unique rewards, stresses, demands and discoveries

of parenting. Grounded in an expert understanding of child development, a philosophy of parenting with respect, affection and support, and attention to parental stressors, needs and overall family dynamics, this book equips parents so that they can feel capable, loving and confident as they, in turn, nurture capable, loving and confident children.

Parents feel that a fast-paced lifestyle requires constant hurry to complete the next task and causes them to lose control over how time is spent. This environment makes it more difficult to build relationships with their children and teach them to honor priorities, care about others, maintain health, manage conflicts, and achieve balance. Our cross-cultural studies of families have found that the most important gift parents can

give their children is spending time together. Being together without multitasking or other interruptions increases sharing, in depth conversations, learning, and closeness. This book shows how to prepare children for school by providing the following experiences. • Parents have a new obligation, introducing their children to the Internet. Parent and child Internet visits are presented for each chapter with guidelines for teaching online.

Information about child development stages are provided for parents on additional Web sites. You can link to these Web sites at Information Age Publishing

(<http://www.infoagepub.com/strom-young-children>)

• Parents and children spend more time watching television together than doing other things. Conversation questions are provided as a tool that parents can use to find out how children interpret events they see and detect learning needs. • Children will more likely become creative adults if they receive support for imagination and curiosity. Examples illustrate the merits of playing alone, playing with friends, and

pretending with parents. • Boys and girls like bedtime stories and are motivated to read when they see parents read for pleasure. Children's books that are recommended for discussion reinforce values parents hope to convey. • Parents are responsible for teaching foundation lessons about socialization. Methods are described to foster development of child self-control, getting along with others, managing fears, and setting goals. • Parents benefit from feedback on how well their goals and practices reflect principles of child development. A parent self-evaluation form includes questions and answers to identify personal strengths and learning needs. This book is for parents, grandparents, and other educators of young children ages 3 to 8.

Every teacher knows them: bright students who face learning difficulties that interfere with their ability to shine at school. *101 School Success Tools for Smart Kids With Learning Difficulties* is a comprehensive resource that will help educators recognize and nurture the potential in these students, providing strategies to empower smart kids with learning challenges to become successful, confident, and independent learners. In this book, teachers will

find essential information to help them gain a better understanding of these kids and how best to address their needs. In addition, student scenarios bring these ideas to life, and practical tools support teachers' planning and implementation of best practices within the classroom. Written for educators, but also useful as a guide for parents, the book provides ways of revealing and developing a child's strengths. By combining their knowledge and expertise with the tools in this book, teachers can create a dynamic learning environment in which their students will thrive! [Peaceful Parent, Happy Siblings](#) Routledge  
This work deals with the

fathers' influence on and contribution to their children's emotional, intellectual, and social development. It presents a broad-scale review of all we know about paternal influences on the development of the child. Early chapters cover history of fatherhood, images of the father in psychology and religion, and varieties of fathering and father-infant relationships. Succeeding sections examine paternal influences at different stages of the child's life (preschool, school age, adolescence), ethnic differences, varieties of family structure (divorced and stepfathers), unconventional fathers (gay, adolescent, abusive), and adjustment and father-child relationships.
