Reference Help

ForExcellent reference

book to keep in your back

pocket. I write bash

scripts almost on a daily

basis, and I've found

myself referring to this

book several times to look

up syntax and better

ways of doing things. For

the \$10, you can't go

wrong. While we can

always google things, it's

always nice to have

something else you can

look to.Amazon.com: Bash
