What makes a good manager? Though we can probably all point to someone we think of as a good manager, what precisely makes them so good at their job is a complex question – and one central to good business organization. Management scholar Douglas McGregor's seminal 1960 book *The Human Side of Enterprise* is perhaps the most influential attempt to answer that question, and provides an excellent example of strong evaluative and reasoning skills in action. Evaluation is all about judging the strength and weakness of positions: a critical evaluation asks how acceptable a line of reasoning is, how adequate, relevant and convincing the evidence is. McGregor sought to find out what makes a good manager by evaluating different management approaches, their assumptions about human behavior, and effects they had. In his view, management approaches could be roughly broken down into two "theories": Theory X, which held a negative idea of employee motivations; and Theory Y, which made positive assumptions about them. In McGregor's evaluation, Theory Y produced markedly better results in productivity and other measurable areas. On this

basis, McGregor reasoned out a strong, persuasive argument for adopting Theory Y strategies on a grand scale.

More than a decade ago, before globalization became a buzzword, Yves Dezalay and Bryant G. Garth established themselves as leading analysts of how that process has shaped the legal profession. Drawing upon the insights of Pierre Bourdieu, *Asian Legal Revivals* explores the increasing importance of the positions of the law and lawyers in South and Southeast Asia. Dezalay and Garth argue that the current situation in many Asian countries can only be fully understood by looking to their differing colonial experiences—and in considering how those experiences have laid the foundation for those societies' legal profession today. Deftly tracing the transformation of the relationship between law and state into different colonial settings, the authors show how nationalist legal elites in countries such as India, Indonesia, Malaysia, the Philippines, Singapore, and South Korea came to wield political power as agents in the move toward national independence. Including fieldwork from over 350 interviews, *Asian Legal Revivals* illuminates the more recent past and present of these legally changing nations and explains the profession's recent revival of influence, as spurred on by American geopolitical and legal interests.

Developing braver leaders Routledge

As the Millennium Development Goals (MDGs) pass their 2015 deadline and the international community begins to discuss the future of UN development policy, Poverty and the Millennium Development Goals brings together leading economists from both the global North and South to provide a much needed critique of the prevailing development agenda. By examining current development efforts, goals and policies, it exposes the structurally flawed and misleading measurements of poverty and hunger on which these efforts have been based, and which have led official sources to routinely underestimate the scale of world poverty even as the global distribution of wealth becomes ever more imbalanced.

Courting Destiny Discourse Analysis A Resource Book for Students Routledge English Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in the series offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries and key readings - all in the same volume. The innovative and flexible 'two dimensional' structure is built around four sections - introduction, development, exploration and extension - which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained. Each book in the series has a companion website with extra resources for teachers, lecturers and students. Discourse Analysis, 2nd Edition: - provides a comprehensive overview of the major approaches to and methodological tools used in discourse analysis; - introduces both traditional perspectives on the analysis of texts and talk as well as more recent approaches that address technologically mediated and multimodal discourse; - incorporates practical examples using real data; - includes new articles from key authors in the field, including Jan Blommaert, William Labov, Paul Baker, Penelope Brown and Stephen Levinson; - is supported by a companion website featuring extra activities, additional guidance, useful links and multimedia examples including sound files and YouTube videos. Features of the new edition include: new readings featuring cutting-edge research; updated references; revised and refreshed examples; and a wider range of material from social media that includes Twitter, Instagram and Snapchat. Written by an experienced teacher and author, this accessible textbook is essential reading for all students of English language and linguistics. Discourse

Heaven's Gate, a secretive group of celibate "monks" awaiting pickup by a UFO, captured intense public attention in 1997 when its members committed collective suicide. As a way of understanding such perplexing events, many have seen those who join cults as needy, lost souls, unable to think for themselves. This book, a compelling look at the cult phenomenon written for a wide audience, dispels such simple formulations by explaining

how normal, intelligent people can give up years of their lives—and sometimes their very lives—to groups and beliefs that appear bizarre and irrational. Looking closely at Heaven's Gate and at the Democratic Workers Party, a radical political group of the 1970s and 1980s, Janja Lalic gives us a rare insider's look at these two cults and advances a new theoretical framework that will reshape our understanding of those who join such groups. Lalic's fascinating discussion includes her in-depth interviews with cult devotees as well as reflections gained from her own experience as a high-ranking member of the Democratic Workers Party. Incorporating classical sociological concepts such as "charisma" and "commitment" with more recent work on the social psychology of influence and control, she develops a new approach for understanding how charismatic cult leaders are able to dominate their devotees. She shows how members are led into a state of "bounded choice," in which they make seemingly irrational decisions within a context that makes perfect sense to them and is, in fact, consistent with their highest aspirations. In addition to illuminating the cult phenomenon in the United States and around the world, this important book also addresses our pressing need to know more about the mentality of those true believers who take extreme or violent measures in the name of a cause.

Born in 1925, Shanti Bhushan was witness to the formative years of the Indian republic. *Courting Destiny* traces the remarkable story of his life--the family's origins in the town of Bijnor in the United Provinces, the experience of growing up in a joint family in Allahabad, initial encounters with the law when the Constitution of India was being framed, the distinguished career as a lawyer and law minister, culminating in the campaign for judicial accountability. These memoirs provide a participant's account of some of the most interesting and seminal cases that laid the foundations of India's constitutional history. They include the Keshav Singh case of 1964 which led to the first standoff between the executive and the judiciary; Indira Gandhi's election case which unseated her as prime minister, leading to the imposition of the Emergency; the habeas corpus case where the Supreme Court declared that during an emergency there is no right to life or liberty and hence no recourse against illegal detention; and the parliament attack case in which the Supreme Court, while acquitting Shaukat Guru of all charges of conspiracy, convicted him on a charge for which he was never accused. Together, they offer a broad perspective of the evolution of Indian law and the interpretation of the Constitution. *Courting Destiny* affords us a glimpse of the many fundamental and far-reaching political and constitutional changes that took place in the decades following independence. The descriptions of Shanti Bhushan's brief involvement in party politics and his time as law minister in the post-Emergency Janata government make for a fascinating insider's account of an important phase of the nation's life. In this narration of the author's life and work, the personal, the professional and the public unfold seamlessly, never at the cost of one or the other. Written in a direct and engaging style, laced with gentle humour, *Courting Destiny* will appeal to all those interested in India's legal, constitutional and political history. At a time when both the Bar and the Bench are under a cloud, the illustrious sixty-year career of Shanti Bhushan will be a source of inspiration for young advocates.

Institutions of higher education are currently having to react speedily and creatively to a range of demands connected with education for intending and already qualified professionals. In addition to traditional requirements for continuous professional development and updating, there is a growing awareness of skills needs, interprofessional cooperation, and innovative learning styles. This volume examines the context, development and management of a portfolio of professional courses. It draws out a number of practical case studies from one institution, Oxford Polytechnic, and emphasizes the necessity of a planned institutional framework including an overarching strategy for professional education. The overall design of the book identifies key issues and objectives and shows in practical ways how institutions can act to meet them. It should be of interest to those involved in the development and management of professional courses at both the course and departmental/institutional levels, as well as to others with a broad interest in issues of professional practice.

This book provides the first comprehensive analysis of the impact of globalization on the Indian legal profession. Employing a range of original data from twenty empirical studies, the book details the emergence of a new corporate legal sector in India including large and sophisticated law firms and in-house legal departments, as well as legal process outsourcing companies. As the book's authors document, this new corporate legal sector is reshaping other parts of the Indian legal profession, including legal education, the development of pro bono and corporate social responsibility, the regulation of legal services, and gender, communal, and professional hierarchies with the bar. Taken as a whole, the book will be of interest to academics, lawyers, and policymakers interested in the critical role that a rapidly globalizing legal profession is playing in the legal, political, and economic development of important emerging economies like India, and how these countries are integrating into the institutions of global governance and the overall global market for legal services.

Practices of Citizenship in East Africa uses insights from philosophical pragmatism to explore how to strengthen citizenship within developing countries. Using a bottom-up approach, the book investigates the various everyday practices in which citizenship habits are formed and reformulated. In particular, the book reflects on the challenges of implementing the ideals of transformative and critical learning in the attempts to promote active citizenship. Drawing on extensive empirical research from rural Uganda and Tanzania and bringing forward the voices of African researchers and academics, the book highlights the importance of context in defining how habits and practices of citizenship are constructed and understood within communities. The book demonstrates how conceptualizations derived from philosophical pragmatism facilitate identification of the dynamics of incremental change in citizenship. It also provides a definition of learning as reformulation of habits, which helps to understand the difficulties in promoting change. This book will be of interest to scholars within the fields of development, governance, and educational philosophy. Practitioners

and policy-makers working on inclusive citizenship and interventions to strengthen civil society will also find the concepts explored in this book useful to their work.

"In the 1970s, the term 'sexual harassment' was coined by American women to describe what until then had been an experience without a name. The phenomenon subsequently acquired a discourse that has gone largely unchallenged in the intervening years. But do prevailing definitions of harassment adequately reflect the complexity of the issue? Or is it now time to challenge the conventional assumptions that underlie our approach to - and our ways of dealing with - the problem of harassment?" "Rethinking Sexual Harassment makes a significant contribution to our understanding of the issue by questioning the language we use to describe harassment and the assumptions we make when we think about it. It investigates the connections that exist between types of behaviour usually described as harassment; it reexamines the complicated relationship between gender and ethnicity, sexuality, age, religious belief and other aspects of identity; it scrutinises the ways in which harassment is perceived." "Rethinking Sexual Harassment is an innovative and challenging contribution from feminists in Britain to an important and continuing debate."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
