The Whole Story Chronicle Books

An instant classic--a lively new introduction to contemporary art that stretches from Andy Warhol's Brillo boxes to Marina Abramovi&ć's performance art to today's biennale circuit and million-dollar auctions. Encountering a work of contemporary art, a viewer might ask, "What does it mean?" "Is it really art?" and "Why does it cost so much?" These are not the questions that E. H. Gombrich set out to answer in his magisterial *The Story of Art*. Contemporary art seems totally unlike what came before it, departing from the road map supplied by Raphael, Dürer, Rembrandt, and other European masters. In *The Story of Contemporary Art*, Tony Godfrey picks up where Gombrich left off, offering a lively introduction to contemporary art that stretches from Andy Warhol's Brillo boxes to Marina Abramovi&ć's performance art to today's biennale circuit and

million-dollar auctions. Godfrey, a curator and writer on contemporary art, chronicles important developments in pop art, minimalism, conceptualism, installation art, performance art, and beyond.

**The colonial story of the art in our museums & why we need to talk about it** Laurence King Publishing

"The Story of Art is one of the most famous and popular books on art ever published. For 45 years it has remained unrivalled as an introduction to the whole subject, from the earliest cave paintings to the experimental art of today. Readers of all ages and backgrounds throughout the world have found in Professor Gombrich a true master, who combines knowledge and wisdom with a unique gift for communicating directly his own deep love of the works of art he describes." "The Story of Art owes its lasting popularity to the directness and simplicity of the writing, and also the author's skill in presenting a clear narrative. He describes his aim as 'to bring some intelligible order into the wealth of names, periods and styles which crowd the pages of more ambitious works', and using his insight into the psychology

of the visual arts, he makes us see the history of art as 'a continuous weaving and changing of traditions in which each work refers to the past and points to the future, a living chain that still links our own time with the Pyramid age'. In its new format, the 16th edition of this classic work is set to continue its triumphant progress for future generations and to remain the first choice for all newcomers to art."--BOOK JACKET. A moving reflection on a subject that touches us all, by the bestselling author of *Claire of the Sea* Light Edwidge Danticat's *The Art of Death: Writing the Final Story* is at once a personal account of her mother dying from cancer and a deeply considered reckoning with the ways that other writers have approached death in their own work. "Writing has been the primary way I have tried to make sense of my losses," Danticat notes in her introduction. "I have been writing about death for as long as I have been writing." The book moves outward from the shock of her mother's diagnosis and sifts through Danticat's writing life and personal history, all the while shifting fluidly from examples that range from Gabriel García Márquez's *One Hundred Years of Solitude* to Toni Morrison's *Sula*. The narrative, which continually circles the many incarnations of death from individual to large-scale catastrophes, culminates in a beautiful, heartrending prayer in the voice of Danticat's mother. A moving tribute and a work of astute criticism, *The Art of Death* is a book that will profoundly alter all who encounter it.

A traditional short story has a beginning, middle, and end; it features dramatic conflict and dynamic characters struggling to achieve goals where the stakes are high. Traditional short stories end with a strong climax that reveals dramatic transformations in the characters. Such stories have a hypnotic power that makes the reader dream the fictive dream. Traditional short stories are highly emotional, they will often make you laugh or cry, be frightened or terrified, and they usually say something important about human nature. The best of them will stay with you long after you read them, perhaps years. Perhaps a lifetime.

Vacant lots. Abandoned houses. Trash--lots of trash. Heidelberg Street was in trouble! Tyree Guyton loved his childhood home--that's where his grandpa Sam taught him to "paint the world." So he wanted to wake people up... to make them see Detroit's crumbling communities. Paintbrush in hand, Tyree cast his artistic spell, transforming everyday junk into magic trash. Soon local kids and families joined Tyree in rebuilding their neighborhood, discovering the healing power of art along the way. This picture book biography of Tyree Guyton, an urban environmental artist, shows how he transformed his decaying, crime-ridden neighborhood into the Heidelberg Project, an interactive sculpture park. The story spans from Tyree's childhood in 1950s Detroit to his early efforts to heal his community through art in the 1980s. Tyree's awards include Michigan Artist of the Year and International Artist. *MAGIC TRASH* offers strong themes of working together, the power of art, and the importance of inspiring community--especially kids--to affect action. The Heidelberg Project is internationally recognized for providing arts education to children and adults and for the ongoing development of several houses on Heidelberg Street. Not only does the Heidelberg Project prove that when a community works together it can rebuild itself, but it also addresses the issues of recycling, environmentalism, and community on a global level.

In *The Art of Storytelling*, John Walsh takes us through the steps to presenting a compelling story--outlining the strategies that helped him move from stutterer to storyteller. This book will help any person with a story to share by walking you through all aspects of presentation . . . from what to do with your hands as you speak all the way to crafting a killer ending. "Probing, jargon-free and written with the pace of a detective story... [Procter] dissects western museum culture with such forensic fury that it might be difficult for the reader ever to view those institutions in the same way again." Financial Times 'A smart, accessible and brilliantly structured work that encourages readers to go beyond the grand architecture of cultural institutions and see the problematic colonial histories behind them.' - Sumaya Kassim Should museums be made to give back their marbles? Is it even possible to 'decolonize' our galleries? Must Rhodes fall? How to deal with the colonial history of art in museums and monuments in the public realm is a thorny issue that we are only just beginning to address. Alice Procter, creator of the Uncomfortable Art Tours, provides a manual for deconstructing everything you thought you knew about art

history and tells the stories that have been left out of the canon. The book is divided into four chronological sections, named after four different kinds of art space: The Palace, The Classroom, The Memorial and The Playground. Each section tackles the fascinating, enlightening and often shocking stories of a selection of art pieces, including the propaganda painting the East India Company used to justify its rule in India; the tattooed Maori skulls collected as 'art objects' by Europeans; and works by contemporary artists who are taking on colonial history in their work and activism today. The Whole Picture is a much-needed provocation to look more critically at the accepted narratives about art, and rethink and disrupt the way we interact with the museums and galleries that display it.
